PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for.....

EFFICENCY

We have gone to a great expense and work in the compilation of this directory of Statesville, owing to the fact that just after we started our general canvass for names we learned that the majority of the house numbers would be changed. Our directory will show the new number that applies as well as that of the old; the difference being noted in so much as the old number will appear in brackets just after that of the new thus: (22)

Population: 9,350.

GIVING NAMES OF HOUSEHOLDERS AND DENOTING
BUSINESS PLACES

Vol. VI

THE PIEDMONT SERIES

1922-23

NOTE:—Streets numerically named are to be found after those arranged alphabetically. All house numbers are arranged numerically following the description and location of each street, giving the name of householder.

Purpose of (*) star in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.

Dash (—) before name denotes that number is wanting.

Who Is Your Competitor?

What competition do you fear most?
The competition from a store which
advertises, or the other kind?

Directory advertising—regular advertising—is a vital part of the sales effort of aggressive, optimistic firms. For business enterprises in which such an advertising policy prevails, the outlook is always rosy.
