Independent and Progressive

Baldwin Directory Company, Inc., publisher of this city directory and the world's largest independent publisher of city directories, is in no way connected with any national association, combination or directory "trust". Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used thirty years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

BALDWIN DIRECTORY COMPANY, INC.

1937 Population

FOR

GREATER LEXINGTON

11,785

This population secured by an actual count of persons residing in the territory covered by a House-to-House Canvass under Baldwin's ABCD plan.

INTRODUCTION

Baldwin Directory Company, Inc., publisher of your city directory, takes pleasure in presenting the 1936 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of the community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SEVEN DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. **The Miscellaneous Directory** contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, city and county officials.

2. **The Buyers' Guide, Civic Section and Professional Blue Book** is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional card of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

INTRODUCTION

3. **The Resident Directory** contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. **The Householders' Directory** contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

5. **The Business Directory and List of Nationally Advertised Brands** contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the names of nationally advertised brands of merchandise, with the name of the local agents and distributors.

6. **The Numerical Telephone Directory** contains telephone numbers arranged in numerical sequence.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory.

- Number of dependents under 16;
- Designation of home ownership.
- Telephone Numbers on Street Guide.
- Numerical Telephone Directory.
- Nationally Advertised Brands.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke — they established a guaranteed home circulation for all advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

BALDWIN DIRECTORY CO., Inc.

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L).

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The ⑩, both in the resident directory and the householders' directory, designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) clk Hub Clothing Co.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home. Only one person at each home should be shown with the "h." Thus, a circular mailed to each householder will reach every home in the city.

Married women, engaged in some other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: Smith Mary L (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked RD.

The letters BD shown on some entries indicate Buyers Directory.

Colored is shown by a ⑥. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

A Rural Route Directory will be found in back of this volume.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number with the street intersections as they appear. After each house-nearest telephone may be found. The ⑩ denotes householders who own the house holder's name will be found his telephone number. In case he has no telephone the in which they live.

The buyers guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

Lexington

DAVIDSON COUNTY NORTH CAROLINA

Compiled By
MARY ELIZABETH TRICE

Secretary, Retail Merchants' Association, Inc.

The town of Lexington received its charter from the Legislature in 1827, which was five years after the County of Davidson was organized from the County of Rowan. The first settlements in the now County of Davidson took place about 1750, the people being Germans, who were seeking better economic conditions, Moravians fleeing from the persecutions of Ferdinand the Second, and "Jersey Settlers" leaving New Jersey and Pennsylvania on account of the intolerance manifested toward their mode of baptism. One of the most notable pioneers of the county was the famous hunter and explorer, Daniel Boone, who settled on the Yadkin river about 1750. It was here that he met his future wife, Rebecca Bryan, and the spot of their home is marked by a memorial to the Great Woodsman.

The beginning of Lexington was very like that of other towns in North Carolina that date back to the pioneer period of the state, a general

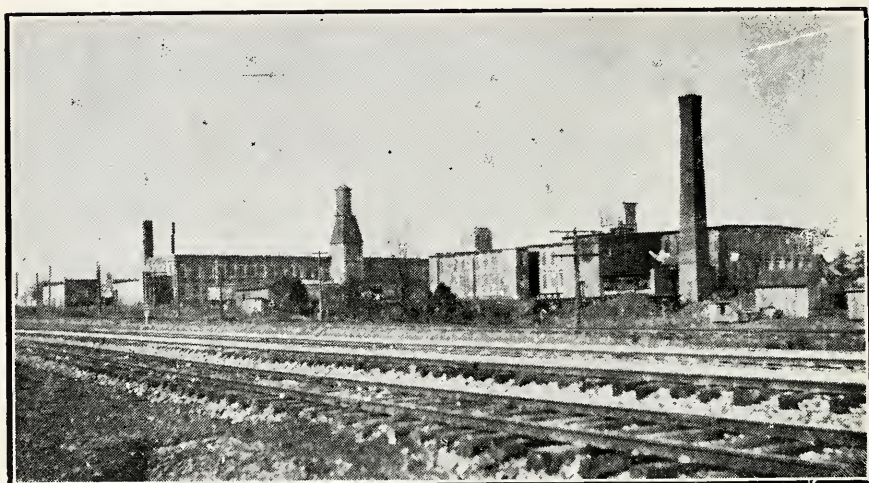

Main Street, Looking South, Lexington

store, a tavern, a bar and a few scattered homes. It was not until 1838 that the germ of industry was born. In that year the Lexington Manufacturing Company was incorporated with a capital stock of "not less

than \$55,000.00 and not more than \$100,000.00." The company was incorporated to manufacture cotton, or hemp, wool flax, silk and iron.

