INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of South-eastern Directories, present to subscribers and the general public, this, the 1959 edition of the Whiteville City Directory, which also includes the rural routes emanating from the Whiteville Post Office.

This is the first Hill Directory of Whiteville, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Whiteville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Whiteville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Whiteville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Whiteville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Whiteville and vicinity and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

V. THE WHITEVILLE RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free reference, and serve as perpetual and reliable advertisements of Whiteville and vicinity.

The Whiteville Out-of-Town-City Directory Library

Through the courtesy of the publishers of the Whiteville City Directory, a Directory Library is maintained in the offices of the Whiteville Merchants Association, Inc., for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada, by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

History of Whiteville, North Carolina

Whiteville, the county seat of Columbus County, is located somewhat west and north of the geographic center of the county. The courthouse is situated in the crossroads of north-south and east-west highways, forty-nine miles due west of the port city of Wilmington. It is the heart of a rich coastal farming section and is supported primarily by agriculture.

Originally called White's Crossing, the town was named for James B. White who gave the site for the courthouse, two of which have been built since the original one. Around the courthouse, streets and lots were laid out and this section is now referred to locally as Old Whiteville or Uptown Whiteville. When the railroad came through in the 1840's, some considered that it would be a nuisance, since it would be noisy and disturb their stock, consequently, it ran a mile an an eighth to the south, and the depot this distance south of the courthouse was known as Vineland. The two names continued until the name Vineland was dropped and it became a part of Whiteville. The old Vineland section of the town is now spoken of as "Downtown" in contrast to "Uptown" or Old Whiteville.

Whiteville was incorporated by the legislature in 1883. The oldest map of Whiteville on file in the courthouse is dated 1897. It shows two or three squares in either direction from the courthouse and three streets leading to the depot where a few more lots are shown. Additional plats have been filed showing subdivisions of farms lying between the two centers and establishing the cross streets which are on the present map.

The road between the courthouse and the depot was a sand road until 1912, when a sand clay surface was laid. A sidewalk was built about 1890. The town issued bonds and established a water and sewer system in 1922 and 1923. There was a paving program in 1924, another in 1938 and another in 1941.

No finer chapter in Whiteville's history has been written than that concerning its participation in World War II. In services on both the home front and the military front, Whiteville, Citizens did their part.

Whiteville men fought in every theatre of operations and served in every branch of the service. They ranged in rank from private to full colonel. In proportion to population, they won their share of awards for meritorious service.

On the home front, all phases of the American Red Cross's volunteer program were carried out in a distinguished manner and in the War Bond Drives, national prominence was gained by local participation.

By legislative enactment, the schools of the White-

ville district comprise a school administrative unit separate from the county system. A recent fire has destroyed the high school plant but plans are underway to build a more modern and well-equipped school for the high school students which will bear rich fruit in the education of Whiteville youth.

In the field of religion, Whiteville is blessed with strong churches, magnificent buildings and good ministers. Methodists, Baptists and Presbyterians are the predominating denominations, although Pentecostal Holiness, Catholic, and Episcopal Churches have beautiful structures and are progressing with Whiteville. In addition, there are Free Will Baptists, Christian Missionary Alliance, Church of God and Jehovah's Witnesses.

During the past ten years, Whiteville's recreational program has been formulated and now consists of a full-time director, spacious playgrounds and equipment and a well-rounded program for the youth and adults of the community. The Whiteville Country Club provides a nine-hole golf course, and there are numerous private tennis courts and swimming pools.

Columbus County Hospital is located in Whiteville and has grown from a small institution in a home to its present capacity of 125 beds. It has ample equipment and competent, well-trained physicians for proper medical care.

Whiteville has a well-appointed and well-equipped city library with a wide circulation. The Whiteville Post Office, located in a beautiful building on Madison Street, has a first class rating.

The National Guard Armory is amply built to provide training space for this area's national guard.

The Whiteville Tobacco Market, of world-wide fame, has steadily progressed over the years and, now averaging over 32,000,000 pounds of tobacco sold each year during the three months selling season.

Whiteville is richly endowed with industrial possibilities in the lumber and agricultural field. It has a civic-minded citizenship who are anxious to promote the civic development of the town. It has business men with vision and energy and it has natural beauty. It has civic organizations which have proved their worth as civic enterprises.

Located as it is in the heart of a great county where virgin opportunities still abound, the future of Whiteville has possibilities yet unimagined. To the industrialists, particularly those whose industries are based in farm or forest products, who are looking for new territory where labor and raw materials are available on a year-round basis at a reasonable cost, Whiteville offers a golden opportunity. To small business men, who are looking for a congenial atmosphere in which to live and work and educate their children, they will find in Whiteville the fulfillment of their dreams.

WHY A YELLOW PAGE SECTION?

★It is customary to include a Yellow Page Section in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Page 2)**Out of Sight — Out of Mind — Out of Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in its Pages.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in its Pages.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however mer-
 itorious, will slip into the limbo of the forgotten if not persistently advertised.
 The City Directory is the natural medium for keeping
 a business or product name in the spotlight.

Out of sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in its Pages

HILL'S WHITEVILLE

Directory of Householders, Occupants of Office
Buildings and Other Business Places,
Including a Complete Street
and Avenue Guide

1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householders name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

Out of sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

WHY A YELLOW PAGE SECTION?

***It is customary to include
a Yellow Page Section in
the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

✱

**The Yellow Page Section is a necessary supplement
to the regular listings; it is good City Directory in-
formation . . . EXTENDED.**

Out of Sight - Out of Mind
★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.
