PREFACE

A great factor in the upbuilding of any city is its civic pride; the fact that your citizens stand as a unit on everything that affects the prosperity of your city is worthy of commendation.

The City Directory is one of the foremost enterprises of any city; it is generally referred to by the press of the whole country as a semi-public institution of great value.

The Directory is more than a mere list of names of residents giving their various occupations and addresses; it is an infallible guide to your city, for your people and for the stranger within your gates. It not only deals with your people, but with your government, your institutions and various other organizations. It is a recognized standard work of reference and becomes the most valuable and reliable history of your city and its citizens. As there is no other publication in the world which gives the information as contained in the City Directory, there is probably no other publication in which all the people are so vitally interested.

To gather this data and compile a volume of this character is no easy task. It requires much time, a well-defined system, and incurs no little expense, and if errors occur or a single name is omitted which should appear in the work, it is generally the fault of the people and not of the publishers, as every house is visited, and it is not the publisher's or the canvasser's fault if some one fails to give all the information or gives it incorrectly. The intentions of the publisher are always for improvement, and you can always count on getting as accurate a directory as circumstances will permit.

## JOHN STANLY

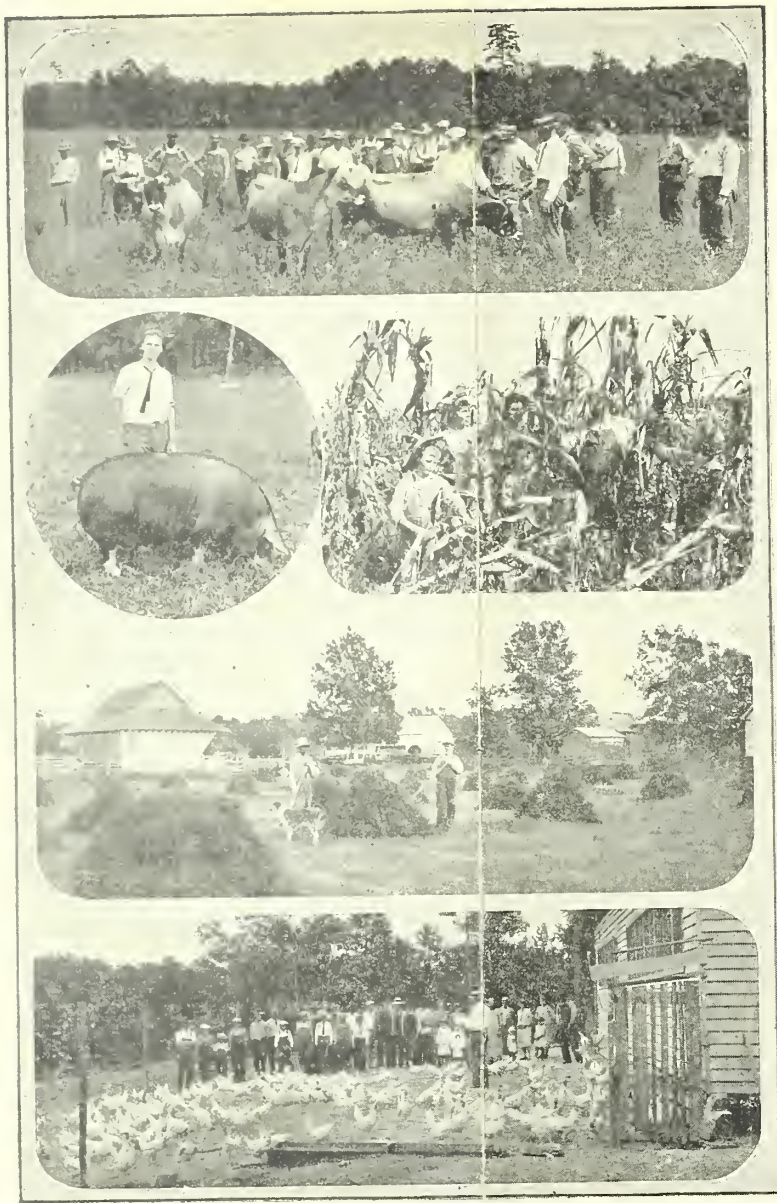

*JOHN STANLY, for whom Stanly County was named, was born at New Bern, on the 9th day of April, 1774. He was the son of John Wright Stanly, a merchant of great enterprise. He was left an orphan at the age of 15 and his academic studies were cut short. However, he was thrown in company with a firm of lawyers, and by diligent application became one of the best lawyers in the state.*

### A BIG POWER PLANT ON THE YADKIN

*This dam and power plant is located in Stanly County about three miles below Newwood. It is operated by the Carolina Power and Light Company and is one of the most up-to-date plants in North Carolina.*

### NARROWS DAM AND POWER HOUSE

*Both alternating and direct currents are generated in this plant which is located at Badin and is within ten minutes' drive of Albemarle. The dam is 210 feet high.*

## HISTORY

---

Thirty-five years ago Albemarle had 297 people within her midst, while today she has over eight thousand residents.