During the past 110 years, Lexington and its people have played an important part in the history of the great State of North Carolina. It has marched steadily forward, building and growing year by year, until now, facing a new century, it is counted as one of the leading little cities of North Carolina, having a population in Lexington of approximately 12,000, and in Greater Lexington of 14,000 people. The little germ of industry planted in 1838 has grown to a large number of industries, manufacturing \$15,000.00 worth of products annually and having a pay roll of \$3,000,000.00.

Wennonah Cotton Mills

Lexington is the county seat of Davidson, and lies in the very heart of the county. It is also in the heart of the famous industrial section, known as Piedmont North Carolina. It is famed for its climate, agriculture and industry, creating a rich trade territory for Lexington. It has an elevation of 811 feet, with an average temperature the entire year of 57.5 degrees. It is only three to four hours drive from the seashore or the mountains and the climate is regarded as almost perfect. It has wide paved streets and sidewalks and a beautiful white way system of lights in the entire business section.

Lexington is on the main line (double tracked) of the Southern Railway, and the Winston-Salem Southbound. U. S. highway No. 29 described as the Main Street of the South, passes through the city, as well as U. S. No. 64, an important coast to mountain highway, and U. S. No

52 connecting Winston-Salem, the Middle West and the Valley of Virginia with Charleston, S. C. A fine system of county roads makes Lexington the convenient market for this entire section. The city also has excellent motor bus transportation, with direct service being maintained to all parts of the state. Bridges and underpasses eliminate all important grade crossings.

City Government

The city of Lexington has the aldermanic form of government and the governing body consists of a mayor, city manager and eight aldermen, with two aldermen elected from each of the city's four wards for a term of two years.

Lexington now has a tax rate of \$1.60 per \$100.00 valuation, and the total assessed valuation of real property for tax purposes is seven and one-half million dollars.

The city has always enjoyed good government and its financial matters have been ably handled. Protection is afforded the citizens and property of Lexington by a police force of eight members, and maintains a modern and efficient fire department equipped with the latest devices in fire fighting equipment.

City Facts

Lexington has a Merchants Association, Rotary Club, Kiwanis Club, two country clubs with golf courses, American Legion Post and Auxiliary, as well as numerous other clubs and organizations and

U. S. Postoffice

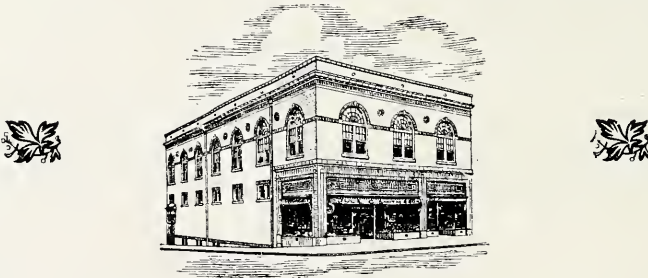

branches of practically all leading fraternal orders. It has a well equipped hospital and an up-to-date bakery.

A city building, electric plant, water system, telephone system, gas plant, public library, two theatres, \$75,000.00 U. S. Post Office building with postal receipts of \$39,680.00 for the fiscal year ending Dec. 31, 1936. The local newspaper, The Dispatch, was established 1882, and since that time has published for the people of the city and county one of the best semi-weekly papers in the South.

Lexington has 11 churches in all leading denominations.

Educational

Lexington and Davidson County are very fortunate in having well equipped schools. The city has five public schools for white and two for colored, employing 87 teachers; the total city pupils enrolled number 3,200, while the county has 23 schools, including high school and elementary for white and colored, employing 217 teachers and with approximately 7,400 pupils enrolled. The ten teachers and 233 pupils at the Million Dollar Junior Order United American Mechanics, National Orphan's Home near Lexington, are included in this number.

