"TRAVEL BY TELEPHONE"

It Is Surprising How Little It Costs

Use Long Distance for Out-of-Town Business and Social Affairs

The rates below are for the initial period. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. These do not include federal tax. There is a federal tax on all calls where the charge is \$.10 or over. The amount of federal tax may be secured from the operator.

If you can give the telephone number of the distant station, the call can be handled more promptly. A special Long Distance Directory for listing numbers frequently called will be furnished, without charge, by calling the Business Office. Additional rates and other information may be obtained by calling Long Distance.

Business Transactions

Although our efforts are directed toward providing the best service to our customers sometimes difficulties will occur. Should difficulties arise that are not promptly corrected, they should be reported to our business office by telephone, personal visit or letter. Other matters, including all business transactions, should be taken up with the business office.

Business Office . . . 143 N. Washington St.
Rocky Mount, N. C.

Telephone 9011. Business Hours 8:30 A.M. to
5:00 P.M. Monday through Friday.
J. T. Crech, Group Manager
Telephones: 9000 Ofc. 9080 Res.
L. E. Thompson, District Manager
Rocky Mount, N. C.

Service Applications, changes and Discontinuances

Applications for new service, changes, additions and discontinuances of service should be handled with our business office. A telephone call will enable you in almost every case to transact business promptly and satisfactorily.

Bills and Payments

Bills for local service are rendered in advance for a one month period from date of bill and long distance service for a one month period preceding the date of the bill. Bills may be paid by mail or in person at our business office, 143 N. Washington St., Rocky Mount, N. C.

How to Place Out-of-Town Calls

There are two general classes of Out-of-Town Calls, namely Station-to-Station and Person-to-Person, as explained below.

Station-to-Station Calls

(From One Telephone to Another)

A station-to-station call is one when you ask to be connected with a certain telephone in a distant place. However, if you ask for a particular person or for an extension telephone reached through a private branch exchange, as one in some department or hotel room, the call is a person-to-person call. A station-to-station call is completed more quickly and the rate is less than for a person-to-person call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. Charges begin when the called telephone is answered provided the calling party is holding the line.

To Place a Station-to-Station Call

FIRST—Give the operator the name of the place you are calling.

SECOND—The telephone number you are calling (if known), otherwise, the name and the address (if known) of the party whose telephone you are calling. For example: J. W. Brown's Residence—425 Main Street.

THIRD—Your telephone number when the operator asks for it.

Person-to-Person Calls

(From One Person to Another)

A person-to-person call is one when you ask for a particular person or extension telephone reached through a private branch exchange, as one in some department or hotel room. The rate for a person-to-person call is higher than the rate for a station-to-station call.

The time at the originating point when the conversation starts determines whether the day or night rate applies. The initial period is three minutes, after which charges for additional time apply.

Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, provided the calling party is holding the line. Charges may be reversed without any change in rate.

To Place a Person-to-Person Call

FIRST—Give the operator the name of the place you are calling.

SECOND—The name and telephone number (if known) of the person you are calling, otherwise, the name and the address (if known) of the called party. For example: Mr. J. W. Brown, at telephone 2470, or Mr. J. W. Brown, at J. W. Brown's residence—425 Main Street.

THIRD—Your telephone number when the operator asks for it.

Charges for Initial Period, Overtime and Federal Taxes

Further information concerning charges for initial period, overtime, and Federal Taxes may be obtained by calling Long Distance

Collect Calls

If the charges on the call are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "Collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

General Information

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities are on file with the Regulatory Commissions having jurisdiction over such matters, and are available for public inspection at our business office.

Transmitting Messages

Employees of the Telephone Company are forbidden to accept oral or written messages to be transmitted by an employee over the lines of the Telephone Company.

Attachments to Telephones

To render satisfactory service, it is important that the Telephone Company own and maintain all apparatus and equipment connected with its lines. Telephone equipment is designed to furnish the best possible service and the use of attachments, other than those furnished by the Telephone Company, usually impairs the efficiency of the service. The Telephone Company does not sanction the use of any devices in connection with its equipment except those furnished by the Company.

Advertising Telephone Numbers

The advantages of showing telephone numbers on stationery, signs, cards, etc., are recognized, though the growth and changes in the city and the corresponding growth and arrangement of telephone facilities may require the changing of telephone numbers. For this reason stationery, signs, cards, etc., showing telephone numbers should not be printed in large quantities.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Co., and have the charges billed to your telephone account if you are a telephone subscriber. Just follow the instructions shown under the listing of this company in the directory.

