## TO OUR READERS.

---

"Remember, we know well only the great nations whose books we possess; of others we know nothing, or but little."

This Directory of the city of Wilmington is issued to supply a long felt need. In its make-up we have endeavored to gather such reasonably complete information as is usually looked for in a publication of this description. The work has been done with the greatest care and yet we feel and realize that some errors and omissions may have found, and unavoidably so, their way into its pages. These we regret, but they are attributable to the difficulties which surrounded the gathering in of the information, and which beset every effort of this kind. In the canvass for the population and in the compilation of the work we were assisted by Messrs. W. H. Gerken and R. J. Lewis, of this city, who have labored with much zeal and efficiency.

We trust the Directory will prove of incalculable benefit not only to our home people, but also to the business men abroad.

EDITOR AND PROPRIETOR,

## WILMINGTON IN 1889.

---

Chief among the important considerations necessary to the growth and development of a city, is *favorable geographical position*. By this we mean such a situation with respect to territory and transportation facilities as to make it the general market place and supply depot of an extensive region of country.

It seems hardly necessary to dwell for a moment on the importance of this advantage. Experience throughout the world and in all ages in which commerce has flourished, from Carthage to the ancient time of Venice in the middle ages, and from Venice to our own times, has shown that it alone is sufficient to rear and support a great city. It is due to her magnificent position between Europe and Asia, and between the Mediterranean and the Black sea, that Constantinople has for centuries been the chief city of the East, and the imperial center of the Turkish empire. It is the inter-continental position of the Mediterranean that made its shores the home of most of the great cities of antiquity and still adorns them with the fair Naples with her 500,000 inhabitants; with Marseilles, numbering over 350,000; with Genoa, Smyrna, Alexandria and hundreds of others.

In China we find Canton situated on the Chinese sea with her 1,750,000; in Hindoostan on the Bay of Bengal is Madras with nearly half a million. In Germany on the Elbe, with its outlet to the sea, is Hamburg with her 500,000, and coming to our own country, at the mouth of the beautiful Hudson are New York and Brooklyn with their 2,500,000; and last, but greater than any of them, stands the imperial London on the Thames with about 4,000,000 souls.

It is the geographical position of these cities—their situation with respect to trade interests—that has contributed more than

---

**M. J. DINGELHOEF**, Practical Watchmaker, dealer in Watches, Clocks, Jewelry, Diamonds, Silver and Plated Ware, 123 Market Street.

anything else to make them what they are. Where a city is favored with this advantage to more than an ordinary degree, its future is assured, if but her citizens will make proper use of the advantages presented.

To one at all acquainted with the resources of the South, and particularly this portion of North and South Carolina, it is only necessary to take a glance at the map to realize the future of Wilmington. Here she stands at the very portal of one of the finest cotton and rice producing regions in the world. On the one hand is the mighty Ocean system giving her transportation as far as the winds that blow to every clime; on the other lies her railways radiating in many directions throughout the State and adjacent States, pouring into her lap an immense commerce. Already a large and prosperous city, it seems that nature and civilization have conspired to make Wilmington in the not far distant future one of the greatest cities on the South Atlantic Coast.

No one can visit Wilmington and fail to be impressed with the many signs and growing indications of wealth and prosperity which abound on every hand. Here will be found all public buildings and institutions usual to a great commercial city, as for instance, a United States Custom House, a handsome new United States Court House and Post Office building, now in course of erection, United States Marine Hospital, Seaman's Home and Bethel, City Hospital, United States Signal Service Station, three daily newspapers, five weekly and one monthly publications, nearly fifty churches, twenty-eight public and private schools, ample banking facilities, four railroads completed, and two others under construction, a number of prosperous industries, and the city boasts of a large number of the handsomest and most costly residences in the State. The city has its street railway, telephone conveniences, and excellent fire department, water and gas works, and is lighted by electricity.

**JAMES D. NUTT**, Druggist, 218 N. Front St. Beyond doubt, cheapest place in the city to buy Drugs and everything pertaining to a first-class store.

The advantages and attractions of the city as a place of residence are unsurpassed by no city of equal population in the Union. The climate is delightful, health excellent, the society is cultivated and refined, the city is most orderly, educational facilities are both excellent and abundant. Several of the church edifices are very fine specimens of architecture; they have large congregations and their pulpits are supplied by pastors of reputation and ability.

The population of the city is now about 25,000.

## SOME ATTRACTIONS.

---

The following are some of the many splendid attractions that should be seen and enjoyed by all who wish a season of rest and healthful recreation. As resorts they are unsurpassed by any on the South Atlantic Coast.

