PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead as a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not have a City Directory.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of some one. But just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that you are in a live community—the fact is self-evident.

It is therefore with pleasure that we present Vol. IV of the Gastonia, N. C., City Directory, for the fact is self-evident, that we are doing business in a live community.

Insure your home
with us.

Never delay. It
is dangerous.

Save your mon-
ey and pro-
tect your
family.

Under one of our
policies.

Rest easy if your
property

Accidentally
Burns; if in-
sured with
us.

No delay in
granting
claims

Can occur if it
can be pre-
vented.

Every company
as strong as
the strongest.

Power of Advertising

¶The CITY DIRECTORY is the "power" that generates information for the buyer that he may know who deals in the products he is most interested in and wishes to purchase.

¶If YOUR business is not classified properly, with a display advertisement arranged to describe your particular line of business, how can "you" expect the buyer to trade with you, only by chance and a buyer seldom takes chances.

¶ADVERTISING is the foundation upon which all successful business are built. To be successful, YOU must apply this to "your" own particular business.

¶ADVERTISING is the multiplication table pure and simple, when applied to any business, it is an "idea" multiplied.

Rates upon Application
Our Circulation and Service
are Adequate
