The increase in Wilmington's banking business since 1905 gives a good indication of the substantial growth of the city, as follows: In banking capital and surplus from \$1,055,750.90 to \$2,708,635.95; in banking deposits from \$5,020,220.80 to \$11,289,146.79.

An indication of the business of a town is the growth of its Post Office receipts. The post office receipts of Wilmington have increased over 300 per cent. in the last ten years—(Now over \$131,000.)

The proof of the growth of a seaport is its increase in imports and exports. The imports and exports of Wilmington have increased in the last decade 2147 per cent—(Now over \$28,000,000.)

This is sufficient proof of our rapid and substantial growth. The following are twelve of the many reasons for it, and will show why we expect to double our population in the next ten years:—

1. Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all of New England had only one such distributing seaport, and it will then be realized why Wilmington must grow, and is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

2. Wilmington has the freight facilities of six lines of railroads, competing with water rates. Vessels come here from all parts of the world, our wharves accommodating ocean steamers drawing 26 feet. Our channel will soon be deepened to 30 feet.

3. From the Middle West, the Panama Canal will be in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington will not be subject to the dangers of Cape Hatteras.

4. Wilmington is the center of the greatest vegetable producing district in the United States. A few years ago no strawberries were raised except for domestic use; now **WILMINGTON IS THE LARGEST STRAWBERRY RAISING DISTRICT IN THE WORLD.** It is the **LARGEST LETTUCE PRODUCING DISTRICT IN THE WORLD,** and next to the largest peanut market.

5. **WILMINGTON IS THE SECOND LARGEST COTTON MARKET ON THE SOUTH ATLANTIC SEABOARD,** and the **FOURTH LARGEST EXPORTING COTTON MARKET IN THE WORLD.**

6. Our "Back Country" strength: There are within 50 miles of Wilmington over one million acres of idle land having the finest grade of soil type found in the Atlantic Coastal plain. In addition, there are available large areas of land of somewhat less valuable soil types but which are also highly suitable for agricultural uses. On the fine

sandy loam with clay subsoil, a farm population of a half million could easily be supported, and an urban population of a quarter of a million in cities and towns.

7. Wilmington is within ten miles by trolley of Wrightsville Beach, the most attractive seaside resort on the South Atlantic Coast.

8. Wilmington has factories, oil mills, cotton mills, lumber mills, machine shops, cotton compresses and many miscellaneous industries, but it wants more of them.

Every inquiry will receive prompt attention from that member of the Chamber of Commerce most competent to deal with each specific case. We want energetic men in every line of business from every part of this country, and will extend to them a hearty welcome and our earnest co-operation.

*Many new people have come to our section bringing with them valuable ideas and new methods. This is the kind of people we want, and this is the kind to whom our unexcelled and unexploited resources will bring prosperity and wealth.*

Wilmington has shown material progress in the erection of business buildings and residences in the past few years. The approximate expenditure for 1912 is \$1,027,775 as compared with \$750,000 for 1912.

Wilmington is located at the head of the Cape Fear ocean gateway, with 400 miles of inland navigation and six railroads extending in all directions making this port one of the most desirable distributing points on the South Atlantic Coast.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick and Southern railway and the Clyde Steamship Line to New York. Twenty-eight passenger trains enter and leave Wilmington daily over six separate routes.

Wilmington is the largest commercial city in North Carolina, with an annual business of \$75,000,000.

Wilmington's suburban growth during the past few years is considered remarkable. In one township which includes Carolina Heights, Delgado, Winter Park, Seagate and Wrightsville Beach, the value per assessment in 1905 was \$587,901 as compared with \$1,261,607 in 1912. The estimated actual value of the property is \$2,800,000.

Wilmington's wonderful progress as a seaport is shown as follows: Exports, 1902, \$11,102,171, as compared with \$28,705,448 in 1912, showing an increase of 158½ per cent; imports, 1902, \$258,358.00, as compared with \$3,159,043 in 1912, showing an increase of 1,122½ per cent.; aggregate receipts 1902, \$7,835, as compared with \$41,272.00 in 1912, showing an increase of 426 per cent.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average Summer temperature, 78 degrees; average Winter temperature, 48 degrees. The normal rainfall is 51.05 inches; average annual clear days, 132; (New York rainfall, 44 inches; clear days, 118; New Orleans rainfall, 57 inches; clear days, 109.) The mild climate and diversified opportunities makes this city and section a haven for homeseekers.

# Biggest Corn Crops

You can make 100 bushels, and even a larger yield of big, full ears with plump, sound grains of corn, besides an excellent supply of nourishing fodder for your live stock

## By Using Virginia=Carolina High-Grade Fertilizers

liberally. That is, if your climatic and soil conditions are favorable and you follow the correct methods of careful planting, fertilizing and cultivating. All this is interestingly explained in our new FARMERS' YEAR BOOK, free at your dealer's, or sent on your request, postage paid.

## City Directory Don'ts

Don't put your directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a directory is paying for itself unless you use it any more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your directory.

DON'T look happy when a neighbor wants to borrow your directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date City must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

# City Directory Don'ts

Don't put your directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a directory is paying for itself unless you use it any more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your directory.

DON'T look happy when a neighbor wants to borrow your directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date City must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?
