INTRODUCTION

and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, (publishers of the Wilson City Directory since 1908) present to subscribers and the general public, this, the 1956 edition of the Wilson City Directory. A new feature, the listing of telephone numbers in the Directory of Householders marks this edition.

Confidence in the growth of Wilson's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilson to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilson Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that shows the name, marital status, occupation and address of each adult resident of Wilson, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilson. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilson, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

SMITH BROS.
PLOOR & AVINING CO.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the fourth major department, printed on pink paper. In this section the numbered streets are arranged in numerical order followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A special feature of this section is the designation of tenant-owned homes and a new feature is the listing of telephone numbers.

THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilson.

The Wilson Directory Library

Through the courtesy of the publishers of the Wilson City Directory, a Directory Library is maintained in the offices of the Wilson Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Summary

Wilson was incorporated January 29, 1849 and is known as "The World's Largest Bright-Leaf Tobacco Market," and "The City of Beautiful Trees."

The first tobacco warehouse was constructed in Wilson in 1890. It proved very successful as a convenience to the farmers, as well as a profitable business enterprise for the owners. From the beginning, Wilson proved popular as a tobacco market, and that this popularity has increased is evidenced by Wilson's phenomenal growth in this respect, the city having gained the distinction of being the world's largest bright leaf tobacco market. Although a tobacco center Wilson has other industries that contribute materially to its payroll and welfare.

Wilson is the county seat of Wilson County and is the largest township in the county, which has a total of ten townships. Wilson County was named for the Hon. Louis D. Wilson, long a member of the Senate from Edgecombe County and a volunteer in the Mexican War. By the U. S. Census of 1950, the county population was 54,506.

Industries

To trace the background of Wilson's industrial program, special reference should be made to its first industry, established in 1854 under the name of Hackney Bros., engaged in the manufacture of buggies. Later there came a rapid change in vehicles, automobiles replacing buggies and in keeping

Aerial View of Business Area of Wilson

with this development, Hackney Bros., in 1919 discontinued the manufacture of buggies, reorganizing under the name of Hackney Bros. Body Co. Since that time this company has engaged in manufacturing the latest types of commercial bus bodies. Wilson's second oldest industry, the Hackney Wagon Co., was organized in 1903. This concern manufactures the most modern type of horse-drawn wagons and other articles.

Wilson, The World's Largest Tobacco Market

Tobacco more than anything else has given Wilson an international reputation for it is "The World's Largest Bright-Leaf Tobacco Market."

The Wilson tobacco market has 19 auction warehouses, with a combined floor space of 1,799,135 square feet. These huge one-story buildings are lighted with numerous skylights, for the quality of tobacco is judged by color as well as by texture and aroma. When the farmer brings his tobacco to the warehouse of his choice, it is placed on shallow baskets with a maximum of 300 pounds to the basket. These baskets are then placed in long rows on the warehouse floor. The auctioneer and the buyers then walk along the rows and each basket is sold individually at the rate of 400 baskets per hour, or a sale every nine seconds. During the season, which runs from mid-August until about Thanksgiving, sales are conducted simultaneously at five warehouses, with at least nine buyers taking part in each of the sales. During the 1955 season, the Wilson market sold 92,509,378 pounds of tobacco for \$50,003,193.01, an average price of \$54.05 per hundred pounds. The total volume was exceeded only by the 1954 season when 96,920,618 pounds were sold for \$53,628,380.45, or an average of \$55.33 per hundred.

Wilson has eight tobacco redrying plants and three plants that pack and ship the green tobacco. These redrying plants are capable of processing 2,500,000 pounds daily and handle tobacco from markets throughout the bright leaf

belt which extends from Florida to Virginia. In these plants, the tobacco passes through redrying machines that remove all of the moisture and then through a steam bath that raises the moisture content to approximately 11%. It is then packed in large hogsheads that hold approximately 950 pounds each. After this processing, tobacco will keep indefinitely. Normally it remains in storage for at least two years before being used in cigarettes.

Agriculture

Wilson County is primarily an agricultural county, with about 80% of its income derived directly or indirectly from agriculture. The principal crops are tobacco, cotton and corn. Livestock production is rapidly increasing in importance.

In 1950, Cargill, Inc., world's largest grain merchants, established an elevator in Wilson. It now has a storage capacity of 600,000 bushels. In November 1954 Ralston Purina Co. established a modern mill that is capable of producing 100,000 tons of livestock feeds.

Location

Wilson is located on the main line of the Atlantic Coast Line Railroad and the Norfolk Southern Railway. It is served by U. S. Highway 301, the principal tourist route between eastern states and Florida. Other highways serving Wilson include U. S. 264, a major east-west route, and U. S. 117, between Wilson and Wilmington. A network of paved highways connects Wilson with all sections of the country. Due to its geographic location and its accessibility Wilson is steadily increasing in importance as a distribution center.

