PREFACE

The City Directory is the greatest source of information about persons and things in existence. In it the City, her citizens and institutions are shown as they are today, and the annual issues become their permanent history. The newspapers generally refer to the issuing of the City Directory as an important event in the City's history. No other publication so fully and truthfully represents the people and the city as the Directory, and in doing this it is only fulfilling its mission—to do that is the purpose of its making. For these reasons the outsider very largely bases the opinion he forms of a city on the City Directory.

You may go to any library of Directories, such as is maintained by the publishers in each of the important cities, and by examining the Directories of each city, without other knowledge or aid, separate the live and prosperous from the dead and dull ones, if you will be guided by the amount and character of advertising the Directory of each city carries.

In the compilation of this issue of the Winston-Salem Directory over 150,000 separate items of information have been written and an average force of sixteen men has been constantly employed for a considerable length of time in its collection and compilation. Unfortunately for the publishers—and themselves—not even its patrons are fairly familiar with its contents. For instance, how many people know that within its covers one may find a description of the location of every street and the numbers of all houses thereon, the head of the family or business concern occupying each number, the intersecting streets and the point at which they intersect, all U. S. local officials, county officials, court officials, city officials, location of fire stations and alarm boxes, time and place of meeting of secret orders, benevolent, social and commercial organizations, number and names of churches of each denomination and location and pastor of each; name, location and principal or head of each public or private school or college; a complete Classified Directory of every line of business and every profession.

Take an hour off and examine this catalogue of your city's people, business, professions and institutions. A good working knowledge of its contents will repay you many times for that small expenditure of time and energy.

As usual we give an estimate—not a census—of the population based on the ratio of actual names shown in the publication; the conservative estimate is

61,210

The new features of this Directory will doubtless be appreciated by patrons and public. The inclusion of suburbs, the addition of a Numerical Telephone Directory, and general makeup of the book are but a few of the improvements within its covers.

In view of the fact that the book costs more than the subscription price, the Advertisers are the real supporters of the enterprise and we trust they will be given due consideration by the public in general.

COMMERCIAL SERVICE COMPANY,
E. H. Miller, President.

Is Your Business Dead ?

If so, why not take the advantage of the opportunity of placing it among the "live ones" through your City Directory. Write us for rates

Power of Advertising

¶The CITY DIRECTORY is the "power" that generates information for the buyer that he may know who deals in the products he is most interested in and wishes to purchase.

¶If YOUR business is not classified properly, with a display advertisement arranged to describe your particular line of business, how can "you" expect the buyer to trade with you, only by chance and a buyer seldom takes chances.

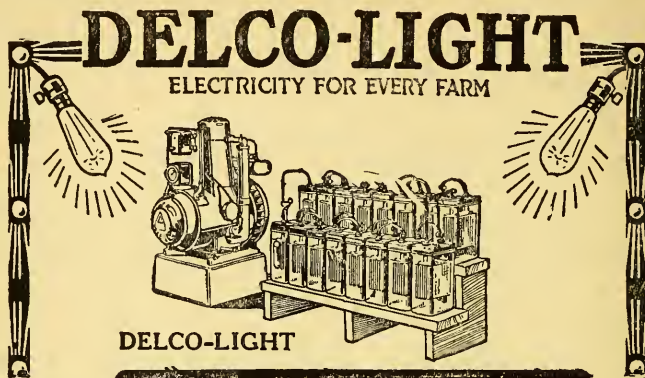

¶ADVERTISING is the foundation upon which all successful business is built. To be successful YOU must apply this to "your" own particular business.

¶ADVERTISING is the multiplication table pure and simple—when applied to any business, it is an "idea" multiplied.
