PREFACE

Some Interesting Facts for the Investor, Manufacturer, Homeseeker, Tourist and Public in General

First, from the standpoint of an **Investor**, Asheville is an enterprising city, its rapid growth had made necessary a new water supply; today the water system of Asheville is second to none. According to its population Asheville has more paved streets than any other city in the entire South. Street car service superior to that of many cities three times the size; about twenty miles of electric railway in operation, a modern sewerage system, both gas and electric light plants, two daily papers and a great back country from which to draw trade.

Manufacturer. Water power is abundant, as may be inferred from the character of the country; streams, bold, free and numerous, the water clear, pure, soft and free from iron, exactly what is needed for bleacher-ies, dye works, tanneries and pulp making. Five miles below Asheville on the French Broad river, the W. T. Weaver Power Co. has developed a large electric plant for the transmission of power.

Railroad facilities are good; the Southern Railway penetrates the city with several lines and there is now under way of construction a new inde-

pendent trunk line, the completion of which will not only be of great benefit to the manufacturer and the merchant, by giving still better facilities and lower rates, but will open up new fields for commerce, cause new industries to spring, increasing population and at the same time enlarging revenue. There is no city in the Southland that has a brighter future than Asheville, therefore we do not hesitate to say to the investors or the manufacturers that no city presents to them a more excellent field for operation, and that they can feel assured that nothing will be permitted to occur which would tend to hinder or blockade progress. The Asheville Board of Trade invites every investigation from parties seeking sites for factories or other business enterprises.

Homeseeker. Asheville has many advantages peculiar to itself, situated as it is, high up amid the eternal hills, by nature an ideal home place; one has but to look in any direction and behold the beauties of nature. Scenery that is magnificent; there mountain upon mountain, range after range, in silent grandeur stand, but it is not alone what the eye beholds, the great

God of the Universe has bestowed upon Asheville a still greater blessing, that of pure dry air, a climate that is unsurpassed. The character of the people can be determined from the number of churches, there being twenty-five, a large Y. M. C. A. building, and other religious bodies. As to schools, be it sufficient to say that Asheville is an educational center. Her public schools are models of architecture and her system one of the most efficient in the country; there are also many private schools of more than local fame. Employment can readily be found, opportunities for small fruit-growing, poultry-raising, canning, trucking, stock-raising and woodworking are excellent. If it's a home you are seeking, why look farther? Asheville offers every inducement, and her doors are open to bid you welcome.

Tourist. Asheville as a tourist resort is well known; her fame is world-wide; splendid hotels, every accommodation. 'Tis here you find rest, enjoy the pure, fresh air that invigorates. Recreation that drives away the care and worry of every day affairs; horse-back riding, driving over beautiful driveways, boating on the lake, tramping through the mountain trails or playing golf on the splendid links of the Swannanoa Country Club.

To the Public in General.—Those of you who make Asheville your home,

should feel proud of the fact that you are a citizen and have aided in making Asheville the Queen City of the Land of the Sky. We now take pleasure in thanking you for the courteous way in which you gave and supplied us with the proper data for this work, and we hope that you will liberally patronize the public-spirited men who have advertised herein, thus aiding in giving your city an up-to-date directory.

Estimate of the population of a city is a matter necessarily enjoined upon the directory publisher. The figures which we herewith tender are arrived at from careful calculation and can be considered practically accurate. These figures represent all persons living or doing business within the city, as well as those living in the adjacent suburbs which to all purposes are a part of the city. The book contains 10,702 names of individuals, using the multiple $2\frac{1}{2}$ times, as is used by most directory publishers, gives the population of Asheville 26,755. A careful study of this preface and diligent perusal of the contents of this publication should fill every citizen with pride. No expense has been spared in making this a complete and valuable book, and we thank again all who have patronized it.

PRINTERS

WE are the Printers and Binders of this Directory—We are prepared to print anything from a dodger to a daily paper—We use the Linotype in our composing room, which casts new type for each job—We have a full line of the celebrated linen finish bond paper, that is now so popular—envelopes to match; other papers we carry are Cranes, Old Berkshire, Empire Bond, H. & M. Bond and the best grades of ledger paper.

¶ We operate in our press room two cylinders and five jobbers—Also a folder, stitcher and ruler—With such an equipment, backed by the very best and most experienced workmen, we feel confident that you will realize that you run no risk in placing orders with us.

