OUR AIM is to render a service that will be satisfactory to our customers. We realize that difficulties will sometimes occur despite all our efforts to avoid them. Under the listing of the Carolina Telephone & Telegraph Co., are shown the telephone numbers which should be called to report service difficulties.

IF AT ANY TIME difficulties are not promptly corrected or unsatisfactory conditions persist, we shall appreciate your communicating the facts direct to the undersigned.

E. H. REAVES, Group Manager

How to Make Out-of-Town Calls

Decide first whether the lower priced "Station-to-Station" service can be used or whether "Person-to-Person" service is necessary.

To help you decide these calls are explained below.

How to Place the Call

STATION-TO-STATION CALLS

(From One Telephone to Another)

A station-to-station call is one on which you agree to talk to anyone who answers at the called telephone.

A call filed for a private branch exchange extension station or a hotel room number takes the person-to-person classification.

To place a station-to-station call, give the operator—

First—The name of the place you are calling.

Second—The telephone number you are calling (if known) or address name of called station, if the telephone number is not known. For example: John Doe's Residence—425 Main Street.

Third—Hold the line when requested to do so.

A three-minute connection is allowed before "overtime" charges begin if the initial rate exceeds 25 cents. If less than 25 cents, a 5-minute connection is allowed.

FEATURES OF STATION-TO-STATION CALLS

1. The rates are less than on person-to-person calls.
2. They are completed more quickly.
3. There are no report charges on Station-to-Station calls, except in the case of collect calls not completed because of the refusal of the called party to accept the charges.
4. Person-to-person and station-to-station rates are reduced after 7:00 P. M. to 4:30 A. M. and all day Sunday if the initial rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day or night rate applies.
5. Charges begin when the called telephone is answered.
6. Charges may be reversed without any change in rate when the rate

is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS

(From One Person to Another)

A person-to-person call is one on which you desire to talk to a particular person or a private branch exchange extension station. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call give the operator:

First—The name of the place you are calling.

Second—Telephone number of the called station (if known) or the address of the called station if the telephone number is not known.

Third—The name of the person you are calling.

Fourth—Hold the line when requested to do so.

The charges can be reversed.

A three-minute conversation is allowed before "overtime" charges begin.

If the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for the work done on the call.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted by the subscriber at the distant telephone, will be billed to that telephone. If the charge is not accepted at the distant telephone and the call is not completed, you will be billed with the report charge.

For further information regarding classes of service and rates—call "Long Distance."

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service—Economic operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated according to a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service is to be guided in the General Exchange Tariff as based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract—The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special condition involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and maintain the facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipments or facilities furnished by the Telephone Company.

No charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located outside of the base rate area in a territory where new pole line construction is required and the cost of providing the necessary additional poles is more than three times the annual mileage charge for the circuit thereon, connection with the Telephone Company's system is provided in one of the following methods as the applicant may elect:

The subscriber may bear the cost in excess of the amounts specified above of providing the poles and pay extra exchange line mileage charges for the necessary circuit. Ownership of such poles is vested in the Telephone Company. All pole lines, poles and circuits is at the expense of the Telephone Company.

The subscriber at his own expense may furnish the portion of the line circuit from his location to an agreed upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except that when the station is brought to the Company's central office for repair, no charge is made for labor incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the portion of pole line and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

Poles on private property to be used in serving an individual subscriber must in all cases be furnished and maintained at the subscriber's expense. Ownership of such poles on private property is vested in the subscriber. No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company. Whenever it becomes necessary to replace poles on private property, the new poles are furnished only in accordance with the arrangements specified above. All circuits on poles on private property are owned and maintained by the Telephone Company.

When a specified type of construction is desired by a subscriber, as for example, when a cross arm and no drop wires are desired in places where aerial drop wires are regularly used to reach subscriber's premises or where the individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

Service Connection Charges and Charges for Moves and Changes—A schedule of fixed charges is established covering the connection of a subscriber's charges with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in detail in this directory.

Unauthorized Use of the Telephone—Telephones equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments—The telephone equipment, apparatus and lines furnished shall be cared for and used. No instrument, appliance or device of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discon-

nect service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

Changes of Call Numbers—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of its business.

Party Line Service—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one or other subscribers in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other cause, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariff, is borne by the Telephone Company. The subscriber is billed the actual cost of such telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station, and for all toll messages received at the subscriber's station, on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due on any other telephone by the subscriber of the Telephone Company's rules and regulations applying to the subscriber's contracts or to the furnishing of service, the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a reconnection charge of \$1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed—In view of the possibility of errors and difficulties in the transmission of messages by telephony and the impossibility of insuring in all cases against them, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service, equipment and facilities furnished as are required to be used thereon. In case of interruption during the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defect or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defect or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines, or in connection with lines not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones—Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation and patrons should observe and follow those instructions when making calls.

Telegrams by Telephone—In certain cities telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call by name the telegraph company desired. By arrangement with the telegraph companies, telephone subscribers may have charges for messages received or sent, charged to his telephone, and collected with his telephone bill.

