PREFACE

Population United States census, 1910	19,218
Population, 1914	25,000
Population in a radius of 100 miles of Raleigh.....	1,791,908

RALEIGH, the capital of North Carolina, founded in 1792, was named for Sir Walter Raleigh, the famous knight and courier, who, during the reign of Queen Elizabeth, sent the first expedition into what is now the territory of the United States, this having made the first settlement on Roanoke Island, near the coast, eastward from Raleigh. The land on which Raleigh now stands was purchased by a commission, named by the legislature, from Joel Lane, and the streets were set apart and also five public squares, the commission having given names to all these. The State Capitol stands in Union Square; the Governor's Mansion in Burke Square; the State School for the White Blind in Caswell Square and the other two squares, Nash and Moore, are used as parks. The streets are at right angles and these and the squares are the property of the State and not of the city. The four principal streets, ninety-nine feet wide, are named after former capitals New Bern, Halifax, Fayetteville and Hillsboro, and point in the direction of those places; the other streets being sixty-six feet wide. The State also owns the granite quarry from which the stone used in constructing the present capitol was taken, this building having been completed in 1840.

Raleigh is unique in that the site purchased by the State for the capital and its streets and parks within its boundary, are State and not city property. It is unique in another respect; it is the only city which, during the war between the States, was formally surrendered to the Federal authorities. This surrender having been made by commissioners who met General Sherman, commander of the United States forces, in April, 1865, a few miles south of the city.

The location of Raleigh is admirable, being on the first step of the plateau which marks the boundary between the coastal plain and the lower Piedmont region. On the eastward the pine forests extend to the sea, while westward there is rolling land, largely covered by hardwood timber. The country around Raleigh is particularly attractive and is well watered by streams and springs. The city's altitude above sea level is 363 feet, at the capitol building. The city gets its supply of water, which is healthful, from a stream a mile from the boundary, storage basin 230,000,000 gallons; the watershed being carefully policed and under the jurisdiction of the city. The sewerage is carried into streams running north and south of the city, by natural fall.

Raleigh enjoys a year-around temperature of 60 degrees, average annual sunshine 62 per cent; average annual snowfall 8.10 inches; average annual precipitation 49.9 inches. Raleigh was designated

by the Board of Eminent Surgeons, appointed to select sites for hospitals during the Civil War, as one of the most suitable for that purpose, on account of its remarkably salubrious climate, pure water and splendid sanitation, combining as far as possible, an influence conducive to convalescence of invalids and health attendance.

The population of the city was 19,218, by the census of 1910; by census of 1914, 25,000, population now 30,000, 1918, there being four square miles within the corporate limits, which were extended in 1908. Of the population sixty per cent is white, and forty per cent colored. There are sixty-six miles of streets, of which twenty-four miles are paved; during 1914 there was \$220,000 worth of street paving done. 63.22 miles of water main, with 3,800 water-takers; 2,000 miles of telephone line, with 3,865 telephones installed; postoffice receipts 1916, \$204,075.05; amount of bank deposits \$10,-380.686.11; assessed value of property, \$13,708,000. Population within a hundred-mile radius of Raleigh, 1,791,908 people.

There are twenty-nine schools, of various classes, from a university to the grammar schools; of these fourteen being public schools with over 4,400 children in attendance; number of students in other institutions about 3,000, making a total of over 7,000 students in Raleigh. There are four schools for whites, a high school and six grammar schools; and for colored—four grammar schools, all of these public. Of colleges, there are for white, the N. C. State College of Agriculture and Engineering for men; St. Mary's Peace and Meredith for young women; then two business colleges: King's Business College, and Page's School of Pharmacy; while for negroes there is Shaw University, the largest negro Baptist institution in the country; and St. Augustine has the same prominence among Episcopal colored institutions. The proportion of students in the schools of all classes is greater, as compared to the whole population, than any other city in the South.

From an industrial viewpoint Raleigh shows well, for during the past decade it increased its factory capital from \$728,000 to \$2,956,-450, and the value of the products of factories from \$947,000 to \$5,644,150, so that it ranks fifth in the United States in the percentage of such increase in cities having under 25,000 inhabitants. The sixty-seven manufacturing plants turn out cotton goods, yarns, hosiery, underwear, boilers, structural iron work, agricultural implements, vehicles, cotton oil and fertilizers, phosphate fertilizers, house building material, furniture, school supplies, books and printing generally, building stones and monuments, street-paving material, washboards and other wooden ware and candy. The increase in value of products during the ten years ending in 1910 was 119 per cent. There are seven banks and eight printing houses and fifty-two newspapers and periodicals are published here, the extent of the printing business exceeding that at any place of this size anywhere in the South.

