INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of the Winston-Salem City Directory, present to subscribers and the general public, this, the 1932 edition. This is the first Hill directory of Winston-Salem, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the continued growth of Winston-Salem's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Winston-Salem to the world.

The enviable position occupied by HILL'S directories in the estimation of the public, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Winston-Salem Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The several essential departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 33 to 72, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Winston-Salem. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In a large commercial and industrial center like Winston-Salem, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 73 to 472. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 473 to 635. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 637 to 686. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY extends from page 687 to page 722.

Municipal Publicity

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this

issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Winston-Salem, for business men, everywhere, realize that the city directory represents a community as it really is.

The Winston-Salem Directory Library

Through the courtesy of the publishers of the Winston-Salem City Directory, a Directory Library has been established recently in the offices of the Winston-Salem Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,
Publishers.

WINSTON-SALEM

"The World's Tobacco Metropolis"

Statistical Review

Form of Government—Aldermanic-commission.

Population—Total, 75,274; males, 35,792; females, 39,482; white males over 20, 21,246; white females over 20, 24,044 (1930 U. S. Census). American-born, 99.5%.

Area—15.05 square miles.

Altitude—1,000 feet.

Climate—Mean annual temperature, 58 degrees F.

Parks—13, with total of 310 acres, valued at \$1,000,000.

Assessed Valuation — \$147,000,000, with \$1.30 tax rate.

Bonded Debt—\$16,622,000.

Financial Institutions—5 banks and 2 trust companies, with total deposits of \$49,753,083, and resources of \$57,-429,354. Clearings for 1930, \$436,637,-000.

Postal Receipts—\$350,994.58 (1930).

Telephones in Service—8,967.

Churches—127, all denominations.

Building and Construction—Value of building permits, \$809,950 (1930).

Real Estate—18,818 homes, with about 75% owned by occupants.

Industry—85 manufacturing establishments, employing 13,485 men and 8,100 women, paying wages of \$13,-462,979 annually, and having products valued at \$291,161,279 annually (1929 report). Principal manufactured products: Tobacco products, textiles, furniture, notions and toys.

Trade Area—Retail area has radius of 50 miles, and population of 802,-538; wholesale area, radius of 150 miles, and population of 4,434,119.

Newspapers—2 dailies and 2 weeklies.

Hotels—3 first-class, with total of 612 rooms. Newest hotel built in 1929.

Railroads—3: Southern, Norfolk & Western and Winston-Salem South-bound. 20 "off-line" railway offices and 3 steamship-line offices.

Amusements—Largest auditorium seats 3,000 persons. 6 theatres, with total seating capacity of 8,200 persons.

Hospitals—4, with total of 400 beds.

Education — Salem College and Academy. 21 schools, including 4 high. Number of pupils in public schools, 14,439. Number of teachers, 422. Value of school property, approximately \$5,000,000.

Volumes in Public Libraries—27,-837.

City Statistics—Total street mileage, 259, with 142 miles paved. Miles of gas mains, 96.29; of sewers, 225.38, and of electric street railway, approximately 10. Daily average pump of water works (municipal), 6,000,-000 gallons, with plant valued at \$3,-000,000. Fire department has 65 men, with 6 station houses and 10 pieces of motor equipment. Value of fire department with property, \$150,000. Police department has 87 men, with 1 station and 17 pieces of motor equipment.

Interesting Historical Background

Co-operation was and is the foundation of Winston-Salem.

On July 6, 1415, John Huss, of Bohemia, a province of Austria, was burned at the stake as the first Protestant martyr preceding the Reformation. His martyrdom, together with the persecution of the small band which followed him, bore the germ of a movement which culminated in migration.

This migration was ultimately to be responsible for the initial settlement of Winston-Salem, North Carolina.

Fleeing from Bohemia and Moravia to escape further religious persecutions, John Huss' little band settled for a time in Saxony, Germany, under the protection and patronage of Count Zinzendorf. Continued resistance to the desire for full religious liberty caused them to look toward the New World, and in 1740 the "Moravians," as they are now called, settled in Pennsylvania.

