This directory is leased for use of only one subscriber unless different arrangements are made with publisher. Directory must be returned to publisher at the expiration of the lease.

Compiled and Published By

Baldwin Directory Company, Inc.

Home Office

125 MEETING STREET, CHARLESTON, SOUTH CAROLINA

Independent and Progressive

Baldwin Directory Company, Inc., publishers of this city directory and the world's largest independent publishers of city directories, is in no way connected with any national association or directory "trust." Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 30 years ago the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

INTRODUCTION

Baldwin Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1941 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SEVEN DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. **The Miscellaneous Directory**, contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, city and county officials.

2. **The Buyers' Guide and Civic Section** is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional cards of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. Th Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

3. **The Resident Directory** contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. **The Householders' Directory** contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

5. **The Business Directory and List of Nationally Advertised Brands** contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the names of nationally advertised brands of merchandise, with the name of the local agents or distributors.

6. **The Numerical Telephone Directory** contains telephone numbers arranged in numerical sequence.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory:

Number of dependents under sixteen;

Designation of home ownership;

Nationally Advertised Brands;

Numerical Telephone Directory;

Telephone Numbers on Street Guide.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed home circulation for advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin Directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

BALDWIN DIRECTORY CO., INC.

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L).

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The **H** both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: Smith Mary L (wid Robt R)

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) clk Hub Clothing Co.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home.

Married women, engaged in some other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: Smith Mary (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked RD.

The letters BD shown on some entries indicate Buyers' Directory.

Colored is shown by a **C**. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

The Rural Route Directory will be found in back of this volume.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householder's name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The **H** denotes householders who own the house in which they live. By using the street guide as a mailing list a thorough coverage of the city will be obtained without any duplication of names.

The buyers' guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

KANNAPOLIS

NORTH CAROLINA

By **BILL WORKMAN**

Managing Editor, The Daily Independent, Kannapolis, N. C.

Declaration of war with the axis powers, and the many restrictions which followed, found Kannapolis—the world's largest unincorporated town with a population of over 26,000—in the middle of a great expansion building, a program that would make this city a model in planning, housing and civic beauty as well as in textile manufacturing excellence.

Charles A. Cannon, president of the vast Cannon Mills Company, was determined to make Kannapolis a town which would take its place among the most beautiful. He is still determined to do that.

The great expansion program, which had been going on for several years, was postponed shortly after war was declared, because of restrictions on construction. However, just as soon as possible after the peace is signed, this building program will be resumed and rushed to completion.

THE WAR EFFORT

In the meantime, Kannapolis men and women are getting down to business in helping win this war.

Most of the thousands of Cannon Mills employees are engaged in making war materials.

The Kannapolis area has sent more than 1,500 men into the armed services, and they are fighting on all the war fronts of the world, and some are now in Ireland waiting for the second front against Hitler's armies to develop.

Every month, Towel Citizens put thousands of dollars into Uncle Sam's war chest through purchase of war bonds and stamps.

ACTIVITIES

Despite the loss of manpower to the armed forces and defense projects and extra time that men and women are putting to the war effort, Kannapolis is a beehive of activity.

Cannon Memorial Young Men's Christian Association—the largest association under one roof in the world, with more than ten thousand members—is the center of all activity.

Because of the gasoline and rubber shortage, which is keeping more people at home now, most of the association's clubs have decided to continue their programs throughout the summer months. In previous years clubs have operated only during fall and winter seasons.

Headed by General Secretary John T. Fesperman, the YMCA staff has geared its program to wartime conditions—and is keeping men, women, boys and girls busy.

Paul L. Peterson, director of the boys' department, this year launched the greatest playground activities for youngsters in all parts of the city. Several hundred boys are members of the score or more softball and baseball teams. The large swimming pool is busy day and night. Almost nightly some group goes to the YMCA cabin, situated several miles west of the city near the large Kannapolis lake.

The women's department, directed by Miss Bess Breedlove, is keeping its hundreds of members busy on war projects. For entertainment, various clubs have been organized, and are operating the whole year.

Assisted by women employed at Cannon Mills Plant Four on the second shift, the women's department has launched a playground program, and 600 girls, aged eight to 15, gather at the various places two or three times a week for games and contests.

