Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1938 edition of the Wilmington City Directory.

Confidence in the growth of Wilmington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by **HILL'S** Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the city.

Population

The population of Wilmington is estimated at 38,304, based on the number of personal names in the Alphabetical section of the Directory, with due allowance for those under Directory age. Territory immediately adjacent, which is a part of the city, as far as business and social life are concerned, is included in the Directory, and, likewise, in the population estimate.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 499, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Wilmington, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 501 to 602. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE BUYERS' GUIDE, beginning opposite page 604 and separately paged from 1 to 24, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community

like Wilmington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 629 to 702, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington.

The Wilmington Directory Library

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

WILMINGTON

THE MAJOR DEEP-WATER PORT OF NORTH CAROLINA
(Courtesy Wilmington Chamber of Commerce)

Statistical Review

Form of Government—Commission.

Population—1930 U. S. Census, 32,270; local estimate at present, 37,500.

Area—4.5 square miles.

Altitude—30 feet above sea level.

Climate—Mean annual temperature, 63 degrees F.; average annual rainfall, 53 inches.

Parks—5, with total of 225 acres, valued at \$400,000.

Assessed Valuation—\$45,000,000.

Bonded Debt—\$2,870,500.

Financial Facts—1 national bank and 3 state banks and trust companies, with total deposits of \$20,289,985.05 (June 30, 1938), and total resources of \$23,795,851.58 (June 30, 1938). Clearings for fiscal year ended June 30, 1938, \$130,-011,660.32.

Telephones in Service—5,850. Southern Bell Telephone Co. is installing new quarters representing investment of \$750,000.

Churches—70, representing all denominations.

Building and Construction—Value of building permits, approximately \$625,000, with 200 new dwelling units constructed (1937-38). Wilmington is headquarters for the Ethyl-Dow Chemical Co., which built, in 1933, a \$3,000,000 plant to extract bromine from ocean water. In 1937 and 1938 additions to this mammoth plant represented a cost approximating \$3,500,000.

Industry—Principal industries: Manufacturing and shipping. 110 establishments, employing normally 14,000 men and 5,700 women, paying wages of \$14,000,000 annually, and having products valued at \$50,000,000 annually. Principal manufactured products: Fertilizers, bromine, creosoted products, lumber, sugar, tobacco products, petroleum products, concrete products, cotton goods and molasses.

Trade Area—Retail area extends 75 miles inland, and contains population of 225,000; wholesale area extends 150 miles inland, and contains population of 400,000.

Newspapers—2 dailies (morning and evening); also 1 white semi-weekly and 1 colored weekly.

Hotels—4, with total of 450 rooms.

Railroads—3: Atlantic Coast Line; Seaboard Air Line; Wilmington, Brunswick & Southern.

Amusements—5 theatres, with total seating capacity of 5,400 persons.

Hospitals—5, with total of 350 beds.

Education—8 public schools, including 2 high. Number of pupils in public schools, 10,640; in private, 450. Number of teachers in public schools, 294. Value of school property, public and private, approximately \$2,000,000.

City Statistics—Total street mileage, 150, with 54 miles paved. Miles of gas mains, 75; sewers, 75; electric street railway, 26. Daily average pumpage of water works, 2,000,000 gallons; value of plant \$1,250,000. Fire department has 65 men, with 4 stations and 8 pieces of motor equipment. Police department has 45 men, with 1 station, 7 pieces of motor equipment and two-way radio reception.

General Review

Wilmington is strategically situated on the Cape Fear River, blessed by nature with a variety of resources and kept up-to-date by the hand of man. It possesses both trunk-line rail, highway, and deep-water transportation, which give it low freight rates and permit quick freight movements in great volume.

Wilmington is important as a port, as a resort center, and as an industrial city, while it is the pivotal point for a rich and large agricultural area, and is the trading center for fully 225,000 people, the city being their nearest, as well as largest, market.

As a port, it possesses a fresh-water harbor 28 miles from the bar. Ice is an unknown quantity in the river, which has a deep channel, through which go big ocean steamers, bound for Europe, Latin America and other foreign shores. The Federal Government recently completed the deepening of the channel in the river to thirty feet at mean low water, as well as the Intra-Coastal Canal from Beaufort to Wilmington, and from Wilmington to Miami, Fla., giving connections with Baltimore, Philadelphia, New York and Boston.

Wilmington's exportations and importations are large and ever-growing, which mark a successful port. As a cotton port, it sends forth approximately 100,000 bales per year. Its imports cover a large field in variety and come from practically every quarter of the globe. Wilmington ranks as the second largest fertilizer and first petroleum products port on the Atlantic Seaboard. Its volume of petroleum products is such that practically 75% of the state's consumption passes through the port. Wilmington also has a tremendous volume of molasses importation, which serves a half dozen states as well as a large amount of lumber handled in both coast-wise and foreign trade. Recent increase of port volume has been evidenced in large tobacco exports and growing imports of sugar.

Regardless of conditions, the past few years have witnessed big building operations. Among recent enterprises located here are several large fertilizer factories, Ethyl-Dow Chemical Co., Gulf States Creosoting Co., Taylor-Colquitt Co., manufacturing creosoted products, Atlantic Refining Co., American Molasses Co., Southland Mfg. Co., Wilmington Veneer Corp., Dupont Nitrates Co., W. R. Grace & Co., Nehi Bottling Co., Gulf Refining Co., Cities Service Co., Pure Oil Co., National Oil Co., Shell Oil Co., Sinclair Oil Co., and North State Creosoting Co., thus supplementing the city's already large number of such industries.