SALEM—In January, 1753, a small party seeking an ideal location, settled at the three forks of the Yadkin River, calling the region "Wachovia," to perpetuate the name of the beautiful estate of Count Zinzendorf left behind in Europe. Thirteen years later, in 1766, eight men—two Danes, two Germans, one Englishman and three Moravians commenced the first

building in the Town of Salem. Here the Moravians made their permanent abode and when the visitor enters Winston-Salem, a tinge of Old World history meets his eye, not so much in architecture, but in the names that reflect the past. Here one finds the

ians were to this region. Each brought a strong desire for religious freedom. Each brought a desire for education. Both brought that courage and daring, that zeal and heroism which made possible the America of today.

NISSEN OFFICE BUILDING, WINSTON-SALEM

One of the recently-erected skyscrapers of the Piedmont area of the Carolinas. Many communities, in keeping with the demands for office space, made necessary by their growth, have erected towering office structures which are indicative of the confidence of investors in the future of this section.

MORAVIAN Church and College, the ZINZENDORF Hotel, the WACHOVIA Bank & Trust Co., and numerous other names harking back to the origin of the city.

What the Pilgrim Fathers were to New England, the Protestant Morav-

The colony prospered from the beginning, for the Moravians, like the Pilgrim Fathers, brought with them ideas and ideals founded on thrift, economy and community spirit.

By co-operation the first church was built and co-operation proceeded to build the first school.

WINSTON—The prosperity of the colony began to attract others and about 1850 a small settlement was commenced on the fringe of Salem. This twin colony grew rapidly until on January 15, 1851, the Legislature passed an act naming Winston in honor of Major Joseph Winston, of Revolutionary fame.

The two communities, Winston and Salem, grew together until in May,

sponsible for the growth and prosperity of the industrial metropolis of the Carolinas—Winston-Salem.

In commenting upon the care exercised by the early settlers in selecting this particular location, the United States Department of Agriculture, in a soil survey, has the following to say:

"Prior to the settlement of Forsyth County, a reconnaissance survey was

CAROLINA THEATRE, HOTEL AND APARTMENTS

1913, by a large majority in each municipality, it was voted to combine them under the name of Winston-Salem—the "Twin City."

THE TWIN CITY—Permeating the term "Twin City" is the text of the Moravians, "Unitas Fratrum," or "Unity of Brothers," which in modern phraseology is "co-operation," and this co-operation has been largely re-

made to determine the quality of the land, its physiography, drainage, etc. The natural conditions were considered ideal. Perhaps no other colony in America was so systematic and thoroughly scientific in its investigation of the natural resources as those settlers who first occupied this section. The colony was successful from the beginning."

In 1880 the population of Winston and Salem together was that of an average village.

From this village, Winston-Salem progressed to a dominant position in the famous Piedmont Plateau of the Carolinas. Its industries, in 1909, turned out products valued at \$18,-

the first place, it is the center of that part of North Carolina of which the late Franklin K. Lane said:

"That section of the Carolinas stretching from a point about Asheville to a point about Goldsboro is destined to become the greatest industrial area in the country because

HOTEL ROBERT E. LEE

One of the newer type of hotels which have been erected in the Piedmont area of North Carolina. During the past ten years, in keeping pace with the Old North State's progress in highways, schools and industries, many of the communities have erected hotels that, in size, equipment and operation, come under the metropolitan classification. The Hotel Robert E. Lee, named for the South's noblest son, is a hostelry of 385 rooms, built especially to accommodate large conventions and meetings.

240,000, while in 1929 the total output of its plants was \$291,161,279, far outstripping that of any other city in the Piedmont area. The 1930 U. S. Census revealed a population of 75,-274.

There are many factors responsible for the growth of Winston-Salem, both in population and industry. In

of its great industrial advantages and economies."

Location and Topography

The Piedmont Plateau, extending from Virginia through the Carolinas to Alabama, needs no advertising, as it is generally known throughout the nation as a rapidly-developing industrial area.

