Section 28, Copyright Law
In Force July 7, 1909

That any person who wilfully and for profit shall infringe any copyright secured by this act, or who shall knowingly or wilfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

PUBLISHERS NOTE

The information in this Directory is gathered by an actual canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the directory.

HILL DIRECTORY CO., Inc., Publishers

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1950 edition of the Kannapolis City Directory, which also includes China Grove, Landis and the rural routes emanating from the Kannapolis Post Office. This is the first Hill Directory of Kannapolis, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Kannapolis' industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Kannapolis to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Kannapolis Directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments (Each department beginning with Page 1)

The six major departments are arranged in the following order:—

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Kannapolis, and the name, official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the designation of the number of children under Directory-listing age in each household.

II. THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Kannapolis. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Kannapolis, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Di-

rectory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE KANNAPOLIS RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

VI. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the sixth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Kannapolis and vicinity. There are more than 600 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which the Hill Directory Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

KANNAPOLIS

"THE TOWEL CITY"

(Courtesy, City Editor, Daily Independent)

Statistical Review

Population--U. S. Post Office Department estimate, 35,000.
Area--30 square miles (estimated). Boundaries are arbitrary, not official.

Altitude--803 feet above sea level.

Financial Data--1 bank, with deposits of \$36,601,415.87 (Dec. 31, 1949), and resources of \$38,951,952.90 (Dec. 31, 1949). New bank opened recently.

Postal Receipts--\$151,041.20 (1949).

Churches--50, representing 20 denominations.

Industry--Cotton textile manufacturing. Principal manufactured products: Towels, sheets, pillowcases and other household textiles.

Newspapers--1 daily and Sunday.

Railroads--Southern Railway.

Highways--U. S. 29 and 29-A.

Airports--2.

Amusements--Largest auditorium in city (theatre) seats 1,100. 6 moving-picture theatres, with total seating capacity of 4,200. 1 golf course near city.

Hospitals--Cabarrus Memorial Hospital, between Kannapolis and Concord, serves this area.

Education--9 public schools, including 1 senior high. Number of pupils in public schools, 5,419; teachers, 172.

Public Libraries--1, with 9,389 volumes.

Main Street, where the first store in Kannapolis was constructed, includes some of the finest shops in the state.

General Review

Astride the Cabarrus-Rowan county line, Kannapolis is thirty miles north of Charlotte. U. S. Highway 29 runs a few blocks east of the principal business district, while 29-A is the town's main street.

There are ample transportation facilities. The New York-New Orleans line of the Southern Railway and Carolina Coach-National Trailways buses serve Kannapolis.

Center of social and religious life in Kannapolis is the handsome and spacious Cannon Memorial Y. M. C. A.

The Post Office Department estimates the present population to be 35,000.

Kannapolis' 340 retail firms did \$28,000,000 worth of business in 1948. Effective purchasing power of Cabarrus County that year was \$862 per capita, which compared favorably with state and national averages.

The people here are church-goers. They make up more than 50 congregations.

And they have a keen civic spirit, working through such organizations as the Masons, Odd Fellows, Woodmen of the World, Red Men, Patriotic Order Sons of America, Junior Order United American Mechanics, Business Men's Club, Junior Chamber of Commerce, Rotary Club, Lions International, Pilot Club, Credit Women's Breakfast Club, American Legion and Veterans of Foreign Wars and their auxiliaries, War Dads, War Mothers, Boy Scouts, Girl Scouts, Independent Student Aid Association, Red Cross and dozens of fellowship clubs for all ages.

The heart of the community is the Cannon Memorial Y.M.C.A., which claims one of the largest memberships under one roof in the worldwide organization. At the end of the 1950 campaign, the rolls listed the names of 9,500 men, women, boys and girls.

It operates in a Colonial-style structure that cost \$500,000 in the years before World War II, when money went much farther than it goes today. Facilities include two large gymnasiums, three kitchens, a library that ranks with the finest in North Carolina, a spacious swimming pool, a health club, handball and volleyball courts, bowling alleys, billiard and tennis tables and numerous club and conference rooms.