Architects' and Builders' Service

When building or remodeling, you may arrange with your architect or builder to provide telephone outlets while construction is in progress. The Telephone Company will gladly advise with you, your architect or builder. Just call the Telephone Company and ask for "Architects' and Builders' Service."

Telephone Directories

Loss of time and inconvenience by calling wrong numbers can be avoided if you consult the current directory before placing a call and avoid the use of obsolete directories.

Between directory issues certain numbers do not appear in the current directory due to changes and new installations. These numbers may be secured by calling "Information."

No binder, holder or auxiliary cover, except those furnished by the Company, shall be used in connection with any telephone directory.

Telephone directories of other cities in this and certain foreign countries can be obtained for our customers who need them. Prices, etc., may be secured by calling the business office.

Directory Accuracy

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in making up or printing this directory. Please report to the business office any incorrect listings so that our records may be adjusted for the next issue and your service protected in the meantime.

ROCKY MOUNT, N. C.

INSTRUCTIONS

HOW TO USE THE DIAL TELEPHONE

On all calls, remove the receiver carefully from the hook and listen for the dial tone before starting to dial a number. The dial tone is a steady humming sound heard in the telephone receiver, indicating that the line is ready for you to dial.

HOW TO DIAL A NUMBER

When you hear the dial tone, keep the receiver off the hook and dial each figure of the telephone number, as listed in the telephone directory, consecutively in the order given. For example, if you are calling 3456, proceed as follows:

1. Place your finger in the opening over the figure 3.
2. Turn the dial around until your finger strikes the finger stop.
3. Remove your finger and without touching the dial allow it to return to its normal position.
4. Proceed in the same way to dial the other figures 4, 5, and 6.

If your finger slips, or you make a mistake in dialing, hang up the receiver at once, wait a few seconds and dial again.

Before starting to dial a second call, always hang up the receiver for a few seconds in order to clear the previous connection.

RINGING AND BUSY SIGNALS

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burrr-ing sound, indicating that the bell of the called line is ringing, or the busy signal, a rapid buzz-buzz-buzz—, indicating that the called line is busy.

If you do not hear either of these signals within half a minute, hang up the receiver, wait a few seconds and make another attempt.

OBTAINING ASSISTANCE FROM "OPERATOR" IN EMERGENCIES

If the lights are out, or you need assistance from the operator in emergencies, you may secure an operator by simply placing your finger in the opening in the dial over the figure "0" and turning the dial around to the finger stop and releasing it.

Explain your difficulty to the operator and she will assist you.

COIN BOX TELEPHONES, OR PAY STATIONS

Instructions covering operation of coin box telephones are mounted on each coin box station.

CALLS FROM A PARTY LINE OR FROM A LINE WITH AN EXTENSION TELEPHONE

Always make sure that the line is **not** in use. If you do not hear the dial tone, ask if the line is being held by some one else on the line. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line, or hear successive clicks in the receiver, it indicates that some one else on the line is trying to dial. Inform him that the line is in use and ask him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

To dial another party on your line, it is necessary to dial a special code number instead of the number listed in the telephone directory. Dialing the number listed in the telephone directory will not reach the party but will always give you the busy signal.

If you are a party line subscriber and wish to call another party on your line, you may obtain the proper dialing code by dialing 118, giving your number and the number you wish to reach.

Always after you have dialed the proper code number hang up your receiver. Your bell, as well as that of the party you dialed, will ring at brief intervals until the called party answers. When your bell stops ringing, remove your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one to answer the called telephone. You should then stop your bell and clear the connection by removing your receiver for a few seconds and then replacing it.

ENFIELD, N. C.

INSTRUCTIONS

First consult the directory for the number you want to call, remove the receiver and listen for dial tone, which indicates the line is clear, and dial the number wanted.

If, after you have dialed the correct number, you hear the busy tone, this will indicate that the number you are calling is being used by someone else. Replace the receiver and call again later.

When answering your telephone, answer by giving your name or telephone number. This will help the calling party in knowing whether or not he has dialed the right number, and will eliminate useless conversation.

Should you wish to make a second call, replace the receiver for a few seconds to give the apparatus time to restore. Then remove the receiver and dial the number desired.

TO DIAL SUBSCRIBERS ON YOUR LINE—

The numbers are printed with the last figures separated by a dash (241-6). The first three figures indicate the line number (241), and the last figure indicates the ringing code (-6). It will therefore be seen that the numbers 241-1 and 241-6 are on the same line.