Wilmington is the natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory, the bountiful natural resources of which have hardly been touched.

From the Middle West the Panama Canal is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington are not subject to the dangers of Cape Hatteras.

Wilmington is the center of the greatest vegetable-producing district in the U. S. A few years ago no strawberries were raised except for domestic use; now Wilmington is the center of one of the largest strawberry-growing districts in the world. It is one of the largest lettuce-producing districts in the world, and a very large peanut market.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick & Southern Railway; the North Carolina Line operating the Steamer State Port over the Intra-Coastal Canal; Norfolk, Baltimore & Carolina Line; Railway Express Agency, Inc., and foreign services.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The Normal rainfall is 53 inches; average annual clear days, 132 (New York, rainfall, 44 inches; clear days, 118; New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for home-seekers.

The Wilmington district is one of the greatest trucking regions in the U. S., and the yield for these early crops is valued at nearly \$18,000,000 annually.

Nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by fifteen miles, and Savannah, by thirty miles.

Has immense terminals that can load sixteen ocean-going ships at one time, providing them with over 600,000 square feet of warehouse space.

In the World War, Wilmington had two immense shipyards. It had the honor of possessing the only Government-owned steel shipyard in the South, and first Government-owned concrete yard in the country. These yards have been converted into important industrial centers.

The commerce on the Cape Fear River at and below Wilmington last year averaged 1,962,374 tons, with valuation of \$70,736,533.

South of Hatteras, thus assuring safety to vessels from Latin America and other countries to the south of the U. S., this port occupies a strategic position of advantage to those countries.

Cape Fear River never has ice, which permits year-round navigation, and the climate is never so cold that it makes outdoor work a hardship or discomfort.

Wilmington has many fertilizer factories, petroleum products terminals, lumber plants, and a number of fish-packing plants, with large payrolls. It has the handsomest custom house in the South, costing more than \$700,000. This city is the home station of the Coast Guard Cutter Modoc.

Wilmington has become a new and important inland waterway canal terminal since the completion, in the spring of 1932, of the extension from Beaufort to the Cape Fear River. This link provides accommodations for heavy traffic over a protected inland channel twelve feet deep and ninety feet wide, connecting up with points as far north as New York and Boston.

Wilmington has two immense cotton compresses and two marine railways. The steel shipyard operated during the war by the George A. Fuller Co. has been converted into an industrial center. The concrete shipyard property is owned by the city and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for State-owned terminals and warehouses, whenever such are necessary. Wilmington now has one of the finest and most efficiently operated systems of private terminals at any Southern port, and the city's principal stevedoring corporation holds the record for all South Atlantic ports for quick dispatch of cargo.

With both water and rail transportation, thus affording quick hauls and low freight rates, and near the scenes of raw materials, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and the Seaboard Air Line—place the city near the great coal fields and the iron-producing zones.

Wilmington has cotton garment mills, wood and metal works, concrete concerns, cotton factories, candy factories, machine shops, big fertilizer factories, sawmills, oil stations, etc. A fine cold storage plant is located here.

This is a leading banking center, local banks having total deposits of \$20,289,985.05.

Jobbing business runs into several million dollars in value annually, and retail merchants do a wide business, as the city is the trading Mecca for a section containing 225,000 population.

City of big weekly payrolls. Annual payrolls normally \$14,000,000, distributed among thousands of employees.

Headquarters of Atlantic Coast Line System, employing locally about 2,000 men and women. Monthly payroll of Coast Line nearly \$300,000.

Wonderful year-round climate, and a health record praised by the U. S. Government.

The Wilmington section has crop-growing days to the number of 250, which is the equal of northern Mexico, though with the advantage of an ample and equable rainfall.

Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city is also an important point on the Ocean Highway extending from Portland, Maine, to Miami, Fla.; the Calhoun Highway from Athens, Ga., to the ocean at Wilmington, and U. S. Routes 17, 74, 76, 117 and 421.

Wilmington is a city of fine streets, fine parks, beautiful homes, great churches and modern schools, in a county netted by good roads, the superior not to be found anywhere. It is a place of up-to-date amusements, with some of the best beach resorts on the South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour trolley service and causeway to Harbor Island just west of the beach. Wilmington's four fine beaches are among the only mainland resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The four beaches attract approximately 500,000 visitors every summer.

The Wilmington Chamber of Commerce is alive to the city's great advantages and is always eager to answer all questions and to extend hearty co-operation. Write the Chamber of Commerce for any information desired.

HILL'S WILMINGTON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1938

Copyright, 1938, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

* * * Denote no houses between intersections where appearing.

(c) Denotes colored.

TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick's and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

institutions in every cor-
ner of these United States

**Are You Properly
Represented In It?**

**The Classified portion
catalogues the professions
and goods handled here**

**ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?**

“Think It Over”

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

RATES UPON APPLICATION

No Other Service Compares with City Directory Service

Hill Directory Co., Inc.

PUBLISHERS

8 North Sixth Street (Fourth Floor)

Richmond, Va.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