WINSTON-SALEM is located toward the center of this section, in the Northwestern sector of North Carolina.

This city of 75,274 population, covering an area of 15.05 square miles, is the county seat of FORSYTH COUNTY, and is situated on a plateau 900 to 1,000 feet above sea level.

15 miles distant, and is the main artery of drainage for the region.

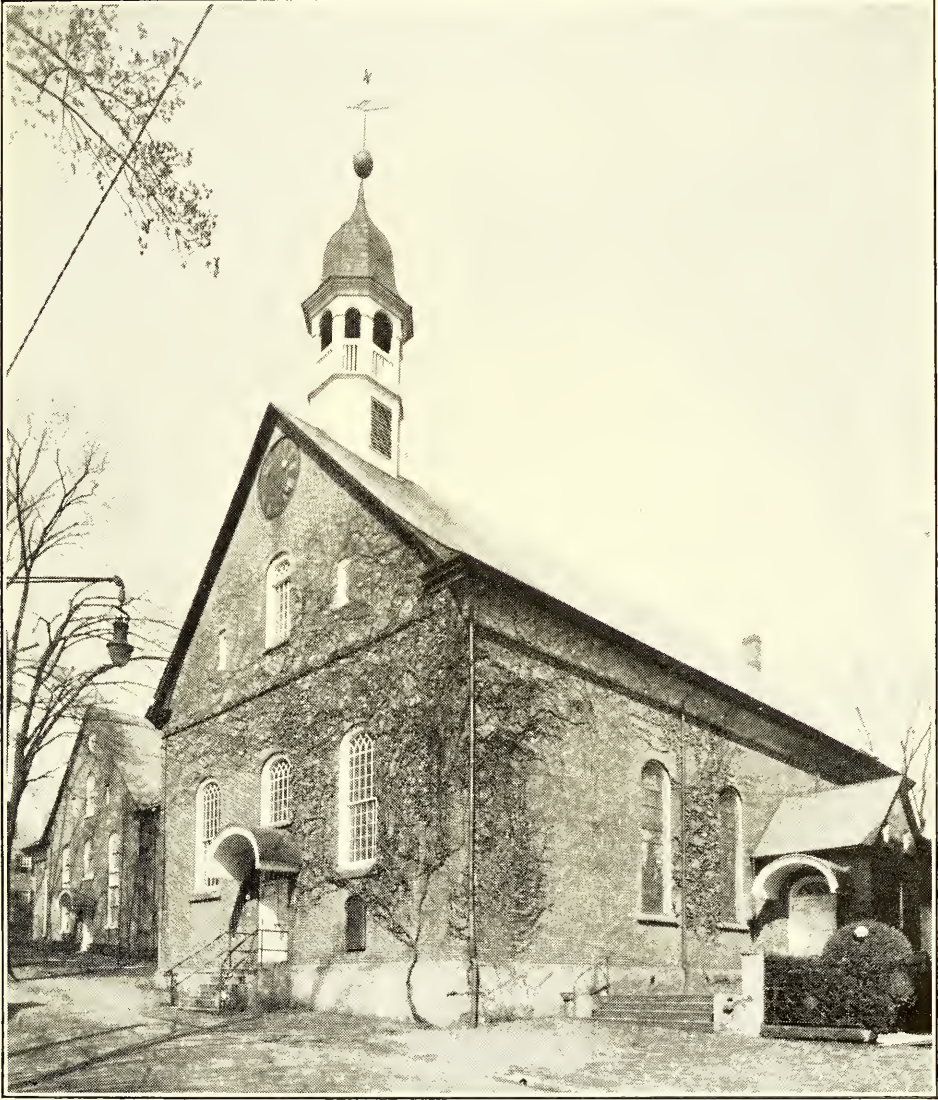

The precise location of Winston-Salem is:

Latitude36° 05' 48"

Longitude80° 14' 48"

Topographical Variety

Topography has a distinct effect on living. Continuous residence in

HOME OF THE MORAVIAN CHURCH AT WINSTON-SALEM

Built during the latter part of the Eighteenth Century. Much of the work in this edifice was done by the brethren of the Colony. The church bell was transported overland by stage-coach from Bethlehem, Pennsylvania. The church is the scene of the Easter morning sunrise service, which, each year, attracts over 50,000 visitors from distant points to Winston-Salem. The Bishop begins the service from the steps of the church. The Easter morning service has taken place annually since the founding of the Colony in 1766.