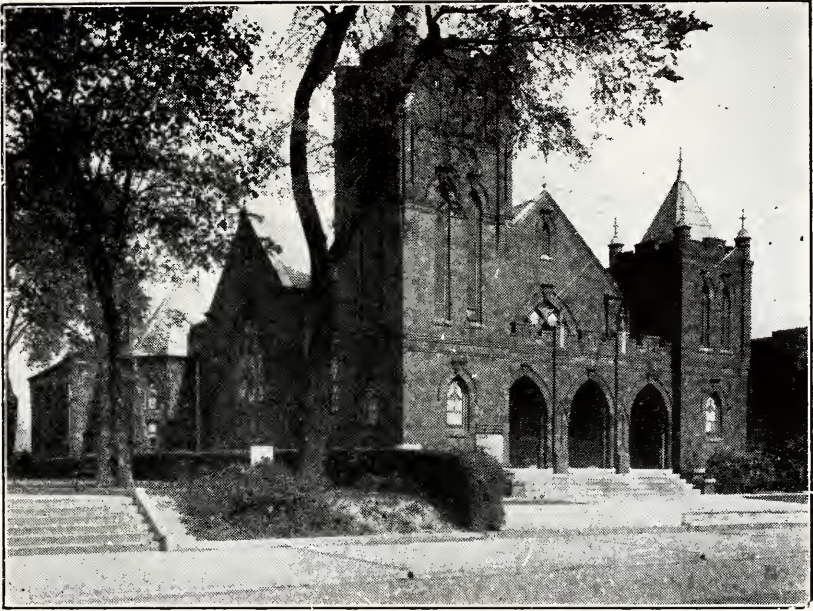

J. C. Smith Building

Stores

Lexington has splendid, modern and well-arranged stores to meet the needs of the buying public. Many of the merchants and their ancestors have engaged in retail business here for many years, and have the unique distinction of having the highest credit rating of any retailers in any city in the state of North Carolina, according to size and number. They can always be depended on to carry the best merchandise in every line needed.

Industries

Lexington is recognized as one of the best balanced industrial cities in the state. Cotton mills and furniture factories dominate. All the cloth for the B. V. D. underwear is made here. The mill village of

Methodist Church

Erlanger is considered one of the model mill villages of the South. Other industries include flour mills, wood-working plants, overall and shirt factories, panel factory, knitting mills, silk mill, twine mill, mattress factory, ice and ice cream manufacturers, printing plants, lumber plants, dairies, upholstering plants, giving employment to thousands of people.

Banks

Lexington has strong banking institutions. The Commercial Bank of Lexington, with deposits in itself of one million and a quarter dollars, and also the Industrial Bank of Lexington with resources of \$234,256.78 and deposits of \$162,394.26

Lexington has three building and loan associations which have served the community for a number of years. These associations are: Lexington Perpetual Building and Loan Association, Mutual Building and Loan Association, and Industrial Building and Loan Association. The total resources being approximately \$1,035,283.72.

Public Utilities

The water and light department is municipally owned and has successfully served the citizens of this city for years. This department of the city government is one of the most important, and has always been well-managed and successfully operated. Light and power rates are on

an average with other cities of like size. The City Utilities Commission operates these properties.

Lexington's water works is one of the most modern, efficient and up-to-date water works in the entire state. An unlimited amount of pure clean water for domestic and industrial purposes is available.

The North Carolina Gas Company has been an important factor in the development of Lexington for the past eight years. Its manufactured gas is available for a wide variety of uses for homes, commercial and industrial establishments at rates that are among the lowest in the South for manufactured gas.

The Lexington Telephone Company was organized some 50 years ago, with only six subscribers. In 1896 they were incorporated with 50 subscribers; since that time has serviced its community, and today has approximately 1,100 stations.