To call a subscriber on your own line, first remove the receiver and listen for

dial tone. If the line is clear, dial number 7 and the last figure of your own number and the last figure of the number desired. Replace the receiver and your bell will ring and the called party's bell will ring also. When the called party answers your bell will stop ringing, then remove your receiver and talk. If the called party does not answer you can stop the bells from ringing by removing the receiver and then replacing it.

NEVER MOVE THE RECEIVER HOOK UP AND DOWN—

This will cause wrong numbers.

The ringing codes are as follows:

241-1.....1.....1 long ring
243-2.....2.....2 short rings
245-3.....3.....3 short rings
251-4.....4.....4 short rings
262-5.....5.....1 long, 1 short ring
246-6.....6.....1 long ring
254-7.....7.....2 short rings
255-8.....8.....3 short rings
267-9.....9.....4 short rings
241-0.....0.....1 long, 1 short ring

INSTRUCTIONS

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. After talking, you may wish to put in a second call, in which case hang up your receiver for about five seconds, remove the receiver and dial again.

The first three figures of each number indicates the line number and the last figure indicates the ringing code. For instance, the number 245-1 represents line No. 245 and ringing code No. 1; the number 271-6 represents line No. 271 and ringing code No. 6.

The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
221-1	1	1 long ring
221-2	2	2 short rings
221-3	3	3 short rings
221-4	4	4 short rings
221-5	5	1 long and 1 short ring
221-6	6	1 long ring
221-7	7	2 short rings
221-8	8	3 short rings
221-9	9	4 short rings
221-0	0	1 long and 1 short ring

PARTY LINES—

To call a subscriber on your own line, first take down your receiver, when dial tone is heard dial No. 7 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. The bells of both telephones will ring alternately, when your bell stops ringing this indicates that the other party has answered, then lift your receiver and talk.

Ringing on your own telephone may be stopped by momentarily removing your own receiver from the hook.

For Long Distance Calls—dial 0.

To Call Information—dial 0 and ask for Information.

To Report Telephone Trouble—dial 0 and ask for Repair Service.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking, will cause the line to disconnect.

Business Transactions With the Company.....Dial 0 and Ask for 9011

To Report a Fire.....Dial 388-1

For Police.....Dial 330-1

SPRING HOPE, N. C.

INSTRUCTIONS

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. After talking, you may wish to put in a second call, in which case hang up your receiver for about five seconds, remove the receiver and dial again.

The first three figures of each number indicates the line number and the last figure indicates the ringing code. For instance, the number 245-1 represents line No. 245 and ringing code No. 1; the number 271-6 represents line No. 271 and ringing code No. 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
221-1....1....1	long ring	
221-2....2....2	short rings	
221-3....3....3	short rings	
221-4....4....4	short rings	
221-5....5....1	long and 1 short ring	
221-6....6....1	long ring	
221-7....7....2	short rings	
221-8....8....3	short rings	
221-9....9....4	short rings	
221-0....0....1	long and 1 short ring	

PARTY LINE—

To call a subscriber on your own line, first take down your receiver, when dial tone is heard dial No. 7 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. The bells of both telephones will ring alternately. When your bell stops ringing this indicates that the other party has answered, then lift your receiver and talk.

Ringling on your own telephone may be stopped by momentarily removing your own receiver from the hook.

To call Long Distance dial 0.

To call Information dial 0 and ask for Information.

To report telephone trouble dial 0 and ask for Repair Service.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking, will cause the line to disconnect.

Business Transactions With the Company.....Dial 0 and Ask for 9011
To Report a Fire.....Dial 215-1 or 220-1
For Police.....Dial 215-1

MALLISON'S FLOWER SHOP

The Beauty of our Business is Flowers

Night Dial 274-1**Day Dial 361-1**

WHITAKERS, N. C.

INSTRUCTIONS

First consult the directory for the number you want to call, remove the receiver from the hook and listen for dial tone and dial the number wanted.

If, after having dialed the correct number you get the busy tone, this indicates that the number you are calling is being used by someone else. Hang up the receiver and call again later.

When answering your telephone do not say, "Hello." Say, this is number 221 or whatever your telephone number may be. This will enable the calling party to know whether or not he has dialed the right number, and will eliminate useless conversation.

Should you wish to make a second call, pull the receiver hook down and hold it in this position for about 5 seconds. Release the hook, and dial the number wanted.