Albemarle is the county seat of Stanly County and is located 41 miles Northeast of Charlotte, 31 miles South of Salisbury, 31 miles North of Wadesboro, and 119 miles from Raleigh, the capital of the State. Three State highways lead to Albemarle: No. 86, which crosses the State from North to South, is paved from Salisbury to Albemarle; No. 27 is a paved highway leading from Charlotte to Albemarle; and No. 74, from Sanford to Albemarle, is a part of the highway from Raleigh to Charlotte; however, No. 74 runs, after reaching Albemarle, to Concord.

Today there is not a better town in the state for anywhere near its size than Albemarle. We say this without any fear of contradiction. It is not located in the mountains, where it can boast of its cool climate, enticing breezes and summer tourists, neither is it situated on the seashore, where the fishing, boating and bathing are predominant features but it is located in the gateway of the Piedmont district, which is acknowledged by all to be the very best section of the southern states. We might say, "The Garden of Eden" of the south.

Albemarle and the surrounding section have a diversified lot of industries. It does not have to depend entirely upon its manufactures for its sustenance nor its farmers, who are engaged in diversified farming, but they both together tend to make it one of the best towns in the state, where the scarcity of money seldom occurs as a proof of which, we will mention the fact that Albemarle has twelve chain stores. Everybody knows that chain stores do not put one of their stores in a poor town.

It is a fact that Albemarle is not advertised as she should be. Very few people outside the corporate limits of the city have the least conception about the great facilities that she can offer to prospective manufacturers. She has an enterprising lot of citizens full of pep and are truly live wires which give off their power when proper connection is made with them. They are also congenial as well as enterprising. And are willing to extend the right hand of fellowship to any one who wishes to become a permanent citizen of the town.

There are seventeen textile plants in Albemarle with approximately 200,000 spindles. These plants consume approximately 50,000 bales of cotton each year, and the annual output of yarn

is approximately 15,000,000 pounds. The annual payroll of these plants which employ 3,000 men and women, is over \$1,500,000.

Each day 3,000 dozen pairs of ladies' and children's hose are manufactured in Albemarle by its two hosiery mills which employ over 500 operatives. Full fashioned silk hose as well as mercerized and cotton hose are manufactured by these two mills.

Three flour mills with a daily output of 550 barrels.

One of the largest Coca-Cola bottling plants in the State; also large Chero-Cola bottling plant. High tension Hydro Electric Power connection for lights and power.

Four wood working plants, manufacturing high grade mantels, boxes, building materials, porch swings, dining room suites, and cabinet works.

Three hotels—Hotel Albemarle, Central, and Maralise—one of which is considered one of the most up-to-date of its size in the State.

Three graded schools with 60 teachers and 2,000 children. Eight splendid church edifices and a number of smaller ones.

The largest monument factory in the two Carolinas; a large concrete block and tile factory, and an ice plant.

Thirteen and one-half miles of paved streets; 30 1-4 miles sidewalks.

Finest resident mill section, (known as Bungalow Town) in the South.

All main business and resident streets paved and lined with sidewalks.

Splendid water, light and sewerage systems.

Three splendid banks; two building and loan associations; five large department stores; splendid homes and large business section. One newspaper.

The death rate is the lowest of any town in the state, it only being nine to the thousand. Living conditions are very reasonable and house rent \$10 to \$25 per month.

Albemarle is the largest town between Raleigh and Charlotte on the Raleigh-Albemarle-Charlotte State Highway, and best trading center in this section of the state.

Something over \$5,000,000 have been expended in buildings and improvements in the past five years.

## Stanly County Has—

The North Carolina Power Company have built two \$1,000,000 dams on the Pee Dee river and a new concrete bridge has just been finished, the middle span of which is over 100 feet high.

A population of over 30,000 people.

Three railroads—two running North and South, and one East and West across the county.

Two hundred miles of highly improved topsoil, gravel and hard surface highways, 65 miles of which are under state control; and the county, according to State Highway Commissioner Page, has one of the best systems of highways in the state.

Four famous mineral springs—the Rocky River Springs, Moss Mineral Springs, Howell Mineral Springs and Misenheimer Springs.

One of the largest aluminum plants in the world at Badin, and the highest spillway dam in the United States at the Narrows on the Yadkin River.

Water power developed 200,000 h. p., and undeveloped, 75,000 h. p. on the Yadkin, Pee Dee and Rocky rivers, making a total of 375,000 h. p., thus having more water power than any other county in the state. All undeveloped power in process of development.

Fourteen consolidated county schools, 11 of which occupy splendid modern new brick buildings; and seven banks in the various towns, including those in Albemarle.

The magnificent reinforced concrete bridges across the Pee Dee River on the Raleigh-Albemarle-Charlotte highway, and across the Rocky River on the Cross State Highway are among the best bridges in North Carolina.

Stanly County has made more progress and witnessed more development in the last 15 years than any other county in the south. Its population is almost entirely native, at least 90 per cent white. Practically all the farmers own their homes and the farmers produce grains, grasses, and grow livestock and live at home.

## WATER WORKS

The City Water Works were established in 1911 at a cost of \$55,000. Additional improvements have run the cost up to a total cost of \$275,000. The water is pumped from Long Creek with an average of 60 pounds pressure. 500,000 gallons are used daily and there are 700 users. There are eight miles of mains.

