The First National Bank

OF WILSON, N. C.

ESTABLISHED 1874

Capital, Surplus and Profits, Over \$1,000,000.00

DEPOSITORY OF THE
UNITED STATES, STATE OF NORTH CAROLINA, COUNTY OF WILSON
AND TOWN OF WILSON.

Any money so received absolutely safe unless it be deposited in a good, strong, fire and burglar proof vault, and even then it is subject to the risk of fire and theft.

SAVE DEPOSIT NOTES FOR RENT AT 2.00 PER YEAR.
JOHN T. BRUGEN, President. W. B. WARREN, Cashier.

READ THIS, YOUNG MAN!

At the age of sixty, or over, half of men are dependent upon their daily earnings for their children for support—a distressful situation, for there is nothing sadder than old age than independence.

It is a sad state of affairs while young and strong, you may suffer want when old and weak.

Deposits Made in This Bank Earn Four Per Cent.
Interest per annum, compounded quarterly, and you are invited to become a regular depositor during your harvest period, so as to be ready for the needs of old age.

WILSON TRUST AND SAVINGS BANK

JOHN T. BRUGEN, President

E. T. BARNES, Cashier

"No merchant ever fails to succeed
Nor ever will, until
He sells the goods
That won't come back
To customer's who will."

Our goods once sold, NEVER come back,
because THEY are DEFENDABLE.
Our customers, once sold, ALWAYS come back,
because WE are DEFENDABLE.

PREFACE.

FURNISHED BY THE
CHAMBER OF COMMERCE

Population—14,550

WILSON, N. C., with a population of 14,550 people, is situated in the Eastern part of the State on the main lines of the Atlantic Coast Line and Norfolk Southern Railroads in the heart of the most productive and richest farming section of the United States.

More bright leaf tobacco is sold on this market than on any other in the world, the annual production amounting to more than 35,000,000 pounds in 1915, with prospects of approximately 40,000,000 pounds for the season of 1916, which begins with the 15th of August.

Then, too, an abundance of cotton is raised in this section, which is all handled through Wilson dealers and warehouses, amounting to 25,000 bales annually, and many farmers are engaged in truck farming and cattle raising, which is found to be very profitable.

Practically every dealer in leaf tobacco is represented here. Immense plants have been erected by such concerns as the American Tobacco Company, Liggett and Myers, Export Leaf Tobacco Company, Imperial Tobacco Company, P. Lorillard Company and others. Wilson is the only tobacco market in the State with triple daily sales.

Real and personal property was assessed for the year 1915 at \$5,453,251, the actual value of such property being in the neighborhood of \$13,000,000, which is an increase of \$12,000,000 since 1890.

Wilson offers many inducements to manufacturers in the way of low tax rate, municipally owned water, light, gas and power plants of the most modern equipment and construction. The tax rate is 80 cents on the \$100.00, with rates for electric power scaling down from 3 cents per K. W. H., according to the amount consumed.

Many industries guided by far-seeing men have taken advantage of these inducements, and as a result there are located in Wilson to-day forty-one thriving manufacturing plants, included among which are Fertilizer Factories, Cotton and Knitting Mills, Lumber Mills of magnitude, the largest Wagon and Buggy Manufacturers in the entire South and among the largest and best known in the United States; Box Factories, Sash and Door Plants and Woodworking Plants of almost every description, Ice Factories and a varied line of industrial enterprises.

Added to the features stated, an abundance of labor can be had at the most reasonable figure. This is true because of the excellent living conditions, her extremely mild climate permitting working out of doors practically the entire year, abundance of farm products raised for local consumption as well as for shipment to the Northern markets, which tends to materially reduce the cost of living.

Wilson is the most beautiful city in the State of North Carolina, with her handsome homes and very modern business houses, paved streets, well lighted by the new "White Way," and her people live well up to the reputation given the South for their wonderful hospitality.

