HIGH POINT, N. C.

PRO BONO PUBLICO

PREFACE

We take pleasure in submitting Vol. VIII of the High Point, N. C., Directory. While no directory is free from errors, we feel sure the High Point directory will rank above the average city directory and will give general satisfaction. Experienced help only has been used in collecting the data for this directory, and if there are any omissions of names it is not due to the fact that the ground was not fully covered by our canvassers, for a house-to-house canvass was made. It often occurs that a person, in giving the information for the directory, overlooks or forgets to give names of persons that should be listed, and in such cases it is not the fault of the publisher that some names are left out. As a rule these omissions are few. Of course, the printers have to make a few typographical errors—they would not be printers if they did not—but as a whole we know that the High Point Directory can be relied upon, and will be found by all who use it to be a very valuable book of information, and one which no up-to-date business man can afford to be without.

We desire to thank our patrons for their liberal support, by which this publication was made possible. We also desire to extend our thanks to our many friends and the public in general for the courteous way in which they supplied us with the proper data. It is a pleasure for us to publish a directory in a city where the people are interested and where they are willing to co-operate with us and lend their aid in the making up of a work of this character as was the case in High Point. This of itself is good evidence that High Point is a good, live, up-to-date city, and a good place in which to live.

About 10% of the people, or 35% of the grown people, own property.

Population 25,261

We shall continue this publication, and promise you efficient service.

High Point College

High Point, N. C.

High Point College, a co-educational Christian College, located in a thriving healthy community. This school is just closing its first year's work. The officers and members of the faculty are much pleased with the results.

One hundred and thirty students were enrolled and work will be offered in the junior class next year, with bright prospects for a very large freshman class and several additional members to the faculty. Before the fall semester begins much work will be done on the campus, and everything possible will be done to make the stay of the students here pleasant and profitable.

One hundred and twenty-eight semester hours of work are required for graduation. The student is permitted a wide choice in the selection of a major subject of his course. Besides the work offered in the academic department, a school of music has been established and a course leading to the Bachelor of Music degree will be offered in the year 1925-26.

High Point College is a college of wholesome religious atmosphere, of high ideals, and a determination to succeed. Terms are reasonable. Correspondence from prospective students is solicited. While the college is the property of the Methodist Protestant Church, it will in no sense be conducted as a sectarian institution.

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally leaders in their line.

Index appears in front of special business headings only, for which an extra charge is made.

* Star in front of name generally means that such person is colored.

(*)—Purpose of star (*) in front of name is to denote colored persons or firm, but we assume no responsibility for its wrong use; errors often creep in.

The City Direc- tory

Is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the lists of those who sell do themselves great injustice. The classified lists in the Business Directory form the best buyer's guide on earth. A modern up-to-date method of getting what you want.

CONSULT:

The classified lists of names arranged according to trades, professions and pursuits in the Business Directory, (following the alphabetical list of names). They afford a valuable guide for the buyer, the seeker for professional aid, and those needing the services of skilled artisans.

ADVERTISING

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told him where the bakery was. Or by the window of the bakery itself. There isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But isn't willing to give the advertiser anything for telling the other folks. He is to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of a lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.