"TRAVEL BY TELEPHONE"

And Reduce Mileage Cost!
Some Selected Long Distance Rates

The rates given below are for the initial period. An initial period of 5 minutes is allowed on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. Rates to over 70,000

other points may be obtained by calling "Long Distance."

On Person-to-Person messages of more than 10 minutes' duration, the charge for time in excess of 10 minutes is the same as for Station-to-Station calls.

To speed your service, we will furnish, without charge, a special long distance directory for listing telephone numbers of firms or individuals frequently called, also rates and other information of value. A call to the Business Office will secure this directory.

SELL BY TELEPHONE

The long distance lines of this company reach everywhere, and most business concerns are now regularly using this means to make quick turnover of stocks, secure new customers, adjust complaints, and generally assist the sales forces to thoroughly cover existing territories and open up new fields.

Sales by long distance telephone now run into millions of dollars, annually.

Be sure you get your share of this telephone trade.

Ask the local Manager for full information about selling by telephone.

Service Connection Charges and Charges for Moves and Changes

Experience and careful investigation of the entire subject has demonstrated the fact that certain service connection charges covering to some extent the average cost of the initial expense of establishing service for new subscribers and of furnishing additional facilities to old subscribers should be paid by such subscribers and should not be borne by the entire body of telephone users. Therefore, a uniform schedule has been prepared which embodies rates that should not retard telephone development in any section and will place upon subscribers responsible therefore a portion of the costs incident to such service connections, leaving the balance as a charge on the business generally. This schedule is as follows:

SERVICE CONNECTION CHARGES:

1. For Individual and Party Line Service..... \$2.50
 2. For each extension station connected with any class of telephone service.. \$2.50
 3. For Private Branch Exchange Service the charge for establishing service connection:
 - (a) For each trunk line connecting the Private Branch Exchange with a central office..... \$2.50
 - (b) For each telephone connected to the Private Branch Exchange except Operators' Telephone Sets..... \$2.50
 4. To cover in part Directory, Accounting, Circuit and switchboard expenses in cases where service is established by the use of instrumentalities already in place in the Subscriber's premises and no change is made in the type or location of such instrumentalities, each main station, \$1.00.
-

CHARGES FOR MOVES AND CHANGES.

The charges for moves and changes in equipment will be as follows:

1. For moving a telephone set from one location to another on same premises, a charge of \$1.50.
 2. For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.
 3. For other changes in equipment or wiring, a charge based on cost of labor and material.
 4. The Company will, subject to the usual charges above set out, install or change the location of a telephone provided it has facilities available, at as early date as practicable, and the conditions under which it is then working permit.
-

Calling the Wrong Number Is Knocking at the Wrong Door

Have you ever searched for the home of a friend in a strange neighborhood and accidentally knocked at the wrong door?

A similar inconvenience can be avoided when making a telephone call by consulting the directory before placing your call.

Our memory plays us strange tricks, and when relied upon for telephone numbers causes us to ask for 4565 when we intended to call 4556.

Always consult the directory before making a telephone call. It is the best assurance against inconvenience for you and the person called.

An Advertising Medium That Gets Big Results

The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

It's a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

Call our Business Office today and arrange for advertising space in the next issue of this directory.

INSTRUCTIONS

Whitakers N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM

- 1—First consult the directory for the number you want to call, remove the receiver from the hook and listen for dial tone and dial the number wanted.
- 2—If, after having dialed the correct number you get the busy tone, this indicates that the number you are calling is being used by someone else. Hang up the receiver and call again later.
- 3—When answering your telephone do not say Hello. Say, this is number 221 or whatever your telephone number may be. This will enable the calling party to know whether or not he has dialed the right number, and will eliminate useless conversation.
- 4—Should you wish to make a second call, pull the receiver hook down and hold it in this position for about 5 seconds. Release the hook, and dial the number wanted.
- 5—To call a subscriber on your own line, take down your receiver. If the line is clear, dial number 01 and the last figure of your own number and the last figure of the number desired. Hang up the

receiver. Your bell will then ring and the called party's bell will ring. When the called party answers your bell will stop ringing. Remove your receiver and talk. If the called party does not answer you may stop the bells from ringing by removing the receiver from the hook, and replacing it.

6—Codes for party lines are as follows:
Code

- 271....1....1 short ring.
- 242....2....2 short rings.
- 243....3....3 short rings.
- 274....4....4 short rings.
- 275....5....1 long and 1 short ring.
- 276....6....1 short ring.
- 277....7....2 short rings.
- 278....8....3 short rings.
- 279....9....4 short rings.
- 270....0....1 long and 1 short ring.

7—To call Long Distance or Information, dial No. 04.

8—To call subscribers in Enfield dial 08.

Important Notice

To Party Line Subscribers

IF YOU are a party line subscriber and wish to call another party on your line, do not give the operator the complete number of the telephone wanted. Just say, "I want to talk to J on this line," or, M, R or W as the case may be, and then hang up the receiver while the operator rings the other telephone. When you think the party you are calling has had time to answer the telephone, remove your receiver and proceed with the conversation.

The TELEPHONE patronage is a Satisfied Permanent Patronage, which should be carefully cultivated and courteously served.

