PREFACE

"IN THE LAND OF THE SKY"

It is almost needless to state in presenting to you Volume XI of the City Directory that Asheville has seen another year of prosperity.

A glance through the advertising pages of the Directory will convince you, that Asheville is by no means a dead town.

The great majority of merchants know the value of judicious advertising and are forging rapidly ahead. Few failures have been recorded, while a large number of new industries have sprung up.

Day
by day
Asheville

grows
greater.

Like the ever
flowing stream
or restless tide
new people contin-
tually flow in. Few
ever leave dissatisfied.

The natural advantages
of Asheville place it in a
class to itself. We there-
fore should pull the harder and

FOREST HILL

ASHEVILLE, N. C.

"Buried deep in a forest of virgin growth, yet within close access by electric car line to every part of the city of Asheville, is that well-known old colonial house, Forest Hill. This establishment has reigned supreme for several years as the most popular place in the suburbs to stop when spending the summer or winter in Asheville.

"Forest Hill is one of those happily located places just far enough out of the city to be removed from the noise and dirt and other objectionable features, yet near enough to have the advantages of city water, telephones, free delivery of mail and the service of the street car line.

"The house is a large old fashioned, ante bellum mansion with wide spreading verandas surrounding it, up stairs and down; wide halls, large sunny rooms with open fireplaces (also furnace heat for winter), and many other attractive features one often longs for but rarely finds at a resort.

"From the porch and almost every room in either the main building or cottage one gets an extended view over the Swannanoa valley, Kenilworth Park, the Vanderbilt estate and stretches of the principal mountain ranges and peaks.

"The Biltmore car line, which runs on a schedule of fifteen minutes, passes the foot of the grounds, furnishing excellent facilities for getting in or out of town." *Asheville Gazette-News.*

HEALTH IS COMBUSTION

My business is aiding nature to dispose of this unwelcome abnormality. I accomplish this by means of a physiological, scientific system of manual manipulation of the structure which, by accelerating the circulation, increases combustion and so facilitates the natural elimination of a diseased condition. In short, I make it possible for the body to purify itself by improving the circulation. This is the object and certain result of Mechano Therapy.

I do not disparage the noble art of the physician and surgeon, and if your sickness is not amenable to Mechano-Therapy, I shall tell you so frankly.

Is the greatest friend making and trade building **COAL** we have handled during our 20 years' experience in the Coal business.

WHY?

Because every ton we send out bears the same high grade heating guarantee.

SUSQUEHANNA ANTHRACITE

We handle exclusively, shipped direct from the mines in Pennsylvania, and not purchased from the Southern Yards, where all grades are dumped promiscuously.

St. Genevieve's College

Select Home College for the Higher Education of Young Ladies

[SEE OTHER SIDE]

St. Genevieve's College

is both a Boarding and Day School and within easy access of the car line though sufficiently removed from the city to prevent the college work being disturbed by the noise of traffic. A private bus (free of charge) conducts the day scholars to and from the college.

The faculty is a body of experienced teachers, each holding one or more degrees in European universities, several from Oxford as well as from the continent, and one from Vassar. German and French are taught by thoroughly qualified native sisters, and the same might be very significantly said of the English language as well.

From music and mathematics to household economics and sewing, the ground is well covered. Unlike many other schools no extra charge is made for French, German, Needlework and Physical Culture. There is also a Commercial Department in connection with the college. Basket Ball and Tennis Courts are laid out in the spacious grounds.

Hillside Convent, 74 North Main street. Preparatory department, includes Kindergarten, Primary and Preparatory Classes. Boys and Girls are taken up to the age of thirteen.
