This image shows a blank, aged, cream-colored page from a ledger or account book. The page is ruled with horizontal lines and vertical red lines that create columns for accounting entries. The paper has a slightly textured appearance with some minor discoloration and small brown spots, characteristic of old paper. The right edge of the page shows the binding of the book, with visible stitching and the edges of other pages. There is no text or other markings on the page.

John McKay

This image shows a blank, aged, cream-colored page from a ledger or account book. The page is ruled with horizontal blue lines and vertical red lines, creating a grid-like structure. The right edge of the page is severely damaged, with a large tear exposing the brown fibers of the binding. Faint, illegible handwriting is visible along the right edge, possibly from the reverse side or an adjacent page. The paper has a slightly textured appearance with some minor discoloration and small dark spots.