The topography may be generally described as consisting of smoothly rolling slopes dissected by numerous streams which furnish an effective natural drainage system.

The general elevation of the city is approximately 250 feet above the Yadkin River, which is located some

mountain country or monotonous flats has a decided influence on the lives and character of people. Happier conditions are found between these extremes, and the topographical variety surrounding Winston-Salem is pleasing. The Blue Ridge Mountains are visible from Winston-

Salem. Pilot Mountain raises its crest as an enduring landmark 20 miles to the northwest of the city, and the Sauretoun Range, 35 miles to the north, provides a screen which benefits climatic conditions.

Climatic Conditions

Possibly the entire mountain screen is responsible for the exceptional cli-

or winds inconvenience the city. High winds are apparently thrown at least twenty miles farther to the east. Unquestionably the mountain range is responsible for the fact that the average July temperature is only 75.8 degrees and that the mean annual temperature is 58 degrees Fahrenheit.

OFFICE BUILDING OF THE R. J. REYNOLDS TOBACCO CO., WINSTON-SALEM

Erected in 1929 at a cost of more than \$2,000,000. This building is twenty-three stories in height and is one of the most ornate in the country. Modernistic design throughout.

matic conditions attained in the immediate vicinity. While the prevailing winds are from the southwest, the cooler, tree-clad mountain areas temper the breeze, especially after sundown. The nights are regularly pleasant for sleeping. No violent gales

Summer visitors from sections farther north expecting a "Palm Beach" atmosphere are surprised. Agreeably so when they discover that due to the dip south in the 75th-degree isothermal line (July average), the climate is more pleasant than in such points

R. J. REYNOLDS MEMORIAL AUDITORIUM

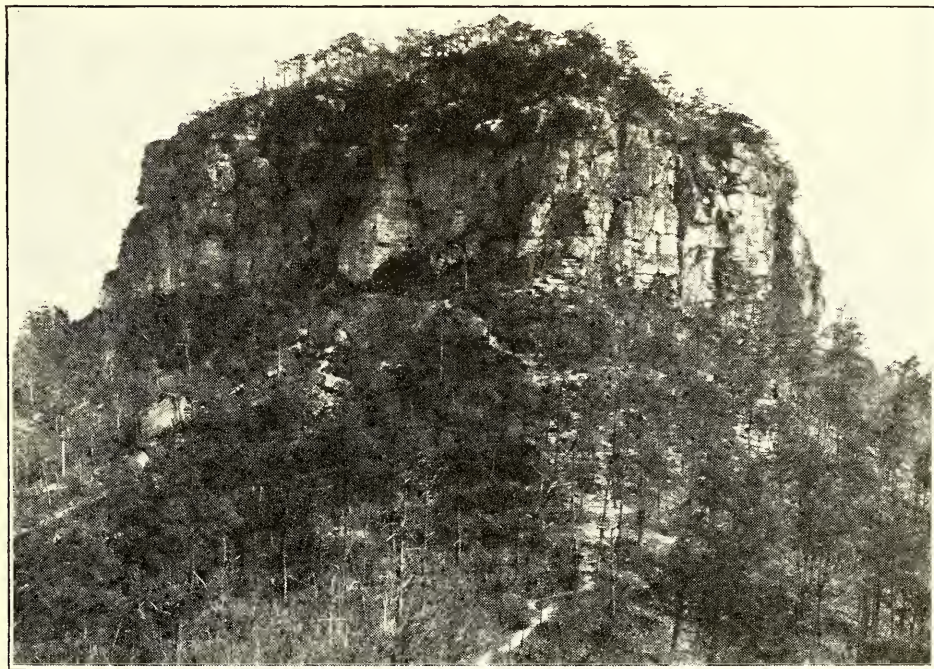

Used as a part of the High School plant for chapel and other exercises. Building cost \$750,000. In this building concerts and musical attractions sponsored by the civic music commission are held. The commission is a quasi-civic body, charged with the duty of bringing to Winston-Salem, for the benefit of the entire citizenship, outstanding musical attractions. World-famous artists, like Galli-Curci, Marion Talley, Schumann-Heink and John McCormack, have appeared here under the auspices of the commission as a community proposition.