There is one electric company, the Carolina Power and Light, with \$15,000,000 capital stock, operating the street railway and furnishing light and power to all the manufacturing plants, including cloth, hosiery, underwear and yarn mills. This company ob-

tains water-generated electric power from its plants at Milburnie on the Neuse river, six miles distant, and at Buckhorn Falls on the Cape Fear river, ninety-seven miles distant, and at Blewitt's Falls ninety-seven miles distant on the Yadkin river, near Rockingham, for the transmission of power here over a line of 100 miles long. This company serves electricity to points between Raleigh and Roxboro to the northward, Goldsboro the eastward, Durham to the westward and Fayetteville on the southward. The company has taken over the gas plants at Raleigh, Durham and other points. It operates in Raleigh fourteen miles of street railway and thirty-six cars, and has installed here an auxiliary or reserve steam power plant, so that it has 60,000 H. P. for use.

There are two telephone companies and two telegraph companies; three public libraries, fifty-eight State buildings, including those at the Central Hospital for the white insane and epileptics, penitentiary, schools for the blind and deaf-mutes and the N. C. State College of Agriculture and Engineering; the total value of all these being \$3,900,000; this is not included in the tax valuation.

There are three railways: the Southern, Seaboard Air Line and Norfolk-Southern. Raleigh is located midway between New York and Florida; is in close touch with all parts of the State, from the sea to the mountains; has sixty passenger trains daily. Lands have doubled and in many cases trebled in value during the past five years; the country in this vicinity produces a great variety of crops, including corn, cotton, small grain, tobacco, sorghum, peas and all sorts of truck, and in the county of Wake, of which Raleigh is the county seat, the corn-growing record of the United States has been broken by the production of 226 bushels on an acre, and the cotton-growing record by the production of 31½ bales to the acre.

The fire department is paid. The city has a remarkable record as to small loss by fire. The city ranks first-class as to insurance rates. It has a municipal building and an auditorium of stone and brick, at a cost of \$125,000, with a seating capacity of 5,000, this being one of the finest structures of its class in all the South. There are five hotels, three practically new, and large additions to two of these have been constructed this year.

Raleigh is on the Capital Highway, the north and south line for automobile and other vehicles from Washington to Atlanta. It is midway between Boston and New Orleans and New York and Jacksonville, Fla., and on the great highway between Quebec, Canada, and Miami, in sub-tropical lower Florida, is equi-distant between the icebergs and the palms. Then, taking it east and west, it is on the Central Highway, from Beaufort to the Tennessee line, which is to be one of the links in the great Transcontinental Highway, which will unite North Carolina and California in its 3,600 miles of route.

Raleigh is a home of churches, for within her borders are large and influential churches. These are divided among the several denominations as follows: 17 Baptist, 2 Catholic, 4 Christian, 6 Episcopal, 8 Methodist, 2 Presbyterian, 1 Congregational, 1 Lutheran, 1 Non-Sectarian, 1 Undenominational, and its Y. M. C. A., costing

\$85,000, equipped with spacious gymnasium, swimming pool, library bowling alleys and many departments of interest to its members, is a possession of which Raleigh is justly proud. Six hundred and seventy-five young men belong to this association, which tends to the moral, social, and athletic development of the young people. There are three hospitals: Rex and Mary Elizabeth for white people, and St. Agnes for negroes.

The gas supply is 800,000 cubic feet daily; water supply, 5,500,000 gallons daily, with a consumption of 1,750,000 gallons daily; reservoir capacity, 2,600,000 gallons; filtering capacity, 3,500,000 gallons; impounding reservoir, 200,000,000 gallons; clear water reservoir, 2,000,000 gallons. The water plant is now owned by the city, and was recently improved at a cost of \$475,000.

At no capital in the country are there more buildings or institutions, etc., connected with the State government than in Raleigh.

These include the Capitol, Administration Building, Governor's Mansion, State Museum and Hall of History, Agricultural Department, State Library and Supreme Court Library, State Hospital for the Insane and Epileptics, State Prison, N. C. State College of Agriculture and Engineering; State Poultry Farm, Confederate Soldiers' Home, State School for the White Blind, State School for Negro Deaf-Mutes and Blind, State Fair Grounds, State Experiment Farm.

There are two theatres and four movies, two orphanages, forty-nine wholesale houses, dealing chiefly in groceries, drugs and chemicals, furniture, stoves and sheet-metal ware, farm implements, etc.