### WRIGHTSVILLE SOUND.

This well-known and popular resort, eight miles from the city, will during the present season, receive a much larger attention from pleasure and health-seekers than ever before, as one of the results of the completion of the Sea Coast Railroad from this city to that place. Wrightsville has always been popular, and has greatly increased in popularity since the completion of the turn-pike from the eastern limits of the city to the Sound. This turn-pike, which is heavily ballasted with oyster shells its entire length, affords one of the finest and most pleasant drives that can be found in North Carolina. It is as hard as though it were McAdamized, is bordered nearly its entire length with pines, whose fragrant odors are delightful, exhilarating and bracing, and the line of the road is sufficiently crooked to relieve the tourist from a weary monotony. The Wilmington Sea Coast Railroad and the Ocean View Railroad are ready to take visitors to the Sound.

Another advantage lies in the fact that, by means of the railroad, the pleasure seeker can go direct to the beach without extra expense. On this beach the Carolina Yacht Club have their house and here also is the new, large and elegant Hammocks Hotel, for the accommodation of visiting guests, and in the waters adjacent is the favorite yachting course where there will be during the season, several exciting and interesting regattas. Its proximity to the city, with its easy and cheap accessibility by

railroad, together with the fact that it is connected with the city by telephone make this a desirable resort. There are plenty of fish of almost every variety in the waters of the Sound and ocean and an abundance of good oysters in their season.

### CAROLINA BEACH.

This pleasant resort, which sprung into existence as if by magic in the summer of 1887, possesses attractions which at once made it extremely popular with the people. Although the accommodations there last year were limited in extent, as they naturally would be with only a few months—we might say weeks of preparation, yet it was a popular resort for those who would spend a day from the cares and duties of every day life, and while away a few hours by the seaside, where they could view the grandeur, the majesty and the power of old ocean as her waves dashed upon the shore, to the deep anthem of the unceasing roar of the breakers. A short ride on the waters of the Cape Fear, and a shorter ride of less than two miles on the railroad, constructed across the peninsula, from the river to the beach, and the weary pleasure-seeker is away from the noise, tumult and dust of the city, and on one of the finest ocean beaches along the South Atlantic Coast. It was visited by many thousands last year, and will probably be resorted to by a largely increased number during the present season.

Many additions and improvements have been made for the better accommodation of visitors, and the facilities for reaching the beach have been greatly increased by the addition of the splendid steamer Sylvan Grove, with her accommodations for 500 passengers, which make daily excursions there during the season.

The fame of the beach spread from one end of the State to the other and even into South Carolina and Georgia. The means for bathing, fishing or sailing are excellent, and it is peculiarly free

from flies, mosquitoes and gnats. The most of the time there is a good southwest breeze blowing, which coming in from the sea, is cool, refreshing and enjoyable.

The Ocean View Railroad Company has begun the erection of a hotel and eating house at the Masonboro terminus of their road. It will have a handsome dining room 80x30 feet, and will be about thirty feet from the pavillion and connecting with it by a wide platform. It will be known as "The Breeze House," and will be under the management of Mrs. Mayo, who has a reputation that will certainly draw those fond of good cooking and good things.

### "THE ROCKS."

The "Rocks," so called from the fact of the immense pile of stone that has been placed there, by which New Inlet has been effectually closed for the passage of vessels, is twenty miles from Wilmington and more than half way between this city and the mouth of the river. It has become quite a popular pleasure resort on account of the splendid fishing it affords, and its excellent opportunities for bathing and boat sailing. The hotel accommodations at "The Rocks" are very good, and they will be improved as occasion may demand. The place suffers for the want of shade trees, but this lack is in a measure compensated for by the cool southwest breezes which prevail nearly all the time. Large quantities of fish are caught here and many of our citizens find a visit to the place both pleasant and profitable. It is easy of access, and the probability is that the list of visitors will be much larger during the present season than in any previous year.

### LAKE WACCAMAW.

On the Wilmington, Columbia & Augusta Railroad, thirty-six miles from Wilmington, is the pretty village of Lake Waccamaw, near which is the beautiful sheet of water from which the village

derives its name. The path from the village to the lake is across a beautiful green plateau of land on the premises of Mr. H. B. Short, to a secluded dell where, surrounded by magnificent forest trees, nestles one of the most attractive sheets of water in North Carolina. It is a favorite resort for pleasure parties from both North and South Carolina. The lake abounds with fish of almost every fresh water variety, while the surrounding forests abound with birds and all kinds of game from squirrels to bears. Many hunting parties visit the place for the purpose of gunning, and have fine sport in roving the forests and in fishing in the generous waters of the Lake.

All these places which we have named receive a generous patronage during the heated season, and there is every indication that the number of visitors to all of them will be largely increased during the present season.

