Are You Reaching After More Business

OR ARE YOU CONTENT WITH WHAT YOU ARE DOING?

A BUSINESS

A Man, or a Company never stands still; it's either a case of going forward or backward. Which place do you occupy? Is your business where it was a year ago? Or are you going back towards where you started? If you are going back or standing still it's time for action---it's time to put some life into your business and force behind your efforts to increase sales.

To put force behind your efforts and life into your business, there is no other way than by going forward---it's the only real "method."

A business needs intelligent advertising. "about the sales" that result from your prospective customers finding enough to

advertising. If you advertise intelligently and back up every statement in your advertising your business will be benefited just as sure as water runs down hill.

To place your advertising in the home---directly before a large per cent of the buying public of this section---use the advertising columns of

FERTILIZERS FOR WHEAT

Manufactured by *Union Guano Co. Winston-Salem, N. C.*

"UNION BRANDS" OF FERTILIZERS have won an enviable reputation as "CROP PRODUCERS," based on many years of experience. These brands have "made good" and are being used exclusively by many of the largest and most successful planters of Virginia and the Carolinas.

It will pay you to investigate the merits of these brands. Assure yourself of a "bumper" wheat crop by a liberal application of our wheat fertilizers. For drilling, these goods will be found superior to any others. We have the largest assortment of grain fertilizers on the market.

SPECIAL BRANDS FOR GRAIN, TOBACCO, COTTON, TRUCK, AND ALL OTHER CROPS.

It your dealer does not handle "UNION BRANDS" write to us direct.

PREFACE

28,095

CENSUS

28,095

IN PRESENTING our 1908 volume of the Winston-Salem Directory, we take pleasure in stating that Winston-Salem has made remarkable strides both in population and general improvement since the publication of the last Directory in 1906.

The census as shown above is for Winston-Salem and suburbs (the territory embraced in this volume), there being 9,365 names shown in the white and colored general departments, which multiplied by three makes the total 28,095, which is a growth of 5,233 for the years, which in itself is proof of Winston-Salem's progress.

This volume is divided into five departments, viz.:

First is Appendix showing churches, schools, secret and benevolent societies, incorporated companies, State, County and City Governments, etc.

Second is the Street Department showing streets and avenues in alphabetical order, regardless of their location, showing number of each house and name of occupant

Third is White Department showing the names of white population, name of wife if married, occupation and residence address.

Fourth is Colored Department, which is the same as the White Department.

Fifth is the Business Department showing the Business and professions under correct classification in alphabetical order.

As in the past, every useful feature known in directory preparation is used, and in this connection we invite the citizens to compare the Winston-Salem work with any directory published, no matter where.

In its preparation only expert directory compilers were used.

In the general departments where the names are shown, whether a citizen of Winston-Salem, Centerville, Southside, Waughtown, etc., the names are shown in proper alphabetical order; and following every name in the Directory we show the address, giving street and number, and if in Winston, show by initial letter (W); for Salem, (S); for Centerville, (C); for Southside, (S S), and Waughtown, (W T).

In conclusion, we desire to extend our thanks for the many courtesies shown the representatives of this work during its preparation; and to those who by their support made the publication possible, with assurance that we will continue to give the best service possible, we are, respectfully,

THE WALSH DIRECTORY COMPANY,

Winston-Salem, N. C., May 15, 1908.

W. H. Walsh, President.

WALSH'S

Winston-Salem Directory

For 1908

EXPLANATION

Reference to this department will show streets alphabetically arranged, regardless of their location.

All names in Street Directory denote heads of houses.

By the decimal system of numbering, one hundred numbers are allotted to each block. Main Street, in both cities, is the dividing line between eastern and western portions of the city, and all streets running east and west are numbered beginning at Main.

c. denotes colored.

* is a place of business.

For names other than those shown in this department, see General Directory of Names.

Distinctive Printing

PRINTING is the Ambassador of Trade, it is sent out to acquaint customers with your business, it goes where you cannot be, it tells the story you would have told had you been able to go in its stead, it is the means by which you hope to attract attention to your house, to interest the public and to secure patronage, if at all possible. ¶ In order to achieve these results and secure adequate returns for the money invested, it is absolutely necessary that all your printed matter have distinctive qualities.

¶ Ordinary printing is forgettable printing, distinctive printing impresses itself upon the mind and brings results.

Pine Forest Inn

Season 1908-1909 • Open December
to May
Summerville, S. C.

The Pine Forest Inn Company take pleasure in announcing to former patrons and those who contemplate a sojourn in the South during the Winter 1908-9 that the Inn will open for the coming season with many improvements to the hotel and property that cannot fail to add to the comfort of its guests. The new additions, containing several suites of rooms with bath, steam heat and open fireplaces, are furnished in the luxurious style of other portions of the Inn. An extension enlarges the dining room to double its former size, and provides several smaller dining rooms and a commodious room for balls and entertainments. The kitchen facilities are also improved.

The Former Excellent Golf Links have been extended to an eighteen-hole course. Artificial bunkers have been added, and the hazards difficult enough to be interesting. The turf is the finest in the South. There is a good club-house situated at the first tree, commanding a view of the entire course. The links will be in charge of a professional instructor, and tournaments will be a feature during the season. The climate of Summerville will admit of playing any day in Winter. A fine boulevard leads from the Inn through the park and past the tea and floral gardens of Dr. Charles U. Shepard to the club-house, less than a mile distant.

The Pine Forest Inn Hunting Grounds containing two thousand acres with its Colonial Club House, and the variety of game with which the preserves are stocked, should be a great attraction for all fond of hunting, etc.

The Owners of The Inn have spared no expense in the equipment of the hotel and providing for the comfort and amusement of guests, and the large patronage enjoyed by the house in past seasons is the best evidence of its popularity. Situated in the middle South, in the dry, fragrant air of the pines, and easy of access from all points, the Pine Forest Inn offers an ideal climate and many advantages not found at other Southern resorts.

Distinctive Printing

PRINTING is the Ambassador of Trade, it is sent out to acquaint customers with your business, it goes where you cannot be, it tells the story you would have told had you been able to go in its stead, it is the means by which you hope to attract attention to your house, to interest the public and to secure patronage, if at all possible. ¶ In order to achieve these results and secure adequate returns for the money invested, it is absolutely necessary that all your printed matter have distinctive qualities.

¶ Ordinary printing is forgettable printing, distinctive printing impresses itself upon the mind and brings results.