Any information regarding Raleigh can be promptly secured by writing the General Secretary of the Raleigh Chamber of Commerce.

NOW THAT THE NEW DIRECTORY IS OUT

TAKE THE OLD DIRECTORY HOME

YOUR WIFE

will find the names and addresses of many friends,
She will tell you that the Directory is just the thing
for invitation lists.

YOUR DAUGHTER

will be glad to have ready information on how to
get to strange addresses, Church Data, Club and
Organization Statistics, Postal Regulations, Etc.

YOUR SON

will find it both interesting and instructive. When
he grows up he will know where to quickly find in-
formation business men need.

YOUR MOTHER

will read the carefully prepared introduction and
marvel at the way the city is changing.

YOU

may use it yourself to settle the identity of persons
mentioned in newspapers; discussions that come up
in the homes, and for many other purposes. Try it.

CERTIFICATE OF THE AMERICAN AUDIT COMPANY

We have audited the books and records of the Atlantic Life Insurance Company of Rich-
mond, Virginia, for the year ending December 31, 1917, and find that all items of Income and
Disbursements have been properly accounted for.

The foregoing statement, in our opinion, represents the true condition of the Company at the
close of business December 31, 1917. The amount of reserve was certified by the Commissioner
of Insurance of Virginia.

Attest: (Signed) THE AMERICAN AUDIT COMPANY.
(SEAL) C. W. GOETCHINS, Approved: F. W. LAFRENTZ, By ALLAN TALBOTT,
Asst. Secretary. President. Resident Manager.

MISS MARY OWEN GRAHAM, President
Raleigh, North Carolina

ST. MARY'S SCHOOL, Raleigh, N. C.

Founded in 1842 by Rev. Aldert Smedes, D. D.

FOR GIRLS AND YOUNG WOMEN

[THE LARGEST BOARDING SCHOOL FOR GIRLS OF THE EPISCOPAL CHURCH IN THE UNITED STATES]

St. Mary's supplements a high school education of the very highest standard with two years of advanced work, along college lines, but planned primarily for the needs of those who wish to complete here a well-rounded education, including, if desired, the refining elements of Music or Art.

The discipline is intimate but firm, with homelike influences rather than college freedom, and the design is to have parents feel that in St. Mary's they have a safe, intellectual and inspiring environment for their daughters which will advance them along the right lines into the best type of modern womanhood.

St. Mary's aims to promote sound physical development, to cultivate a refined Christian womanhood, and to maintain the best standards of scholarship. Attention to health is made of the first importance.

In addition to the "College" and Preparatory Courses, there are complete and up-to-date departments of Music, Art, Elocution, Business and Domestic Science.

The boarding enrollment is 175; the students of Music number 150; the total enrollment is 300.

The terms are moderate.

Full information may be had by addressing

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Raleigh City Directory.

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

Jewelers & Optometrists

Wedding and Anniversary Gifts. If you desire satisfaction let us do your Optical and Jewelry Work.

No Education is Complete Without a Knowledge of Music

Is there a Piano in your home? If not—then your home is incomplete.

You intend to give your children a musical education; not for the purpose of making them great musicians, but to increase their liking for ART.

What influence in the home is more refining than that of music?

We cannot live up to our full measure without music. One who cannot appreciate good music and is not made better by it—cannot know true happiness or feel deep sorrow—A Shallow Soul.

We have been established thirty years.

We are known to be reliable. A Piano we cannot guarantee we will not sell. With us you are safe in any purchase.

Write us. We will gladly answer all inquiries.

Willard STORAGE BATTERY SERVICE STATION

(Copyright registered, 1917)

Working for A Million Car Owners

Are you letting Willard work for you?

Car owners everywhere are getting the habit of making their regular monthly trip to the Willard Service Station the most important item in the care of their battery.

Willard Service is not ordinary battery service. It is factory trained experts co-operating with you to keep your battery on the job.

And if you join the army of car owners for whom Willard works you will know that this pays big returns in bright lights, quick starting, faultless ignition, as well as in dollars and cents.

We're *your* Willard Service Station. We have the equipment to give you the best battery service, and we're backed by the Willard Organization.

We have a rental battery for your use if yours needs repairs.

Get YOUR Share of the High Prices for ALL Farm Products

TO get these profits you **must** make every acre on your farm produce its greatest possible yield.

The judicious use of good fertilizers in addition to good soil preparation, well-selected seed, thorough cultivation, is **necessary** to accomplish these results.