There are more than 275 stores, both wholesale and retail, covering practically every line. These concerns have been established here mainly because of the facts stated, together with the excellent transportation facilities permitting receipt and distribution of freight with great advantage.

Because of competitive condition her transportation companies have established a very satisfactory adjustment of freight rates.

We could not well overlook the passenger accommodations offered by the railroads, there being thirty-two local and express trains passing through Wilson daily, reaching every point North, South, East and West, each making a full stop for the purpose of taking on and letting off many passengers and tourists.

There are many attractions for the tourist, among which are excellent hotel accommodations, both European and American Plans the very best of roads for automobiling, the only Country Club between Richmond, Va., and Charleston, S. C., which is new and modern in every particular, affording a nine-hole golf course of one hundred and twenty-five acres, just three miles and a half from the city.

The school system of Wilson compares very favorably with any in the country, there being several modern graded schools and a high school, with teachers of the highest ability and training. There is located at Wilson also the Atlantic Christian College, ranking as one of the best educational institutions in the State, which is attended by pupils from all over the Union.

There is a handsome church edifice for nearly every denomination, including Methodist, Baptist, Presbyterian, Episcopalian, Christian and several others, which are well attended. This should be quite an inducement to settlers with families.

The growth and development of Wilson has been very marked, the population having increased from 1,475 in 1900 to 14,550 in 1916, an increase of over 800 per cent.

There are to be found in Wilson people who are busy, happy and contented, having a beautiful city, industrially and commercially important, and such beautiful surroundings as to make one feel that it is the place where life is worth living.

To add to her commercial importance and strength there are in Wilson four large and substantial banking institutions, several building and loan associations, daily and tri-weekly newspapers, efficient Fire and Police Departments.

There are two large and well appointed hospitals for whites, and

the colored folks have established a very creditable sanatorium, which is ably conducted.

Wilson is forging ahead very noticeably in commercial and industrial development, and is destined to be one of the most important centres in the South. Her people believe in her wonderful possibilities and her business men have banded together in a Chamber of Commerce which, together with the Merchants' Association, are doing great work in the upbuilding of the community from the standpoints of her Commercial, Industrial, Civic and Social Welfare.

Much can be said of the traveling men, who are known "Town Boosters," there being several hundred making their headquarters in Wilson, and they are fulfilling their part in the broad work of development and living up to their reputation.

A very appropriate slogan has been adopted by the Commercial Organizations, "The Town 'To Tie 'To"—"Where Worth Wins," and this is being recognized throughout the land because of its wide distribution in various forms of advertising which the city is doing through its progressive and wide-awake business men and Commercial Organizations.

Taking all things into consideration there is no more beautiful or better place in the State in which to live and do business, so

When looking for a place to settle down
In all the world there's no other town
Like Wilson in the Old North State,
So welcome are all within her gate
One feels at home the very first day
Nor ever wishes to go away.

CHAMBER OF COMMERCE,

By C. E. HOPE, Secretary.

INDEX TO ADVERTISEMENTS

Reference is especially invited to the following alphabetical list of responsible, enterprising, advertising business men. The more you patronize them the better we can make the Wilson Directory; your attention is also invited to the names in **DISPLAY BLACK TYPE** throughout the book of those who take pride in sustaining the city directory, and who do not borrow their neighbor's directory.

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Raleigh City Directory.

Mathematics

Mathematics is the study of numbers, shapes, and patterns. It is a fundamental part of science and technology.

Mathematics is used in many fields, including physics, engineering, and economics.

Mathematics is a powerful tool for understanding the world around us.

Mathematics is a beautiful subject that can be enjoyed by everyone.

Mathematics is a language that describes the universe.

Mathematics is a way of thinking that helps us solve problems.

Mathematics is a subject that is always changing and growing.

Mathematics is a subject that is full of challenges and opportunities.

Mathematics is a subject that is essential for our lives.

Mathematics is a subject that is full of beauty and wonder.

Mathematics is a subject that is always with us.