as Cincinnati, Baltimore, Philadelphia and Washington. It is quite noticeable that there is a lower degree of humidity than at more northern points.

Average of 232 Clear Days

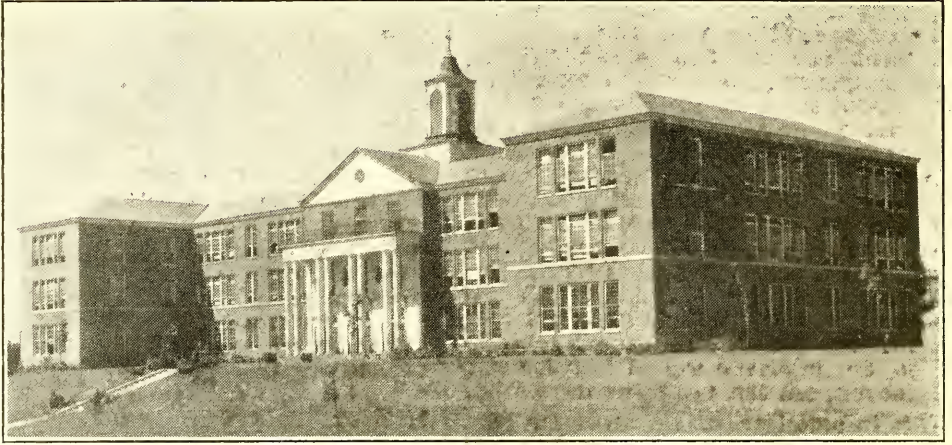

Probably due to some peculiar topographical arrangement of the

mountains, Winston-Salem enjoys an average of 232 clear days in the year. This is an exceptional condition, where points 20 to 30 miles distant have only 136 to 175 clear days in the year. In fact, compared with Los Angeles and San Francisco, which cities have respectively averages of 166 and

PILOT MOUNTAIN, NEAR WINSTON-SALEM

A peculiar geological formation, rising 1,000 feet above its mountain base. The name "Pilot" was given to this mountain because it was used as a direction-finder by the Indians in the early days of the Colony of the Carolinas. The Red Men would make their way to this mountain and get their directional bearings from this point.

GRADE SCHOOL AT WINSTON-SALEM

One of the grade schools in Winston-Salem's school development plan. This school, like others built recently, is located on acres instead of lots, which areas are developed and used for school and neighborhood recreational activities. Recently the City voted \$2,000,000 for additional school facilities, and only seven votes were cast against the measure.

168 clear days, Winston-Salem might well claim to be a "City of Sunshine."

The sunshine in the fall and winter months is delightful. The normal January temperature ranges between 35 and 40 degrees Fahrenheit. There is an average snowfall of 6 inches in the winter, distributed over January and February, but the sun's rays clear the streets in a day or two. In consequence, automobiles can be driven and golf played with pleasure throughout the entire winter.

The above description, it is believed, exactly portrays climatic conditions in Winston-Salem.