Profit by Ordering Your V-C Fertilizers Now

To get **your** fertilizers in time to bring to you all the above very desirable results—it is essential that you place your orders early for the fertilizers you are going to need. Freight cars are very hard to get from the railroads on account of the unprecedented demand for cars to move manufactured products of all kinds all over the United States, and to our ports for export. Order now. Don't put it off. To delay may mean you will get no fertilizers at all.

The Car Shortage in the United States was as follows:

September 1st, 1916.....	19,000
October 1st, 1916,.....	60,000
November 1st, 1916,.....	108,000
December 1st, 1916,.....	112,000

The spring shipments of Fertilizers required 300,000 railroad cars.

"Make Your Soil and Crops Pay More" by using V-C Fertilizers.

Why not V-C Now?

Box 1616, Richmond, Va.

BETTER FARMING

Order Fertilizers Early

Railroad Service is a Serious Problem—Fertilizer Dealers Should Accumulate Orders So That Full Carloads Only Shall Be Shipped—Railway Authorities Say Fertilizers Can Be Handled in Half Number of Cars Ordinarily Used—A War Measure.

FARM SERVICE BUREAU, ATLANTA, GA.

C. A. Whittle.

The world is hungry. To get more food is an alarming problem. How can the farms produce more food when labor is so scarce?

(OVER)

How can more acres be planted to food crops or how can more work be given the acres usually planted without more labor?

Increase of labor is hardly to be expected, but there is one important means of help which the farmer has been utilizing in the past and that is Fertilizer. But this too is beset with difficulties.

Fertilizer can increase production without increasing labor except at harvest time. The warring nations appreciate this fact, and are giving all the encouragement they can to the use of fertilizers.

The railroads can't do the business expected of them unless every freight car is loaded to full capacity. To load them to full capacity the fertilizer dealer must have enough orders in to make up a full car load before he can reasonably hope to get a shipment. The earlier the carload orders are placed the better chance, of course, of getting a shipment. Because of the shortage of equipment, the railroads should have as much time as possible to plan for moving the fertilizer. Early orders will give them a knowledge of the number of cars that will be needed.

GOVERNMENT AUTHORITIES BACKING IT

The National Council of Defense has sent out a bulletin on this very subject, urging farmers to order their fall fertilizers early so full carload shipments might be made and the largest amount of human food produced.

The United States Department of Agriculture through the States Relations Service and Bureau of Soils; and agricultural colleges and county agents, are advising the same.

The railroads are very urgent about the matter. The fertilizer manufacturers are offering to help the dealers and farmers as much as possible to overcome the transportation difficulties.

HALF CARS CAN BE SAVED

Railway authorities have statistics to show that half of the cars ordinarily used for hauling fertilizers could do the business, if only they are loaded to their maximum capacity.

Where a full car load can not be made up for one destination, then it is to be filled with orders for neighboring stations along a railroad.

MORE WHEAT AND OATS

Farm Service Bureau, Atlanta, Ga.

Each section of the country will be expected to take care of its share of wheat and oat production. Discouragement from the winter kill of the last season and labor conditions make the task of keeping up production no small one, but the country needs more of these crops if it is to take care of its allies. The prices which they are bringing, of course, do not discourage production.

Even if the acreage cannot be increased the prices which the small grains are bringing justify the very best seed bed preparation and the maximum use of fertilizer.

Growing cereals, of course, do not require as much labor as growing corn, it is true, but corn will take its turn on every well planned farm.

The scant oat crop should be husbanded for seed this year. No oats are as good for planting in the section where grown as those grown in that section. The same is true of wheat unless in a given section the best variety for that section has not yet been used.

Good seed should be ordered early. Unless fertilizers are ordered early, so that dealers can ship only in full carload lots it is quite probable that farmers will be disappointed when seeding time comes. The railroads will probably have more than they can do even with full carload shipments. It is a national necessity to

See That No Freight Car Space is Wasted.

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

IF YOU WANT NORTH CAROLINA
BUSINESS YOU NEED

The News and Observer

RALEIGH, N. C.

The News and Observer is the only morning Daily published at the State Capital and it is admittedly the State's Greatest Daily, in Character, News and Circulation.

Full Associated Press Reports over leased wire. Correspondents at every county seat and important town in the State.

The News and Observer keeps its 100,000 daily readers posted as to what is happening all over the world.

Read **The News and Observer**. It will put you NEXT.

Advertise in **The News and Observer**. It's the one medium you can employ to reach the best Farmers, Mechanics, Merchants, Bankers, Manufacturers and other business men in North Carolina—from mountain to seashore.

The News and Observer goes into the home and the place of business.
