This directory remains the property of the Baldwin Directory Company, Inc., and is leased to subscriber for a period of two years or until the next edition of the directory is published. This directory is leased for use of only one subscriber unless different arrangements are made with publisher. Directory must be returned to publisher at the expiration of the lease.

Compiled and Published By

Baldwin Directory Company, Inc.

Home Office:

125 MEETING STREET, CHARLESTON, 5, SOUTH CAROLINA

Independent and Progressive

Baldwin Directory Company, Inc., publishers of this city directory and the world's largest independent publishers of city directories, is in no way connected with any national association or directory "trust". Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a **progressive** company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 30 years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

INTRODUCTION

Baldwin Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1947 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SIX DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. **The Buyers' Guide and Civic Section** is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional cards of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

2. **The Resident Directory** contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

INTRODUCTION

3. **The Householders' Directory** contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

4. **The Business Directory and List of Nationally Advertised Brands** contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the name of nationally advertised brands of merchandise, with the name of the local agents or distributors.

5. **The Numerical Telephone Directory** contains telephone numbers arranged in numerical sequence.

6. **Rural Route Directory** contains names of all rural residents.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory:

Number of dependents under sixteen;
Designation of home ownership;
Nationally Advertised Brands;
Numerical Telephone Directory;
Telephone Numbers on Street Guide.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed HOME circulation for advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin Directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

BALDWIN DIRECTORY CO., INC.

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: **Smith Robt R (Mary L)**.

The number of children under sixteen years is shown after the wife's name as follows: **Smith Robt R (Mary L) 3**.

The **®** both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: **Smith Mary L (wid Robt R)**.

The occupation and place of employment are shown as follows: **Smith Robert R (Mary L) clk Hub Clothing Co**.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home.

Married women, engaged in home other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: **Smith Mary (Mrs Robt R) bkpr Henry Jones & Co r 210 Main**.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked **RD**.

The letters **BD** shown on some entries indicate Buyers' Directory.

Colored is shown by a **©**. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householder's name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The **®** denotes householders who own the house in which they live. By using the street guide as a mailing list, a thorough coverage of the city will be obtained without any duplication of names.

The buyers' guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

LUMBERTON

NORTH CAROLINA

Lumberton was created by act of the general assembly of North Carolina on November 3, 1788, a year before George Washington became president of the United States, and was incorporated in 1852, a year before the outbreak of the War between the States. The founder was General John Willis, who measured off a 170-acre tract of land from his 11,776-acre plantation holding. He assigned Jacob Rhodes, a surveyor, to lay out the town on the basis of a plat that was filed under date of May 5, 1787, along with a plan for the conduct of a lottery to dispose of the town lots.

General Willis had been a soldier in the American Revolution, and he and his brother-in-law, Colonel Thomas Robeson, also of Revolution fame, had been responsible for the creation of Robeson County out of lands belonging to Bladen County. As a member of the general assembly and because of his work on behalf of the new county, the actual organization of the county and the town was a joint operation and Robeson County was named for Colonel Robeson.

Historians are not agreed as to the origin of the name of the new town of Lumberton, nor are they in agreement as to authenticity of the story that the original name of the river that flows through Lumberton was "The Lumbee". There is some evidence to the effect that Lumberton was so named because it was an important "lumber town" at the time it was founded, and there is some evidence to prove that the Indians called the present Lumber River by the euphonious name "The Lumbee". Students of Indian language and lore are authority for the tradition that "ee" in the Indian tongue is the equivalent of the English word "river". By circuitous reasoning, there are some who contend that the Indians named the river and that Lumberton acquired its name from the river, and not because of the fact it was a lumber center.

The original 170-acre tract on which Lumberton was founded was said to have been entirely covered by trees, and that many large trees had to be but down to make way for the block that was set aside for a courthouse and for business houses and residences. Lots were laid off in half-acre size, with streets surveyed in four directions and space designated for a commons and public square. The lottery was scheduled for

August 14, 1788; and when tickets calling for town lots were not presented, the town managers were directed to rent out the lots for the best prices obtainable. The affairs of the lottery were conducted by five men named by the new court of Robeson County as trustees of the town lands.

Lumberton's first business houses were erected along the Lumber River waterfront, then known as "the wharf," and up and down the present Elm Street, and the three or four courthouses that have served Robeson County have been located on the original block set aside for that purpose by General Willis. Gradually, the business area has spread out from the first center, but for the 160 years of Lumberton's existence the bulk of the town's business has been transacted in areas lying close to the courthouse block.

Little is known of the first sixty years of Lumberton's existence, but when the incorporated Town of Lumberton came into being in 1852 the population within its borders ran from 200 to 300 persons. Turpentine, timber and general naval stores products were the chief sources of industry.