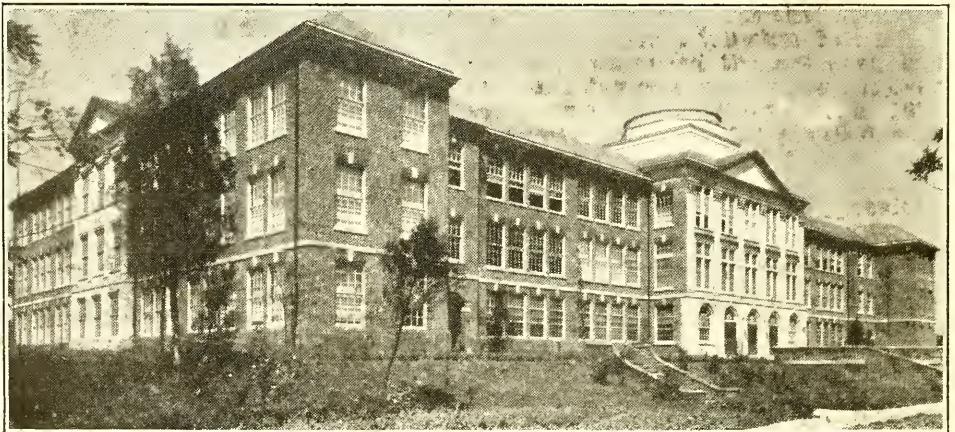

Industry and Education

Winston-Salem is nationally known for two outstanding factors in its growth and development:

One is industry, and the other is education.

While the manufacture of tobacco products is its chief industrial pursuit, it has a number of diversified industries that, in themselves, would make the city a manufacturing center.

The output of the cigarette factories of Winston-Salem, in comparison with those of other cities in which cigarettes are manufactured, easily

FIRST UNIT OF RICHARD J. REYNOLDS HIGH SCHOOL AT WINSTON-SALEM

Winston-Salem is known in American educational circles as a city which is developing an ideal school plan. Schools here are located on acres rather than on lots. 75 acres are part of the High School plant, some of the space being set aside for future expansion and the balance being devoted to an athletic field. Each school in Winston-Salem has approximately 10 acres of ground, used for neighborhood and school athletic and recreational activities. More than \$2,000,000 have been spent recently for new buildings and additional units. This money was authorized by bond election, when only seven votes were cast against the measure.

SALEM TAVERN AT WINSTON-SALEM

MODERN HOME AT WINSTON-SALEM

During the past few years many homes have been erected in the environs of Winston-Salem that might be classed as estates. This residence, like many others, is located on a wide expanse of land, and is typical of residential structures erected by Winston-Salem citizens. Winston-Salem's low tax rate and low valuation has greatly encouraged home-owning in this city.

makes this community the world's cigarette capital. Far more cigarettes of a particular brand are manufactured in Winston-Salem than in any other city in which this product is made. Over 15,000 people are employed in Winston-Salem's tobacco industry, which includes the production of cigarettes and smoking and chewing tobacco in large volume.

The hugeness of the tobacco industry of Winston-Salem can be visualized by noting the fact that the city pays to the United States Government, in internal revenue, more than \$160,000,000 per annum and its manufacturers purchase from tobacco farmers on this and other leaf tobacco markets over \$20,000,000 worth of leaf tobacco per year.

Blankets, hosiery, underwear and furniture are the four other major products. In underwear it is one of the leading centers of the country. One unit of this local industry—that of heavy knit goods—far exceeds the production of any single unit in any other state. The South's largest woolen mill gives Winston-Salem the rank of America's third largest blanket center. The world's largest silk rayon hosiery mill is another Winston-Salem manufacturing establishment, while in furniture this city is one of the leading North Carolina manufacturing points—the state as a whole producing more furniture than any other in the U. S.

As a city of industry, Winston-Salem compels attention because the value of the output of its factories exceeds that of any other Southern city except Baltimore. In value added to manufacture, it outranks all Southern cities and is, according to the United States Census, one of America's forty leading industrial cities.

The interesting thing about the industrial development of Winston-Salem is that ninety-six per cent of the city's factories are of local origin and ownership. All the major industries had their beginning through the initiative and energy of local citizens, and each one had a small beginning. The entire investment in the tobacco industry in 1875 was \$25,000. Today one company alone, based upon net earnings in excess of \$30,000,000 per annum, has a valuation of over \$500,000,000.