The playground program has been carried to Negroes for the first time. W. L. Reid, principal of the Carver School is director.

The athletic department of the YMCA, headed by Kermit Hinson, has put more emphasis on competitive sports. Several softball leagues for men and women are operating, along with one fast semi-pro circuit.

Well equipped in every detail—with two large gymnasiums; three large kitchens with facilities adequate to prepare a banquet for a thousand persons; one of the largest libraries in North Carolina; large swimming pool—the handsome YMCA building is regarded as one of the largest and finest in the United States. It was built three years ago at a total cost of more than \$500,000, to replace the original building which was destroyed by fire.

SCHOOLS

Kannapolis schools, directed by Superintendent W. J. Bullock, also have been geared to the war effort.

They operate nine months out of every years. Eight months are financed by the State of North Carolina, and the ninth by the Cannon Mills Company.

Cannon High School, which each year has an enrollment of more than a thousand, has added a new \$10,000 vocational plant, which is equipped to train boys in carpentry, electricity, sheet metal work and mechanical drawing.

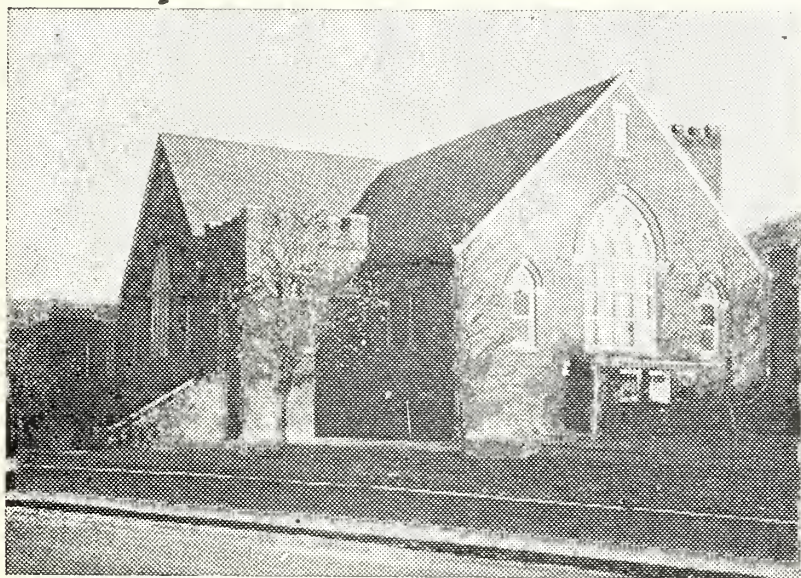

In addition, the school boasts of one of the best bands in the state, directed by Arthur W. Rohr, director of music in the school system; an orchestra, directed by Mrs. Rohr; a glee club of which Miss Nellie Alexander is leader. Through cooperation of Cannon Mills Company, a diversified occupations class was launched last year. It will be continued.

Also in the system are five white elementary schools and one Negro elementary-high school.

Total enrollment for the whole system last year hovered around the 5,000 mark—and it is expected to be even higher when the schools open in the fall.

Assisting Mr. Bullock in directing school work are these principals: John L. Dupree, Cannon High school; Miss Naomi Tillman, Centerview; John Oehler, Jackson Park, the newest unit in the whole system and to which a new seven-room addition was built last year; A. D. Kornegay, McIver; A. W. Kelley, Aycock; W. W. Hartsell, Woodrow Wilson; W. I. Reid, Carver (Negro). All of the elementary schools offer full music courses.

Members of the school board are Chairman H. B. Robertson, L. J. Brown, H. L. Lipe, Zeb B. Bradford and Leon Smith.

Trinity Methodist Church is one of the oldest and largest in Kannapolis—home of more than 30 congregations of all denominations.

CHURCHES

Kannapolis has more than 30 churches, with Methodists and Baptists leading numerically. Lutherans and Presbyterians come next.

Churches established during the past few months include St. James' Episcopal, of which the Rev. Franklyn H. Board is priest; the Second Presbyterian, served by the Rev. William B. Heyward, Kirkwood Presbyterian, served during the summer by Bill Summers of Davidson; Shadybrook Baptist, of which the Rev. R. F. Gardner is pastor.

