U. S. POSTAL UNIT GUIDE OF CHARLOTTE, N. C.

Reproduced from Post Office Copy

1945-46

To speed up the distribution and delivery of the mails, Charlotte has adopted the NUMERICAL ZONING SYSTEM.

The streets listed alphabetically with the unit number for each street (or portion of it) are shown on the following pages. Unit numbers for box service are listed separately. Unit numbers should be included as a part of the complete address of all mail and the number should appear after the name of the city and before the name of the state.

All users of the mails are urged by the Post Office Department to cooperate in this effort by including the unit number in all local addresses as well as inform correspondents of this addition to their own official address, and to have their postal unit number on their letterheads, envelopes, statements, and all advertising matter.

The Post Office on request, will be glad to cooperate with you in assigning proper unit numbers to your mailing lists.

HILL'S CHARLOTTE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide 1945-46

Copyright, 1946, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.