While the city has grown industrially, the civic leaders of the community have not lost sight of the necessity of planning definitely a comprehensive program of civic development. This phase of the community's vision is best emphasized by the school development program.

In educational circles the "Winston-Salem Plan" is often referred

to. In 1922 the city made provision for a modern school development program, not only to take care of present needs, but for the future. Each school is located upon expansive grounds instead of on mere lots, not only permitting expansion of facilities, but providing neighborhood school recreational and play areas. The average school acreage under the plan is ten, and each school was located according to density of population and area served, as charted in the City Plan. A recent bond election for more than \$2,000,000 for additional school funds, for the then present and future development, had but eleven votes against the measure.

Winston-Salem is the home of Salem College and Academy, a Class A institution, founded in 1766. This institution, though an educational activity of the Moravians, is non-denominational, and the annual student enrollment represents nearly every state in the Union, as well as a number of foreign countries. In one year students from Alaska, China, Russia and Nicaragua were among those enrolled.

Salem College, despite the ravages of the Revolutionary and Civil Wars, has never closed its doors since it was founded, except during the usual vacation period.

Social-Service-Mindedness

Another outstanding feature about Winston-Salem is the record it has made in connection with the annual Community Chest campaign. Those engaged in social service work often refer to Winston-Salem as "The South's Community Chest City." This appellation is given to the community because of the fact that for nine consecutive years Winston-Salem has not only exceeded the set goal, but only one day was required to put over each drive successfully. The 1931 campaign goal was for \$130,000, and in one day the sum of \$133,000 was subscribed and there were 3,000 more contributors than in any previous campaign.

Lowest Taxes

Winston-Salem enjoys the distinction of having the lowest combined county and city tax rate in North Carolina. The county rate is 50c and the city is \$1.30. This low tax rate is not only due to Winston-Salem's form of government, but because its major industries have adopted a policy of concentration and have built all their plants in Winston-Salem: and have their home offices and assets domiciled here, thus making a wide spread of taxable values to the advantage of the individual homeowner or small taxpayer.

The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But Your Directory Advertising is before the entire community

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

This Bank has aroused the admiration of progressive people by its enterprise. It is thankful for public appreciation, and it earnestly endeavors to repay that appreciation by the best public service in all of its departments.

We encourage savings and pay interest on savings accounts.

If we could persuade all the people who might make use of banks to do so, the prosperity of our city would be wonderfully increased.

We do whatever we can, however, in this direction by cordially and heartily welcoming the new depositor whether his means are great or small.

OPTOMETRISTS

DR. THOS. E. HOLLEMAN

OPTOMETRIST

Eyes Examined — Glasses Fitted

218 Woolworth Bldg.

Phone 8034

AN Optometrist is a highly specialized scientist who detects the physical defects of the eye and overcomes these by the use of properly fitted glasses. Where there are muscular deficiencies he will also prescribe the proper calisthenics to bring about a proper muscular balance. His work includes thorough study of refraction of light and its relation to the eye, and he must know the exact curvature of a lense necessary to make a subnormal eye function normally. His specialty is the eye and embodies all the allied subjects which have any relation to it.

An Optometrist, before beginning practice, must take from two to four years specialized training in the department of Optometry in one of the Universities or in a recognized school of Optometry. He must then pass a rigid examination in any State before receiving license to practice.

Because of these special qualifications the Optometrist is the most competent person to make a thorough examination of the eyes and to give the most satisfactory services either in the fitting of glasses or in advice. In those rare cases where medical or dental treatment is necessary to remove the condition affecting the eye the Optometrist gives the patient his advice.

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.

2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.

3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

HILL'S WINSTON-SALEM

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1932

Copyright, 1932, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

Locating Missing Heirs Finding Lost Persons

**This is only one of the many offices that the modern
directory successfully fills**

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Make More Use of Your City Directory !!!

ADVERTISING

WINSTON-SALEM

DO YOU KNOW THAT A COPY
OF THIS DIRECTORY OF

WINSTON-SALEM

is being placed in the Directory Libraries and among the commercial bodies, business men's clubs, chambers of commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.