In addition, the West Point Baptist operates a mission in the Bentley Heights community; the North Kannapolis Baptist congregation is in charge of a mission in Jackson Park. First and Second Presbyterian churches have just opened a mission in the Royal Oaks community.

Most of the ministers of the Kannapolis Ministerial association, of which the Rev. T. W. Fogleman, pastor of Franklin Heights Baptist church, is president.

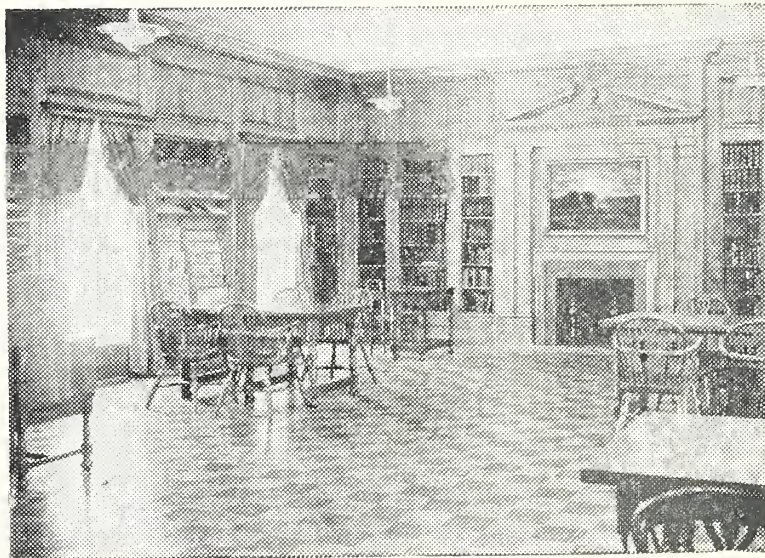

ORGANIZATIONS

Principal civic organizations of the city are the Junior Chamber of Commerce, headed by President Thomas Trott; the Lions club, of which Frank Patterson is president; the Young Business Men's club, headed by President A. Curtis Brown.

There are six fraternal organizations.

Largest is the Woodmen of the World camp, of which R. Frank Patterson is consul commander.

Newest is the Towel City Council of the Royal Arcanum. A. Curtis Brown was elected regent several months ago. When the council was instituted and charter members installed, the council was the largest ever instituted in the United States or Canada.

Interior view of Cannon Memorial YMCA Library, which is under direction of Miss Edith Barbee. It is regarded as one of the South's finest.

Other orders and their leaders are:

Masonic, J. E. Hinson, master.

Patriotic Order Sons of America, C. W. Canup, president.

Improved Order of Red Men, J. H. Plyler, sachem.

Odd Fellows, Stamey Fowler, noble grand.

Among the other organizations are the Knights of Pythias, the Little Theatre Guild; and a Parent-Teacher association for each of the city's schools.

Mrs. Carl Freeze is president of the P.-T. A. council of Kannapolis, and she heads all the associations. Membership for all the units totals more than 2,000.

Cabarrus Hall, one of the two handsome homes of Cannon Mills workers.

BUSINESS AND INDUSTRY

Kannapolis takes its place at the head of cotton textile manufacturing cities.

Principal business is the Cannon Mills Company, which makes towels, sheets, pillowcases, and other household textiles. In addition to the two large plants here, the company operates mills throughout the Carolinas and Georgia. Charles A. Cannon, son of James W. Cannon, the founder, is president of the concern. A. L. Brown is general manager and a vice-president.

In the two plants here—One and Four—are employed 25,000 men and women.

Scattered throughout the area are more than 375 business firms, and annual retail sales have been estimated in excess of \$5,000,000.

Most of the business firms are members of the Kannapolis Merchants Association. C. Brown Ketner is president; H. W. Owen is executive secretary.

Situated on the Rowan-Cabarrus county line, population of the city is about evenly divided between the two counties.

In the North Kannapolis area, police duties are handled by four officers, headed by Chief Jake Lipe. His staff is controlled by Sheriff J. H. Krider of Rowan county.