To call a subscriber on your own line, take down your receiver. If the line is clear, dial number 7 and the last figure of your own number and the last figure of the number desired. Hang up the re-

ceiver. Your bell will then ring and the called party's bell will ring. When the called party answers your bell will stop ringing. Remove your receiver and talk. If the called party does not answer you may stop the bells from ringing by removing the receiver from the hook, and replacing it.

Codes for party lines are as follows:

Tel. Number	Code Number	Ringing Code
221-1.....	1.....	1 long ring
221-2.....	2.....	2 short rings
221-3.....	3.....	3 short rings
221-4.....	4.....	4 short rings
221-5.....	5.....	1 long and 1 short ring
221-6.....	6.....	1 long ring
221-7.....	7.....	2 short rings
221-8.....	8.....	3 short rings
221-9.....	9.....	4 short rings
221-0.....	0.....	1 long and 1 short ring

To call Long Distance Dial 0.

To call Information Dial 0 and ask for Information.

To report telephone trouble Dial 0 and ask for Repair Service.

FRIENDS ARE NEARER
by **TELEPHONE**

Lack of time to visit is no excuse for allowing friendships to lapse—when you have a telephone. • You have only to pick up your telephone to have pleasant chats with friends, across town or across country.

IT's

Easy to Shop THIS WAY...

You've had it happen yourself—no doubt many times. Wanted to have a rug mended, a chair upholstered, or a new set of awnings for the sun porch.

Who'll do it? Easy, if you turn to the Classified Directory—in the back of your Telephone Directory.

There you will find a list of dealers in all kinds of goods and services—arranged alphabetically by what they sell. You just glance down the list and pick the dealer you want.

You'll save time and bother if you'll let the Classified Telephone Directory help you with your shopping.

Some Ways In Which The Classified Yellow Pages Can Help You

Radio Service

Batteries

Plumbers

■ You are looking for a radio repair shop or beauty shop that has been recommended to you, but you have forgotten the exact name of the firm. Look in the Yellow Pages.

■ You are a newcomer in the neighborhood and want to call a nearby drug store for quick service. Look in the Yellow Pages.

■ Battery trouble develops. You want to try a new battery which you have seen advertised but do not know where to find it. Look in the Yellow Pages.

■ You plan to install a stoker and are considering various types and makes. Look in the Yellow Pages.

■ You call some plumber occasionally and due to the unusual spelling of the name or for other reasons it cannot be remembered. Look in the Yellow Pages.

■ You want to send an expensive garment to a reliable laundry where you can be assured of first class work. Look in the Yellow Pages.

■ You are going away and you want to have something valuable stored during your absence with a firm that can give you the necessary protection. Look in the Yellow Pages.

■ You want your refrigerator or automobile serviced by an authorized dealer, but do not know his name. Look in the Yellow Pages.

Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only business subscribers.

Auto accessories, batteries, cleaners, oil burners, coal, roofers, plumbers, electricians, all kinds of products and services are listed in these pages. This is the place to look when you want to know where to buy. And this is the place to put your message if you want to tell your story to people who are ready to buy. Look in the Yellow Pages. Practically every kind of Commodity or Service is listed in the Yellow Pages.

What Is a Live Prospect?

He is a man with a lot of questions in mind. He wants to know WHERE and WHAT and WHOM and HOW and WHEN.

And thousands of live prospects are coming to the Yellow pages of this book daily to find out—

WHERE they can buy something.

WHAT they can get for their money.

WHOM they can buy it from.

HOW they can get it.

WHEN delivery can be had.

HAVE you complete REPRESENTATION?

IF NOT—get listed under the various Headings to cover your business.

Get the Habit

of shopping with the aid
of your Buyers' Guide—
the Classified Telephone
Directory of the telephone
book.

It's a time and trouble
saver and will save you
money in the end.

A **N Advertising Medium That Gets Big Results**

- The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

- It's a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

- Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

- Call our Business Office today and arrange for advertising space in the next issue of this directory.

TRY THIS SERVICE

You can save money and get speedier service on long distance telephone calls by calling for the number of the distant telephone wanted, or if the number is not known, then tell "Long Distance" you wish to make a station-to-station call, giving the name of the person or business whose telephone you wish to call.

There is a reduction in rates for all calls between the hours of 6 p.m. and 4:30 a.m. and all day Sundays and Holidays. Charges on station-to-station calls may now be reversed.

Messenger service is accepted on all person-to-person calls. Appointments may also be made on person-to-person calls.

Place your Long Distance calls by telephone number! This enables the operator to give you faster service.

If the number of the distant telephone is not known the operator will furnish it when completing your call. It should then be listed above for future use.

Give the number and speed up your service!