Book Binding

¶ We have, in connection with our printing office, a thoroughly equipped Bindery; we solicit orders for special ruling and all kinds of binding—Send us your magazines, law books, Bibles and old books that you wish re-bound—We do as good work as you can get anywhere.

TELEPHONE 181

Asheville, N. C.

Hackney & Moale Co.

STATIONERS

EVERYTHING for the office—We are agents for Eaton & Hurlbut's celebrated correspondence papers—We carry all the new novels, and sell at 10 per cent less than publishers' prices—We sell and push the Waterman Ideal Fountain Pen, because we believe it to be the best on the market. ¶ We carry a full line of Rhododendron souvenirs, also novelties of every description; visitors will be especially interested in this department—We carry a greater variety of Souvenir Postal Cards than all other dealers in the city combined, eighty of these being from cuts we own, the work being done in Germany.

Typewriters and Supplies

¶ We sell the Remington and Oliver typewriters, all kinds of typewriter supplies, School Books and School Supplies; take orders for engraved and embossed stationery, wedding invitations, announcements, etc.—We are agents for the Yawman & Erbe Filing Cabinets, and all kinds of office furniture and devices—We are agents for the celebrated Gunn Sectional Bookcases.

"NONE BETTER"

Ford's Latest

Runabout "de Luxe" Model "S" \$700 f. o. b.
Detroit

TO MEET A LARGE DEMAND for a runabout that should combine the most desirable features of our two Models, N and R (\$600 and \$750), we now announce Model "S," an intermediate model, at an intermediate price—\$700.

CHASSIS IDENTICAL with N and R—same powerful, sweet-running motor, same transmission, frame, axles, steering gear—equipped with the 3-feed mechanical oiler we have been putting on the later R cars; body same as N, with pointed deck—many people like this design better than the round-backed R; wheels 28 in., shod with 3-in. Clincher tires.

WIDE FLARING FENDERS, connected by running boards; seats large, set higher and farther back from dash than in earlier N models.

EQUIPMENT INCLUDES side and tail oil lamps; French tube horn and storage battery.

PRICE F. O. B. DETROIT, \$700. Catalogue and price list of tops and other accessories, for the asking.

"If it's a Ford, it's ahead—a year ahead."

Ford 4 Cylinder Runabout 15 Horsepower

THE IDEAL DOCTOR'S CAR

THE MOST EXACTING SERVICE to which a motor car can be put is that of a Doctor's runabout. Like its owner, it must be ready for a call at any moment—any hour, day or night. And since time is precious—a few minutes may mean life or death—it must be dependable to the last degree.

A DOCTOR HAS NO TIME to fuss and fix and make adjustments—a turn of the crank and away, must be the condition at all times.

A CAR THAT IS LIABLE to disarrangement, to carburetor, ignition, and above all, to tire troubles, is worse than useless to a busy physician. Simplicity, reliability, certainty, are prime factors—economy of upkeep and specially tire economy, are next in importance.

A DOCTOR'S CAR MUST BE CAPABLE of more mileage in a year than any other type of car—10,000 is a fair average mileage for a physician's car. And broken asphalt, cobblestones, worn bricks and blocks are infinitely more severe on tires, springs and adjustments than are the worst country roads.

HENRY FORD HAD THIS IN MIND when he was designing the crowning achievement of his career—the now world-famous Model N. 4-cylinder, 15 horse power runabout—\$600. (Model "R" is "an edition de luxe," sells for \$750. Same chassis, but more frills and fussings). Ford built to meet conditions—and he built so well he now controls the runabout trade of the world.

THE FORD RUNABOUT STANDS without a rival today as a doctor's car. 1,100 pounds on a set of 3-inch tires means 15,000 miles on a set—less than a cent a mile, and wayside tire troubles have been practically eliminated.

15 HORSE POWER in an 1,100-pound car guarantees you go anywhere you start for—and there is always surplus power to meet any possible condition—to attain any desired speed or to negotiate any hill on "high gear."

TOUGH AS A HICKORY WITHE—it's as flexible as it is strong—as light as it is speedy—and as indestructible in service as it is handsome in appearance.

"A BRUSSELS CARPET DEMONSTRATION" is not convincing to the experienced doctor. Let's send you a list of doctors (perhaps in your own city) from whom you can learn facts that will astonish and delight you about this same Ford car in the hands of owners.

\$2,800 f.o.b. Detroit

"A DEMONSTRATION IS A REVELATION"

\$750 f.o.b. Detroit