Power, Light, Gas and Water

The electric, gas and water plants and distribution systems in Wilson are municipally owned. The City of Wilson owns approximately 400 miles of electric distribution lines outside the corporate limits. The city electric department

Agricultural Center**

serves more than 5,000 rural customers and furnishes electricity wholesale to six other communities. The city utilities, including land, buildings and distribution systems, are valued at \$7,669,639. The electric plant has the latest equipment, with a generator capacity of 27,500 k.w. In addition, the city has a 14,000 k.w. interconnection with Carolina Power and Light Company insuring an uninterrupted supply of power. Wilson's water supply is taken from a reservoir supplied by Contentnea Creek. The 236 square mile watershed has proven adequate to meet the city's needs even in times of severe drought. The filtering plant has a capacity of 6,000,000 gallons a day, to meet present requirements of 3,000,000 gallons a day.

Educational Facilities

Wilson and Wilson County have a fine school system, with attractive buildings and an excellent staff. The city system consists of two high schools and six elementary schools. Since 1949, \$1,415,000 has been spent on the construction of new schools in the city system.

Atlantic Christian College, fully accredited, located in Wilson, offers four-year college courses to Bachelor of Arts and Bachelor of Sciences degrees. It also offers a one-year secretarial course and night school classes in a variety of subjects.

The City of Beautiful Trees

Wilson is known as "The City of Beautiful Trees," and though there are many residence streets in the city with a variety of lovely trees, Nash Street is considered the most beautiful, with Park Avenue deserving special recognition. Over a period of years several geographic and pictorial magazines have written special articles and given particular reference to Nash Street and have designated it as one of the seven most beautiful residential streets in the world. To the students of nature and especially to those who admire

beautiful trees, Nash Street is a real attraction. It offers an assortment of trees as follows: Pecan, birch, magnolia, walnut, umbrella, liveoak, cypress, hickory, pine, dogwood and willow oak. On spacious lawns in front of beautiful homes, these trees are found growing amid numerous kinds of shrubbery and many colored flowers.

Churches

There are eighteen churches in Wilson, with the following denominations represented: Baptist, Christian, Church of God, Episcopal, Jewish, Lutheran, Methodist, Pentecostal Holiness, Presbyterian, Salvation Army, Roman Catholic and Seventh-Day Adventist.

Charles L. Coon High School, a unit of Wilson's Efficient School System

Hotels

Wilson has one up-to-date hotel with a total of 158 rooms, modern tourist homes, several boarding houses, numerous good apartment houses, and excellent motor courts.

Theatres

Wilson has four indoor theatres for white people and one for Negroes, each being well equipped, and with a combined seating capacity of 3,175. Also there are two drive-in theatres.

Radio Stations

Wilson is the home of Radio Station WGTM (World's Greatest Tobacco Market). The station operates on a frequency of 590 kilocycles. The studios, which are located on U. S. 301 about one mile north of Wilson, have the latest radio equipment. The station has made definite contributions to the civic and social welfare of the city and county. Wilson also is the home of WVOT (1,000 watts), which has been outstanding in its contributions to civic betterment. The station operates on a frequency of 1420 kilocycles.

Television

WNCT Channel 9, with transmitter and studios in Greenville and WITN Channel 7, with studios in Washington, N. C., provides television for the Wilson area. Both stations operate with power of 300,000 watts.

Hospitals

Wilson has four hospitals, with a total of 175 beds. The Eastern North Carolina Sanatorium, a state tuberculosis hospital, is located in Wilson. This 550-bed hospital serves patients from throughout eastern North Carolina.

Recreation

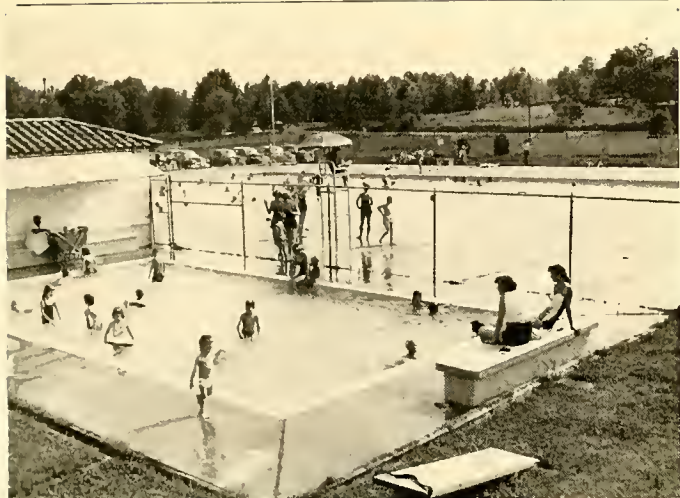

Wilson is well supplied with recreation facilities. These include a modern stadium, with a seating capacity of 3,500, which is used for both baseball and football, as well as other outdoor events. Recreation Park, covering 15 acres, has a large swimming pool, lighted tennis courts, lighted softball diamond, baseball diamond, picnic areas, playground equipment and a lighted area for activities such as basketball, volleyball, shuffleboard and other sports. The city also has three other parks and several neighborhood playgrounds. The city is constructing 2 recreation centers fully equipped with auditorium and gymnasium. The city has a trained staff of full time recreation workers. The Wilson Country Club recently completed a \$55,000 remodeling job on its clubhouse. The club has an 18-hole golf course, swimming pool and tennis courts.

