ST. MARY'S SCHOOL, Raleigh, N. C.

Founded in 1842 by Rev. Aldert Smedes, D. D.

FOR GIRLS AND YOUNG WOMEN.

THE LARGEST BOARDING SCHOOL FOR GIRLS OF THE EPISCOPAL CHURCH IN THE UNITED STATES.

St. Mary's does not pretend to have the standard of a "Class A College" nor is it a mere "finishing school."

St. Mary's supplements a high school education of the very highest standard with two years of advanced work, along college lines, but planned primarily for the needs of those who wish to complete here a well-rounded education, including, if desired, the refining elements of Music or Art.

The discipline is intimate but firm, with homelike influences rather than college freedom, and the design is to have parents feel that in St. Mary's they have a safe, intellectual and inspiring environment for their daughters which will advance them along the right lines into the best type of modern womanhood.

St. Mary's aims to promote sound physical development, to cultivate a refined Christian womanhood, and to maintain the best standards of scholarship. Attention to health is made of the first importance.

In addition to the "College" and Preparatory Courses, there are complete and up-to-date departments of Music, Art, Elocution, Business, and Domestic Science.

The boarding enrollment is 175; the students of Music number 150; the total enrollment is 300.

The terms are moderate.

PREFACE

Population United States census, 1910.....	19,218
Population, 1915.....	25,000
Population in a radius of 100 miles of Raleigh.....	1,791,908

RALEIGH, the capital of North Carolina, founded in 1792, was named for Sir Walter Raleigh, the famous knight and courier who, during the reign of Queen Elizabeth, sent the first expedition into what is now the territory of the United States, this having made the first settlement on Roanoke Island, near the coast, eastward from Raleigh. The land on which Raleigh now stands was purchased by a commission, named by the legislature, from Joel Lane, and the streets were set apart and also five public squares, the commission having given names to all these. The State Capital stands in Union Square; the Governor's Mansion in Burke Square; the State School for the White Blind in Caswell Square and the other two squares, Nash and Moore, are used as parks. The streets are at right angles and these and the squares are the property of the State and not of the city. The four principal streets, ninety-nine feet wide, are named after former capitals New Bern, Halifax, Fayetteville and Hillsboro, and point in the direction of those places; the other streets being sixty-six feet wide. The State also owns the granite quarry from which the stone used in constructing the present capitol was taken, this building having been completed in 1840.

Raleigh is unique in that the site purchased by the State for the capital and its streets and parks within its boundary, are State and not city property. It is unique in another respect; it is the only city which, during the war between the States, was formerly surrendered to the Federal authorities. This surrender having been made by commissioners who met Gen. Sherman, commander of the United States forces, in April 1865, a few miles south of the city.

The location of Raleigh is admirable, being on the first step of the plateau which marks the boundary between the coastal-plain and the lower Piedmont region. On the eastward the pine forests extend to the sea, while westward there is rolling land, largely covered by hardwood timber. The country around Raleigh is particularly attractive and is well watered by streams and springs. The city's altitude above sea level is 363 feet, at the capital building. The city gets its supply of water, which is healthful, from a stream a mile from the boundary, storage basin 200,000,000 gallons; the watershed being carefully

PREFACE.

policed and under the jurisdiction of the city. The sewerage is carried into streams running north and south of the city, by natural fall.

Raleigh enjoys a year-round temperature of 60 degrees, average annual sunshine 62 per cent; average annual snowfall 8.10 inches; average annual precipitation 48.25 inches. Raleigh was designated by the Board of Eminent Surgeons, appointed to select sites for hospitals during the Civil War, as one of the most suitable for that purpose, on account of its remarkably salubrious climate, pure water and splendid sanitation, combining as far as possible, an influence conducive to convalescence of invalids and health attendance.

The population of the city was 19,218, by the census of 1910; by census of 1914, 25,000, there being four square miles within the corporate limits, which were extended in 1908. Of the population, sixty per cent. is white, and forty per cent. colored. There are sixty-six miles of streets, of which fourteen miles are paved; during 1914 there was \$220,000 worth of street paving done. Fifty miles of water main, with 3,800 water-takers; 2,000 miles of telephone line, with 3,276 telephones installed; postoffice receipts 1914, \$164,398.23; amount of bank deposits \$7,357,885.83; assessed value of property, \$14,500,000. Population within a hundred-mile radius of Raleigh, 1,791,908 people.

