INTRODUCTION and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1959 edition of the Madison-Mayodan City Directory.

This is the first Hill Directory of Madison-Mayodan and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Madison-Mayodan's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Madison-Mayodan to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Madison-Mayodan Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Madison-Mayodan arranged in alphabetical order under appropriate headings—a catalog of all the activities of Madison-Mayodan. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Madison-Mayodan, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Madison-Mayodan, and the name, official personnel, nature and address of each firm and corporation in the city.

GROGAN'S COURT
& RESTAURANT

PINE HALL BRICK
& PIPE CO., Inc.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order; followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Madison-Mayodan. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. **DEMAND PROPER IDENTIFICATION.** Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence*. Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. **BE SURE** some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. **PRINT** your name clearly on your mail box. **EQUIP** your mail box with a lock if you have not done so.
3. **CASH** your checks in the same place each month. This will make identification easier.
4. **DO NOT ENDORSE** your check until you are in the presence of the person you will ask to cash it.

CASHIERS! TELLERS! — CLERKS! —

Do your employers furnish you with
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

HILL DIRECTORY CO., INC.

Established 1896

RICHMOND 21, VA.

Revised 2-59

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Out of Sight -- Out of Mind Out of Business

★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

HILL'S MADISON-MAYODAN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

Use Our Library of
**OUT-OF-TOWN
CITY DIRECTORIES**

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
