TARBORO

Tarboro is one of the most attractive towns in the South, socially and physically.

Every convenience of our complex civilization has been provided within the environs of Tarboro. Excellent schools, a wonderful park shaded by century-old trees, well-lighted and paved streets, municipally-owned and operated electric light plant, fire department and apparatus, and a pasteurizing plant, assuring "milk fit for babies."

The banks of Tarboro are exceptionally strong, and take an intelligent interest in the upbuilding of the town. There are twenty-five lumber mills in the surrounding country, fine cotton and oil mills, three cotton mills and three knitting mills, two guano factories and two buggy factories.

Tarboro has good transportation facilities, and has water transportation also by means of Tar River. The building of good roads has made great progress of late, and no country has better roads in the eastern portion of the State. The climate is mild and the growing season long. Cattle, hogs, sheep, corn, oats, cow peas, Irish potatoes, tobacco, wheat, melons, apples and fruits of every kind grown in the South are grown here.

Write the Chamber of Commerce for information.

ROCKY MOUNT

Rocky Mount is situated in Nash and Edgecombe counties. Lines of railroad run out in all four directions, the service, both freight and passenger, is satisfactory and convenient. It is no idle boast to say it is truly a "railroad center." It is a terminal of six railroad lines.

The main resources of Rocky Mount are naturally of agriculture. The city is situated in the very best farming section of North Carolina. Everything that is raised anywhere in the South is raised here.

The great shops of the Atlantic Coast Line Railroad are located here and give employment to over 3,000 men.

Rocky Mount has five tobacco factories, two cotton-seed oil and fertilizer factories, a large spindle cotton mill (the second oldest in the State), a hosiery mill, several lumber and wood-working factories, two ice factories with capacity 140 tons per day.

There are more enterprises than can be mentioned in the small space allowed to us.

Come

TRUCKS

When you buy a Motor Truck you make a business investment, you buy something for service. You don't care much about the beauty of the body or the grace of the lines—it's PERFORMANCE that counts. To sell a motor truck we wouldn't want to come around and take you to ride to convince you—a truck isn't built for comfort, either. The best demonstration we can give you is the PERFORMANCE of a truck in our own service. Watch ours. If you are at all interested in Motor Trucks, we will be glad to show you some very interesting facts.

BATTLEBORO

Battleboro is situated on the Atlantic Coast Line Railroad, eight miles from Rocky Mount. The railroad is the dividing line between Nash and Edgecombe. It is a very progressive and hustling town, the people among the best in the State.

It is noted for its excellent schools. It has fine farm lands in excellent state of cultivation. It was once the largest market for Spanish peanuts in the world. Several breeders of livestock make a specialty of pure-bred Hampshire hogs.

The principal industries and manufacturing plants are Battleboro Oil Company, Battleboro Ginning Co., blacksmith and automobile repair shops. Special inducements are offered to cotton mills."

PINE TOPS

The hustling town of Pine Tops is on the East Carolina Railroad, ten miles from Tarboro, the county seat.

It is the market for the surrounding country, the tobacco market being its specialty, but much cotton is also produced. It has two banks and an excellent high school. The attractive homes testify to the prosperity of the community.