## ❖ WARD'S VIGOREINE ❖

❖ CURES all Scalp Diseases and eradicates Dandruff from ❖  
 ❖ the head like magic. As a hair grower it has no equal. ❖  
 ❖ It is a sure preventative for all falling out of the hair, ❖  
 ❖ and will promote a heavy growth of beautiful hair in a short ❖  
 ❖ length of time. After many years of studying the nature of ❖  
 ❖ the hair follicles, and the cause of so many men and women ❖  
 ❖ losing their hair, I have at last discovered a preparation that ❖  
 ❖ will positively give new life and vigor to the hair, and will ❖  
 ❖ restore it to its natural color. It is free from all injurious ❖  
 ❖ effects and is indorsed by the best citizens of our city. ❖ ❖ ❖  
 ❖ ❖ It stimulates the roots, thereby causing a healthy action ❖  
 ❖ of the follicles, which produces a rich and luxuriant growth of ❖  
 ❖ beautiful hair. This is nature's own remedy. The beauty of ❖  
 ❖ man and woman is in the hair. Try a bottle and be con- ❖  
 ❖ vinced. Manufactured and sold only by ❖ ❖ ❖ ❖ ❖ ❖

# ATLANTIC VIEW,

## WRIGHTSVILLE, N. C.

### ED. WILSON MANNING,

#### PROPRIETOR.

**I**S LOCATED near the water, and commands a beautiful view of the Atlantic Ocean. The Wrightsville depot of the Sea Coast Railroad from Wilmington adjoins my enclosure and is but a few steps from the Hotel. We make no charge for transportation of baggage.

Besides railroad facilities for reaching Wilmington, eight or ten times a day, there is a beautiful shell road from my place to the city, a distance of eight miles. The Ocean View Railroad train runs from my place to the Hammocks and down the Beach at short intervals during the day and night, thus affording visitors all the privileges of

#### **SURF BATHING AND SIGHT-SEEING**

on the beach without being compelled to remain there any longer than is desired.

#### **BATH HOUSES FOR STILL WATER BATHING**

at our own landing, within 300 feet of the house. Boats for sailing on the Sound or on the Ocean, and fishing in the Sound or at sea. Daily mail and telegraph communication to all parts of the world. The permanent grounds for the

#### **STATE ENCAMPMENT**

with its battery of heavy guns is located so near that the drilling of the State Guard can be viewed from my place. We have good drinking water; splendid sea breezes and a supply of

#### **FISH, OYSTERS, CRABS, SHRIMPS AND CLAMS**

in their seasons.

The rooms in the Main Building and Cottages are well arranged for ventilation.

#### **THE DANCING PAVILION**

Is made attractive by music, beauty and pleasure during the evenings.

#### **THE CLUB HOUSE,**

Pool and Billiard Tables and Bowling Alley, are outside of the premises and kept in good style.

**Terms for Board are Reasonable with Special Rates for Families.**

A glance at these advantages for a Summer Resort must convince anyone that there is no place on the coast that presents a greater variety of means for enjoyment than

**"ATLANTIC VIEW," WRIGHTSVILLE, N. C.**

The mildness of the climate during the Winter months will make this one of the most attractive Winter Resorts on the coast.

## COTTON STATISTICS.

Compiled by the Messenger.

### RECEIPTS AND EXPORTS OF THE PORT OF WILMINGTON FROM SEPT. 1, 1886 TO SEPT. 1, 1888.

The movement of cotton at the port of Wilmington for the year ending August 31, 1888, was: Stock September 1, 1887, 655 bales; receipts for the season ending August 31, 1888, 168,580 bales, making the supply 169,235 bales, while the exports for the same period have aggregated 169,023 bales, leaving stock on hand at the close of season 212 bales.

Our statement of the receipts of cotton at Wilmington for the past eight years will be found made up in detail, the receipts of each month being carefully compiled. It

Total exports Foreign and Domestic—1880-'81, 119,852 bales, 1881-'82 137,708 bales, 1882-'83 126,749 bales, 1883-'84, 92,058 bales, 1884-'85, 94,144 bales, 1885-'86 101,766, 1886-'87 133,867 bales, 1887-'88 169,023 bales.

The table of domestic exports embraces shipments North and east by water and rail and consumption by our mills. Some of the cotton forwarded North was shipped on through bills of lading foreign, but has not been so treated in the compilation of statistics at this port.

The shipments the past season to New York aggregate

**JAMES D. NUTT**, Druggist, 218 N. Front St. Beyond doubt, cheapest place in the city to buy Drugs and everything pertaining to a first-class store.

43,267 bales, and forwarded inland and consumed 3,853 bales. The above shows an increase of 23,093 bales over last year.

The comparative statement of the shipment of cotton from this port for seasons, at intervals since 1856, shows further progress in our cotton traffic. Up to 1866 the shipments, as will be noted in our table, were all coastwise. In 1866, 162 bales went foreign and from that time there has been a gradual increase, the shipments of the past season aggregating 121,903 bales, or an increase when compared to the season of 1886-'87 of 12,212 bales. The same comparison as to coastwise shipments shows an increase of 22,944 bales.

# BLACKWELL'S DURHAM TOBACCO,

I have been for over twenty years a constant smoker. I find in Blackwell's Durham that true excellence found in no other brand—uniformity; every package being the same. I can smoke it at all times, day and night, with impunity; it acts as a mild and pleasant stimulant, always quiets my nerves, and in no way disagrees with me. It is a great comforter, a pure, sweet and mild smoke.