## FIRE DEPARTMENT

The city is protected by one of the best, if not the best volunteer Fire Departments in the State. They have an American-LaFrance fire apparatus with an electric fire alarm. 3,500 feet of hose are utilized. Dr. C. I. Miller is the efficient Chief.

## TELEPHONE

The Albemarle Telephone Company.

This is a local company but has an agreement with the Bell Telephone in connection with long distance telephoning. There are 525 phones in Albemarle and they have 200 in Badin and New London.

## RAILROADS

Two railroads run through the town. The Yadkin, controlled by the Southern, and the Southbound, controlled by the A. C. L. R. R.

## NEWSPAPER

The city is, indeed, very lucky in having one of the best equipped semi-weekly newspapers in the Old Tar State. It enjoys a very satisfactory clientele—The Stanly News and Press.

## SHOW HOUSES

Two good Movie shows cater to the amusement of the picture lovers. The Columbia, on West Main Street, and the Alameda, on North Second Street.

### BUILDING & LOAN ASSOCIATIONS

Two well-managed building and loan associations have played a large part in making Albemarle a home-owning city. Many citizens have found that the building and loan method of saving money is a good one.

### PUBLIC LIBRARY

The Stanly County Public Library, which is located in Albemarle, employs a full time librarian and is being extensively used by Stanly county citizens. It contains 3,000 volumes. Miss Julius Amis, Librarian.

### HOSPITALS

There are two well-equipped hospitals in Albemarle with capable personnels. Patients are treated here from the entire county, and from the surrounding counties.

### TAX AND INSURANCE RATES AND OFFICIAL BOARDS

Albemarle's tax rate reached its peak height several years ago, and since that time it has been dropping. The City rate for this year is \$1.25, while the county rate is \$1.30.

The business men of Albemarle and Stanly County have been taking a vital part in the government of the city and county. The Board of Aldermen of Albemarle is made up of a group of successful business men, and they have given Albemarle a business administration. The Board is liberal in its views, and encourages new industries.

Albemarle is under the second classification for insurance rates. This classification was given Albemarle when the official board employed a paid Fire Department, and added the necessary fire fighting equipment.

It is unlawful to hunt on lands of another without permission.

Violation of the game law is a misdemeanor.

Hunters must wear their hunting button and have license with them while hunting.

### The Seven Bibles Of The World

Are the Koran of the Mohammedans, the Eddas of the Scandinavians, the Try Pitikes of the Buddhists, the Five Kings of the Chinese, the Three Vedas of the Hindoos, the Zendavesta, and the Scripture of the Christians. The Koran is the most recent of these seven Bibles, and not older than the seventh century of our era. It is a compound of quotations from the Old and New Testament the Talmud, and the Gospel of St. Barnabas. The Edas of the Scandinavians were first published in the fourteenth century. The Pitikes of the Buddhists contain sublime morals and pure aspirations, and their author lived and died in the sixth century before Christ. There is nothing of excellence in these sacred books not found in the Bible. The sacred writings of the Chinese are called the Five Kings, king meaning web of cloth or the wrap that keeps the threads in their place. They contain the best sayings of the best sages on the ethicopolitical duties of life. These sayings cannot be traced to a period higher than the eleventh century B. C. The Three Vedas are the most ancient books of the Hindoos, and it is the opinion of Max Muller, Johnson, and Whitney that they are not older than eleven centuries B. C. The Zendavesta of the Persians is the grandest of all the sacred books next to our Bible. Zorcaster, whose sayings it contains, was born in the twelfth century B. C. Moses lived and wrote his Pentateuch fifteen centuries B. C., and, therefore, has a clear margin of 300 years older than the most ancient of the sacred writings.

### Lest We Forget

Undoubtedly there are mistakes in this Directory, there never was one published that did not have numerous mistakes in it. The mistakes are just as numerous in the large city Directories, but people there do not know their next door neighbor and for that reason the mistakes are not detected.

In the Federal census there are always criticisms made, and still the people never know the names secured. Another thing, the worst critics are the people, who never spend a cent for a Directory or ad in the same.—COMPILER.

Albemarle is not a mirage, nor a pot of gold upon the unreachable far end of a nebulous rainbow. It is real. Here you will find real Carolina sunshine, a flower scented breath from the open lands and a most invigorating toneful breeze from the mountains. Man cannot but realize that he is in the midst of many blessings here, where each day has a full-blown freshness and each evening all the subtle allurements of a lovely Southern moonlight rhapsody, far beyond the ken of poets or the touch of mural painters, just a little bit of Dixie's supreme enchantment and peacefulness.

## SUMMARY OF POPULATION

The following figures show the population of Albe-  
marle:

|                          |       |              |
|--------------------------|-------|--------------|
| Total White Population   | ----- | 7,911        |
| Total Colored Population | ----- | 590          |
| Grand Total              | ----- | <u>8,501</u> |

There is no getting away from these figures as a  
house to house canvass was made. There is no estimate,  
but the plain names to show one and every one.