Junior Order Orphan's Home

The Lexington Home, known officially as the North Carolina Unit of the National Orphans Home of the Junior Order United American Mechanics, was opened March 1, 1928. It is situated on a 313-acre farm near the city of Lexington, and is now valued at approximately a million dollars. The buildings in the main group, all are of modern design and fire-proof construction. The Home has its own water and light plant, and in addition a water main from the city of Lexington. There are 37 people on the pay roll there, and 233 children in the Home at this time.

Lexington is the "port of entry" of the great High Rock Lake, the second largest artificial lake in America. This lake is created by the High Rock dam, located nearly 20 miles south of the city on the Yadkin river, which backs water to within a mile of the city limits. Highways lead from the city to the lake country, which has become a mecca of the fisherman. The Southern Power Company produces 44,100 horse-power of electricity at High Rock which is distributed over their network of high tension power lines over the state.

Soil Conservation Project

The Soil Conservation Service demonstration project was established at Lexington, October 1935. The object of this organization is to establish programs on individual farms, by means of cooperative agreements, leading toward the best soil conserving practices possible. The work of the project is confined to a 37,500 acre block in the northwest corner of Davidson County. Approximately 120 laborers and a technical staff of 20 men are available for this work. In addition to the demon-

stration project, one Soil Conservation Service CCC Camp is located at Lexington. This camp conducts the conservation program throughout the remainder of the county. The camp has an average strength of 180 men and a technical staff of 10.

Agriculture

Davidson County is primarily a center of agriculture, being in the midst of the famous Piedmont section, and noted for its fine farm lands and excellent crops. They raise in part cotton, tobacco, wheat, oats, potatoes, apples, peaches, corn, hay and vegetables.

Leaders of Lexington are proud of the city's record for the past century, and the city is facing the future with bright prospects. Two large apartment houses are entirely occupied, and practically every available house in the city has a tenant at this time, with a number of residences now under construction. It's hotel and rooming houses are usually filled to capacity. All industries are operating and retailers are enjoying a good business.

CREDIT BUREAUS

... and the greatest of these

Is CHARACTER

A Message to Parents and Educators on the need of
Character-Forming as a Part of Every
Child's Training ...

Character, Capacity and Capital are the three standards by which business men judge applicants for credit. And CHARACTER comes first.

For, a man may have capital — plenty of money. He may have capacity—the ability to earn money. But without CHARACTER—the willingness to pay promptly according to agreement—his promises are worthless. The man with character can be depended upon to keep his promises and meet his obligations.

CHARACTER is a child's heritage, strengthened by the example of the parent and the precept of the teacher during early years—the formative period.

Character is honor—a high sense of personal responsibility and respect for one's obligations. And every child has the right to be trained in the tenets of honesty and fairness in meeting his obligations. Otherwise his education is incomplete—his chance for success is impaired.

*Treat YOUR CREDIT as a SACRED TRUST
Use your credit freely and pay all bills
promptly as agreed.*

LEXINGTON
NORTH CAROLINA

Resident Directory

1937

Containing the full name, husband or wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age, residing in Lexington and environs

The publishers wish to express their appreciation to the business and professional establishments for the splendid co-operation and valuable assistance given them in the preparation of this volume.

A list of abbreviations used in this directory will be found on page 66 and a general index on page 3. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

FOR POPULATION OF GREATER LEXINGTON SEE PAGE 2

Number of dependents under 16 is indicated after name,

On the page following are listed abbreviations used in this volume.

NUMERICAL TELEPHONE DIRECTORY

1937

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained therein.

CREATIVE ADVERTISING is OUR BUSINESS

The creation of ideas to sell by direct mail is featured at our establishment.

We have served thousands of satisfied customers during the many years we have been in the printing business. We have created original ideas which have increased the business of our clients to their entire satisfaction.

Write us today and we will be glad to go into your advertising problems with you

THE EMBLEM

OF QUALITY

PUBLISHERS OF BOOKS THAT SELL

We have published from time to time many and varied types of books which have had exceptional sales. We are of the opinion that any printer can set type, but comparatively few can plan a book.

Let us figure with you when you are in the market for anything in the printing or publishing business.

We handle publications such as weekly papers, monthly magazines, college annuals; medical, historical, or any other form of books.

The printing of folders in one color or the many colors of Nature for hotels and cities is a specialty with us.

Printing, publishing, ruling and binding that pleases.