TELEPHONE Salesmanship has five requisites:

Knowledge of Goods
Knowledge of Human Nature
Personality
Tact
Sincerity.

INSTRUCTIONS

Wilson, N. C.

HOW TO USE THE DIAL TELEPHONE

On all calls, remove the receiver carefully from the hook and *listen for the dial tone before starting to dial a number. The dial tone is a steady humming sound heard in the telephone receiver, indicating that the line is ready for you to dial.*

HOW TO DIAL A NUMBER

When you hear the dial tone, keep the receiver off the hook and dial each figure of the telephone number, as listed in the telephone directory, consecutively in the order given. For example, if you are calling 3456, proceed as follows:

1. Place your finger in the opening over the figure 3.
2. Turn the dial around until your finger strikes the finger stop.
3. Remove your finger and without touching the dial allow it to return to its normal position.
4. Proceed in the same way to dial the other figures 4, 5, and 6.

If your finger slips, or you make a mistake in dialing, hang up the receiver at once, wait a few seconds and dial again.

Before starting to dial a second call, always hang up your receiver for a few seconds in order to clear the previous connection.

RINGING AND BUSY SIGNALS

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called line is ringing, or the busy signal, a rapid buzz-buzz-buzz, indicating that the called line is busy.

If you do not hear either of these signals within half a minute, hang up the receiver, wait a few seconds and make another attempt.

OBTAINING ASSISTANCE FROM "OPERATOR" IN EMERGENCIES

If the lights are out, or you need assistance from the Operator in emergencies, you may secure an operator by simply placing your finger in the opening in the dial over the figure "O" and turning the dial around to the finger stop and releasing it.

Explain your difficulty to the operator and she will assist you.

COIN BOX TELEPHONES, OR PAY STATIONS

Instructions covering operation of coin box telephones are mounted on each coin box station.

CALLS FROM A PARTY LINE OR FROM A LINE WITH AN EXTENSION TELEPHONE

Always make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being held by some one else on the line. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line, or hear successive clicks in the receiver, it indicates that some one else on the line is trying to dial. Inform him that the line is in use and ask him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

To dial another party on your line, it is necessary to dial a special code number instead of the number listed in the telephone directory. If you wish to know who else is on your line, this information may be secured by dialing 7. If you know the listed names and numbers of others on your line, then proceed as follows:

1. If you are a two-party subscriber, it is only necessary to dial code number 616.
2. If you are a subscriber on a line with more than one other party, dial "6" followed by the last figure of your number and the last figure of the number you desire.

Always after you have dialed the proper code number hang up your receiver. Your bell, as well as that of the party you dialed, will ring at brief intervals until the called party answers. When your bell stops ringing, remove your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one to answer the called telephone. You should then stop your bell and clear the connection by removing your receiver for a few seconds and then replacing it.

The Way of Today!

THERE'S the call you'd like to make or the one you'd like to answer privately. An extension telephone away from the crowd. *That's the answer!*

Then there's the sharp ring that cuts the night, when everything below is dark and still. Another extension at your bedside. *That's the answer!*

Extension telephones cost little. Merely a few cents a day. The price of your daily newspaper. Before you forget it, why not put one in *now?*

The Telephone Way is the Way of Today!

YOU MUST GO AFTER BUSINESS !

It will no longer come to you without effort.

You should advertise and your advertisements should be placed where they will be seen.

The Telephone Directory offers a continuous and persistent circulation that reaches practically everyone who buys.

The Telephone Directory goes into the office, home, and factory, and stays there.

Call our business office today and arrange for space in the next issue of this directory.

Carolina Telephone & Telegraph Company

“One is *never* lonely
with the telephone near.”

“D O I mind being alone? Well, I can’t say I’m frightfully keen about it, but there are worse things, you know. . . Exactly, one is never out of reach of one’s friends with a telephone near. . . When Grant is away on one of these trips, he seldom fails to call me every evening by long distance. . . My dear, it’s the best sort of tonic — just hearing his voice. . . No, I’m not a bit uneasy at night any more. It was his idea that we have an extension put in the bedroom, and you can imagine what a comfort it is, and besides it gives me such a complete sense of security.”

To be without a telephone in the home these days is to suffer the inconvenience of a darker Age—while its presence assures the utmost in expediency, comfort and protection.

CAROLINA TELEPHONE &
TELEGRAPH COMPANY

"Dealers in Trade-Marked Products and Services"

Stromberg-Carlson Radios

Radios whose prestige justifies the slogan "There is nothing finer than a Stromberg-Carlson." See one of the following authorized Stromberg-Carlson dealers before you buy.

Are You An Advertiser?

Only representative merchants of a community advertise in the Telephone Directory.

The Directory is their advertising medium, and the telephone, always ready and close by, gives direct connection.

What better modern methods could be adopted for advertising and stimulating your business?

Your advertisement in this directory will increase your business. The telephone directory remains always by the side of the means of giving the order—the telephone. It is permanently in the homes and offices of the leading people in the city. Rates and information cheerfully given. **CALL THE MANAGER.**