Library

In 1921 the Department of Literature of the Woman's Club established a free public library in Wilson. Since 1935 the library has been sponsored by the city and county. It is located in a modern building on the edge of the business district and has a collection of 39,000 volumes.

Public Buildings

All executive and administrative offices of the City of Wilson are located in the Municipal Building, constructed in 1940 at a cost of \$127,000. The Wilson County Courthouse, constructed in 1924, is located in the center of the business district.

Government

Wilson is governed by a mayor and six aldermen who are elected for two-year terms. The administrative head of the city government is a city manager, who is appointed by the board of aldermen.

Retail and Wholesale Trade

Wilson is the retail shopping center for a large agricultural section. In 1954, retail sales in the city totaled \$35,500,000, according to "Sales Management Survey of Buying Power." More than 300 retail establishments are available to serve the needs of the public.

Wilson's Future

It is pointed out by many that Wilson has a bright future, due to its ideal location, transportation facilities and agricultural and natural resources, all of which are important factors in attracting new industries. It would appear that Wilson is in position for industrial development, and many manufacturers are considering Wilson as a distributing center for their products, as eastern North Carolina can be so well served from this point. Many traveling men make Wilson headquarters on account of the convenience of working in and out of the city in serving eastern North Carolina. As the "King of Tobacco," Wilson may some day be engaged in the manufacture of many tobacco products. The people of Wilson are thinking in terms of expansion and commercial development and are most optimistic as to their city's future.

Wilson Chamber of Commerce

The Wilson Chamber of Commerce is recognized as one of the outstanding trade associations in eastern North Carolina. During the past dozen years it has been a contributing factor to the progress of Wilson and Wilson County.

The Wilson Chamber of Commerce also serves as a clearing house and general bureau of information. Headquarters for the Chamber are located in its own building at 220 Broad Street.

The MOST BEAUTIFUL Awning
UNDER THE SUN

HOMES ARE BRIGHT WITH RAY-O-LITE *Translucent* AWNINGS

At last an awning with all the "things" you want in an awning—RAY-O-LITE AWNINGS give you shade without darkness, light without the damaging affect of direct sunlight, an ever-fresh appearance, and Architectural Harmony with your home. In RAY-O-LITE Awnings you have a choice of many lustrous colors of translucent plastic that never needs refinishing—they will not crack, peel, tear, warp, buckle or sag—they are not affected by humidity, atmosphere, rot, heat, cold, common acids, alkalis or solvents. RAY-O-LITE AWNINGS are PERMANENTLY NEW!

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bod-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

"r"— RESIDENT

"h"— HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Enduring Beauty

True beauty endures. The magnificent temples of ancient Greece are to this day regarded as masterpieces of architecture and design. A properly designed memorial has the same timeless quality. When executed in nature's most enduring monumental material it is not only a fitting tribute to memory but a work of art for posterity as well.

A memorial is one of the most important purchases you will ever make. Buy with confidence from an established dealer where service and satisfaction are assured.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1956

Copyright, 1956, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

Don't Contribute to
Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by
Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcels most carefully in heavy paper and tie the knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

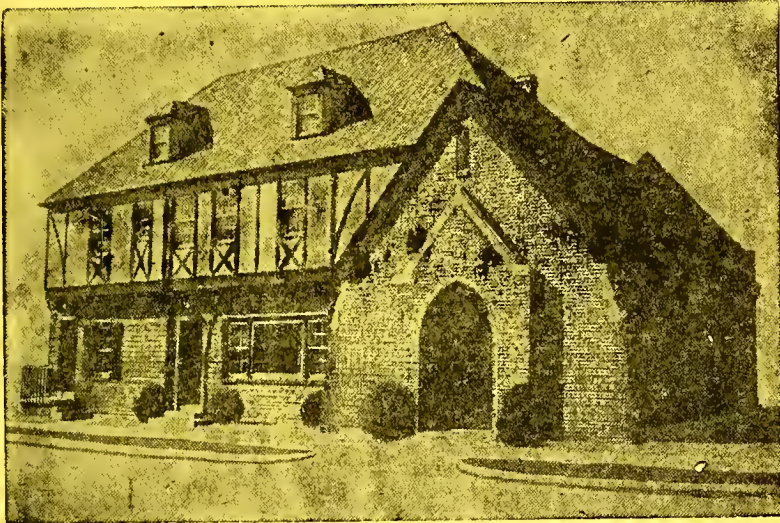

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
