INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., publishers of Southeastern Directories (publishers of the Fuquay Springs and Varina City Directory since 1959), present to subscribers and the general public, this, the 1961 edition of the Fuquay Springs and Varina City Directory, which also includes the rural route residents.

Confidence in the growth of Fuquay Springs and Varina's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Fuquay Springs and Varina to the world.

The enviable position occupied by Hill's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Fuquay Springs and Varina Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Fuquay Springs and Varina, arranged in alphabetical order under appropriate headings—a catalog of all the activities of Fuquay Springs and Varina. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Fuquay Springs and Varina, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Fuquay Springs and Varina, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Fuquay Springs and Varina.

The Fuquay Springs and Varina Out-of-Town City Directory Library

Through the courtesy of the publishers of the Fuquay Springs and Varina City Directory, a Directory Library is maintained in the offices of the Fuquay-Varina Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc., is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

The Research Triangle

The town of Fuquay Springs is located 30 minutes from the Research Triangle of North Carolina. The Triangle consists of the University of North Carolina in Chapel Hill, Duke University in Durham and N. C. State College of Agriculture and Engineering in Raleigh. More than 850 research people on the staffs of these three institutions are currently at work. Their interests range from the most abstract mathematical formulations to the immediate and practical problems of the farmer or the manufacturer. This concentration of research people and facilities in the Research Triangle is one of several in the nation; it is unique in the South. The Research Triangle's facilities are available to all of North Carolina's industries. A major feature of the Research Triangle is the 4,000-acre Park, located in the center of the Triangle. The Research Triangle Institute has been established and is in operation to do applied research on contract for industry and Government.

History

Fuquay Springs and Varina are twin cities incorporated into the same city limits of Fuquay Springs.

The site of the once-famous mineral springs, the town was originally named SIPPEHAW, an Indian word which was said to mean "good will." Its history goes back to ante-bellum days when its medicinal springs made the area famous as a health resort to which people came from great distances to drink the water. The original mineral springs is still in existence.

In its early history, Fuquay-Varina was chiefly a trading and shopping center for the people in this section. About the only manufacturing enterprise was a lumber mill. Today the biggest industry in town is the tobacco market which was

started in 1908. It is now the twelfth largest in the United States. There are 12 warehouses and two redrying plants here.

One large industry here hems napkins, towels and diapers. Another industry makes vibrators for auto radios and also for government industrial amplifications. The town has grown both agriculturally and industrially.

The suburbs of the town have spread out in all directions, especially along the highway north and south of the business section. The stores present a fine appearance and include all varieties of merchandising establishments.

The country surrounding Fuquay-Varina is rolling, its location being approximately on the Eastern edge of the industrially important Piedmont section and the Western edge of the coastal plain within 100 miles of the Atlantic Ocean.

It's a growing town, a town where the folks pull together
Some people may refer to it as Fuquay
Others may refer to it as Varina
Still others may call it Fuquay Springs
Of course it is FUQUAY-VARINA.

Tobacco Market

The Fuquay-Varina tobacco market is the largest bright leaf tobacco market in the world with two sets of buyers and it is showing a more rapid growth than any market in the Middle Belt. It has just completed one of its most successful seasons throughout its long history. A total of 31,525,676 pounds were sold during the season with an average of \$54.52 per hundred. It is believed official figures will show our tobacco market either with the State's top average or near the top. The market has twelve warehouses, two sets of buyers, two redrying plants and storages for over 35,000 hogsheads. Value of annual tobacco crop is about \$20,000,000.

Perhaps one of the most important factors that makes Fuquay-Varina the most outstanding tobacco market in the flue cured area is the geographical location with respect to the area in which quantities of high quality leaf are produced. The market is located in Southern Wake County, in the heart of tobacco land with more than one hundred and fifty million pounds of tobacco grown each year within 50 miles of the market. It is significant that in 20 years, 1934 to 1954, the market grew from a five million to a thirty-five million pound market.

The Fuquay-Varina market is served by three national highways and one state highway which provide easy, direct access to processing centers and shipping points. The Atlantic ports of Wilmington and Morehead City, North Carolina, and Hampton Roads, Virginia, are six hours or less by highways from the market. The services of two railroads are available for the transportation of tobacco to any point in the nation.

After almost 50 years of growth and seasoning, one of the most important developments has been the character and caliber of the warehouse firms that operate the market. The Fuquay-Varina firms comprise men with an aggregate of hundreds of years of experience. They know how to display and sell leaf to the best advantage and are experts in the art of public relations and salesmanship. Their warehouses are new, well-lighted and modern. Services to the growers and buyers

is a by-word. Perhaps one of the intangible requirements of a good market that falls more properly under the category of facilities, is the atmosphere of friendliness and helpfulness that is found in the warehouse during a sale. This point is recognized by grower and buyer alike over a wide area.

A fine spirit of cooperation prevails throughout the whole community and the Fuquay-Varina tobacco market is valued by all.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

▲ The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

"h" — HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

The power of light to sell goods has been demonstrated time and time again in stores throughout the country. People will buy what they can see well . . . they will buy more freely in the atmosphere of a modernly lighted store . . . they will be more satisfied with their purchases. Light also can be used to call customers attention to certain goods through floodlighting or spotlighting, and its applications to the display of merchandise are almost endless.

The proper use of light is a powerful sales tool . . . a sales tool that you can use with profit in your business.

Fair Practice Code

for ADVERTISING and SELLING

**recommended by the ASSOCIATION OF
BETTER BUSINESS BUREAUS, INC.**

I. Serve the public with honest values.

II. Tell the truth about what is offered.

III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.

IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.

V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.

VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.

VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.

VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.

IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.

X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

**Don't Contribute
to
Counterfeiters**

**KNOW YOUR
MONEY!**

**Don't Be Fooled
by
Forgers**

**KNOW YOUR
ENDORSERS!**

The Government Never Redeems Counterfeit Money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	Counterfeit —Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background. Genuine —Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	Counterfeit —Saw-tooth points around rim are usually uneven, broken off. Genuine —Saw-tooth points around rim are even and sharp.
SERIAL NUMBER	Counterfeit —Poorly printed, badly spaced, uneven in appearance. Genuine —Figures firmly and evenly printed, well spaced.
PAPER	Counterfeit —Generally has no silk threads, but these may be imitated by very small red and blue ink lines. Genuine —Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will not prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY," which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100 from the Superintendent of Documents, Government Printing Office, Washington, D. C.

BRINGS SATISFACTORY RESULTS!

Out of Sight - Out of Mind
★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

VITAL INFORMATION AT YOUR FINGER-TIPS

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is up among regular subscribers.

Use Our Library of

OUT-OF-TOWN CITY DIRECTORIES

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1961

Copyright, 1961, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance).

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

**CITY DIRECTORY
ADVERTISING
IS *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

WHY A YELLOW PAGE SECTION?

***It is customary to include
a Yellow Page Section in
the City Directory because:**

It gives business firms the
opportunity to elaborate upon
a description of their products
and services impossible in
the limited space of regular
Alphabetical and Classified
listings.

★

**The Yellow Page Section is a necessary supplement
to the regular listings; it is good City Directory in-
formation . . . EXTENDED.**

Out of Sight - Out of Mind
★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

When You Want to Know:

- where a person lives.**
- what his occupation is.**
- who lives at a certain number on
a street.**
- where a street is located.**
- the correct spelling of a name.**
- the officers of a corporation.**
- the partners in a firm.**
- the solution to any of scores of problems
that pop up unexpectedly to annoy and
baffle you.**
- you can quickly find the answer
in the City Directory.**

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city, plus miscellaneous other information.

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