Dr. Edmund McQueen was the first mayor of Lumberton, and Col. John Rowland, an outstanding public figure of that day, drew up the city ordinances and named the streets of the town. The first commissioners to serve with Dr. McQueen were E. Lewis, W. W. Gunn, J. M. Heartman and R. S. French. Lumberton furnished men for the Confederate Army during the War Between the States, and farmers of the Lumberton area did much toward furnishing food for the Confederate Army, and particularly during the time of the defense of Fort Fisher, near Wilmington. A detachment of Federal troops passed through Lumberton near the close of the war, but there is no record of any armed clash.

Just four years short of being 100 years old as an incorporated town, the City of Lumberton has made great strides in the last fifteen or twenty years. Now a city of approximately 12,500 inhabitants, Lumberton is recognized as the leader in a large area in the southeastern tip of North Carolina. In the matter of transportation, Lumberton has two railroads—the Seaboard Air Line and the Virginia and Carolina Southern—a million dollar, Class 4 airport, eight hard-surfaced highways leading into the city, several motor freight lines, and is the chief terminal of the Queen City Coach Co. in Eastern North Carolina, with more than 100 in-and-out buses daily.

At the turn of the century there were no paved streets in Lumberton, while today there are miles and miles of paved streets and sidewalks, and a big paving program is now underway. Less than two gen-

erations ago there was no sanitary system for Lumberton, while today there are miles and miles of sewage, storm sewage and water lines, and additional lines are being laid at this time under an enlargement program. The man who has telephone No. 1 in Lumberton well remembers when there was no telephone system in the city, and today Lumberton is the center for telephone service over a wide area. Where there were fewer than a dozen stores a hundred years ago there are now more than 300 successful retail establishments. The latest government and business estimates report that Lumberton does a greater volume of retail business than any other town in North Carolina of similar population total.

In the early days Lumberton figured heavily as a cotton market, and today the local market is of considerable relative importance, but its greatest advance in an agricultural field has been the growth and expansion of the tobacco market. For several years now Lumberton has sold fifteen to twenty million dollars worth of tobacco each year, and there are now three large tobacco redrying plants in Lumberton to help in processing the tobacco crop that is grown and marketed in this section. Within the last ten years Lumberton has moved up from sixteenth to tenth place in the list of more than eighty flue-cured tobacco markets of the southeast. Lumberton not only sells large quantities of tobacco each year, but the Lumberton market is now recognized as one of the most stable markets in the entire flue-cured belt.

While Lumberton's economic background is largely agricultural there is sufficient industry to insure a good balance. Products from the thousands of acres of rich lands in Robeson and adjoining counties find a ready and high market in Lumberton, but at the same time the business and professional interests of Lumberton also enjoy the fruits of substantial industrial payrolls. As an indication of Lumberton's growing importance in the general business world as a center for business, the Carolina Power & Light Company has just recently begun the construction of a \$15,000,000 steam electric power plant at Lumberton. This plant will not be completed until some time in 1950, but eventually it will supply electric power over a large territory.

Lumberton has two banks which have combined resources of above \$25,000,000, one 100-room fireproof hotel, five registered tourist homes, an excellent city school system, and many large church congregations. There are two newspapers, one a daily and the other a weekly, a 250-watt radio station, a nine-hole golf course with excellent fairways and grass greens, a handsome new country club building, a city bus service, and three motion picture theatres. The Chicago Cubs operate a "baseball farm" in Lumberton, with the Lumberton Cubs having a team in

the Tobacco State League, and Jennings Beach is a municipally owned recreation center.

A full-time and active Chamber of Commerce and a Merchants Association look after Lumberton's business interests, while five civic clubs are active in this field of endeavor: Rotary Club, Kiwanis Club, Lions Club, Junior Chamber of Commerce and Professional Women's Club. Over the years Lumberton has had a sound and progressive city government, and the town has the distinction of never having defaulted in the payment of either principal or interest on its indebtedness. Two modern hospitals are operated under a joint administration. The Lumberton climate is generally mild with a mean temperature of 63.3 degrees. The city is 142 feet above the sea-level.

Industrial leaders and students of economics are predicting a bright future for Lumberton. They say the next twenty-five years will witness great growth and expansion, with Lumberton moving far out in the lead as a greater agricultural market, as an outstanding trade center and as a city of good industrial payrolls.

Resident Directory
1948

Containing the full name, husband and wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age residing in this city and environs.

The publishers wish to express their appreciation to the business and professional establishments for the splendid cooperation and valuable assistance given them in preparation of this volume.

A list of abbreviations in this directory will be found on the following page and a general index on page 3. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

Number of dependents under 16 is indicated after name

PUBLISHED BY BALDWIN DIRECTORY CO., INC.