This large neon sign overlooking the Cannon Mills lake portrays the famous trademark of Cannon Products.

Kannapolis' public schools bow to none in North Carolina. Enrollment in 1949-50 set a record--5,419 boys and girls.

Cannon High is known widely for its diversified courses, offering: The prescribed academic studies, home economics, vocational courses, art, dramatics, music, debating, journalism, physical education and Bible.

Arthur W. Rohr is director of the public school music program, which begins in the first grade and extends through Cannon High's senior class. His organizations stand out in high school competition, and last summer the Cannon High band represented North Carolina at the Lions International convention in New York City.

Kannapolis' key industry is the Cannon Mills Co., the world's largest manufacturer of household textiles--towels, bath mats, wash cloths, dish towels, sheets and pillowcases, also nylon stockings.

The town has been developed around the Cannon Mills.

Looking south on West Ave., this scene depicts new Colonial-type buildings now being erected in the multi-million-dollar expansion program under way in Kannapolis.

The First Baptist Church, located in the heart of the "Towel City," is one of many churches serving residents of Kannapolis.

Kannapolis, which derives its name from the Greek word meaning "loom city," was founded by the late James W. Cannon in 1905, when the great demand for Cannon towels prompted him to purchase a 600-acre tract of land in this section for the location of a new plant.

The village mushroomed.

Mr. Cannon, whose dream was a model textile city built around a booming industrial plant, contributed land and funds for construction of churches and schools.

He made, back in 1898, the first hand towel manufactured in the South, and by the time he died in 1921, Cannon towels had become nationally-famous.

After the founder's death, his son, Charles A. Cannon, became chief of the vast industry, and developed a textile trade far beyond his father's fondest hopes.

The Cannon organization now employs 21,000 men and women. Thousands of these workers have service records extending from 15 to more than 55 years. Those who have been with the company 25 years or longer are entertained at loyalty banquets each autumn.

Approximately 1,000 boys and girls of Kannapolis are enrolled at the J. W. Cannon High School, which includes complete vocational training.

Little Mt. Vernon in the City Park is a memorial to the more than 4,000 local men and women who served in the Armed Forces during World War II.

Charles A. Cannon, like his father, had dreams of a model manufacturing town--a beautiful town to which North Carolinians could point with pride.

In 1937, the fiftieth anniversary of the company, he launched a gigantic, multi-million-dollar construction and remodeling program. This expansion, interrupted by World War II, is still in progress.

Mr. Cannon was impressed with the manner in which historic Williamsburg, Va., had been rebuilt, and he engaged the C. E. Swanson Associates, Chicago architects, to survey Kannapolis' business district and draw plans to be used in the long-range construction program.

A result has been a transformation of the downtown district into Colonial-type architecture.

Mary Ella Hall, named in honor of the wife of the "Towel City" founder, is one of the buildings housing employees of Cannon Mills.

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. **List of local people (Neighborhood List)** within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. **Lists of business houses and the professions**—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. **Vocational Lists**—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.
Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

ADVICE

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

"r"— RESIDENT

"h"— HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

CASHIERS! TELLERS! — CLERKS! —

Do your employers furnish you with
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

HILL'S KANNAPOLIS

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide 1950

Including China Grove and Landis

Copyright, 1950, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Figures following names denote number of persons living at that number.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(c) denotes colored.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance)

CAUTION

 Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Your City Directory
— *Insures Proper Delivery*

HILL'S KANNAPOLIS NUMERICAL TELEPHONE DIRECTORY

This is a complimentary service in connection with your City Directory,
and for which no charge is made.

1950

INCLUDING LANDIS

Copyright, 1950, by Hill Directory Co., Inc.

Due to the necessity of frequently changing telephone numbers assigned to users, we suggest that you verify this information by referring to your local telephone book to see if any changes have been made since this Directory was compiled.

W H Y A *Buyers' Guide?*

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . **EXTENDED**

★ It is customary to include a Buyers' Guide in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.