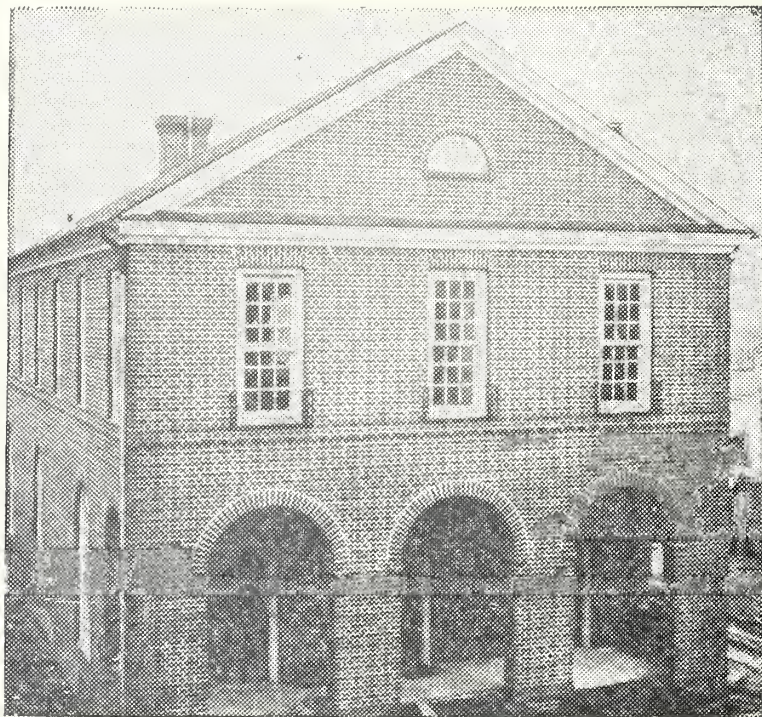

Police Chief I. T. Chapman directs law enforcement on the Cabarrus side of Kannapolis. He works directly with Cabarrus Sheriff Ray C. Hoover.

Electric power comes to Kannapolis through Duke Power company lines. Telephone service is provided by the Concord Telephone company.

Southern railway provides passenger and freight service, the Southern's main line passing through the City of Towels. Carolina Coach company provides bus service at short intervals.

The town is located on U. S. Highway 29, the through route from Washington to Miami. Alternate Highway 29—a more direct route from Salisbury-Charlotte traffic—passes a mile east of the downtown business section.

The 1940 census report listed Kannapolis' population at 26,492—an increase of 12,000 during the 10-year period from 1930 to 1940.

Kannapolis' new city hall is equipped to serve well this fast-growing town. In it are housed the jail, recorder's court room and police offices. This also is the center of all civilian defense operations.

YOUNG BUSINESS MEN'S CLUB

Organized nearly 10 years ago by a small group of business and professional men, the Young Business Men's Club has played an important role in the growth and expansion of Greater Kannapolis

Imbued with principles and traditions of a proud city striving to shake off the shackles of a depression, the club immediately offered its assistance in the civic improvement and religious growth of Kannapolis.

The idea of an organization founded on fellowship and a purpose caught on rapidly and from a small band of organizers the club has expanded into an active membership of 40 young men who have the interest of Kannapolis and its people at heart.

For more than a year the club has been working on a street marker project which calls for the erection of 1,600 steel markers. The project is one that calls for time, work and expense. It is a project toward which the entire club is devoting its time and efforts. It is a project which will effect the entire city and its thousands of peoples scattered over a wide area.

So well founded and steeped in traditions in this club of energetic young men that it has taken its place among the more substantial organizations of the state.

THIS JEWEL IS NOT FOR SALE!

Good name in man or woman, Mr. Shakespeare's Iago said, is the immediate jewel of their souls.

Back of every business success, back of the smallest product that contributes to that success, is an enduring good name. This is a jewel that is never for sale.

Advertising cannot make a bad name good. Nor should it try! But advertising can carry a good name to a rich and just reward. In fact, advertising is the voice of the good name. Through advertising, the good name is able to make the promises that men live by.

The Daily Independent is proud of the good names in its advertising columns. You will find nothing but good names here.

Resident Directory
1942

Containing the full name, husband or wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age residing in this city and environs.

The publishers wish to express their appreciation to the business and professional establishments for the splendid cooperation and valuable assistance given them in preparation of this volume.

A list of abbreviations in this directory will be found on the following page and a general index on page 3. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

Number of dependents under 16 is indicated after name