There are twenty-nine schools, of various classes, from a university to the grammar schools; of these fourteen being public schools with over 4,000 children in attendance; number of students in other institutions about 3,000, making a total of over 7,000 students in Raleigh. There are four schools for white, a high school and six grammar schools; and for colored—four grammar schools, all of these public. Of colleges, there are for white, the State Agricultural and Mechanical College, for men; St. Mary's, Peace and Meredith for young women; then two business colleges: King's Business College, and Page's School of Pharmacy; while for negroes there is Shaw University, the largest negro Baptist institution in the country; and St. Augustine has the same prominence among Episcopal colored institutions. The proportion of students in the schools of all classes is greater, as compared to the whole population, than any other city in the South.

From an industrial viewpoint Raleigh shows well, for during the past decade it increased its factory capital from \$728,000 to \$2,500,000, and the value of the products of factories from \$947,000 to \$3,000,000, so that it ranks fifth in the United States in the percentage of such increase in cities having under 25,000 inhabitants. The sixty-seven manufacturing plants turn out cotton goods, yarns, hosiery, underwear, boilers, structural iron work, agricultural implements, vehicles, cotton oil and fertilizers, phosphate fertilizers, house building material, furniture, school supplies, books and printing generally, building stones

243540

PREFACE.

and monuments, street-paving material, washboards and other wooden ware and candy. The increase in value of products during the ten years ending in 1910 was 119 per cent. There are seven banks and eight printing houses and forty-two newspapers and periodicals are published here, the extent of the printing business exceeding that at any place of this size anywhere in the South

There is one electric company, the Carolina Power and Light, with \$15,000,000 capital stock, operating the street railway and furnishing light and power to all the manufacturing plants, including cloth, hosiery, underwear and yarn mills. This company obtains water-generated electric power from its plants at Milburnie on the Neuse river, six miles distant, and at Buckhorn Falls on the Cape Fear river, ninety-seven miles distant, and at Blewitt's Falls, ninety-seven miles distant on the Yadkin river, near Rockingham, for the transmission of power here over a line of 100 miles long. This company serves electricity to points between Raleigh and Roxboro to the northward, Goldsboro the eastward, Durham to the westward and Fayetteville on the southward. The company has taken over the gas plants at Raleigh, Durham and other points. It operates in Raleigh fourteen miles of street railway and thirty-four cars, and has installed here an auxiliary or reserve steam power plant, so that it has 60,000 H. P. for use.

There are two telephone companies and two telegraph companies; three public libraries, fifty-eight State buildings, including those at the Central Hospital for the white insane and epileptics, penitentiary, schools for the blind and deaf-mutes and the Agricultural and Mechanical College; the total value of all these being \$3,900,000; this is not included in the tax valuation.

There are three railways: the Southern, Seaboard Air Line and Norfolk Southern. Raleigh is located midway between New York and Florida; is in close touch with all parts of the State, from the sea to the mountains; has one hundred trains daily. Lands have doubled and in many cases trebled in value during the past five years; the country in this vicinity produces a great variety of crops, including corn, cotton, small grain, tobacco, sorghum, peas and all sorts of truck, and in the county of Wake, of which Raleigh is the county seat, the corn-growing record of the United States has been broken by the production of 226 bushels on an acre, and the cotton-growing record by the production of $3\frac{1}{2}$ bales to the acre.

The fire department is paid. The city has a remarkable record as to small loss by fire. The city ranks first-class as to insurance rates. It has a municipal building and an auditorium of stone and brick, at a cost of \$125,000, with a seating capacity of 5,000, this being one

PREFACE.

of the finest structures of its class in all the South. There are four hotels, all practically new, and large additions to two of these have been constructed this year.

One of the most attractive spots around Raleigh is our Country Club. It is situated about three miles from the heart of the city; accessible by either street car or automobile. An eighteen-hole golf course is laid out over highlands, each with its own peculiar natural hazard. "This course," said a great golf fiend of New Jersey, "is far superior to the average course." He has visited the most prominent courses in the South, and he says he is yet to find one better than Raleigh's. The natural lay of the land with a beautiful lake as part of the course makes it an inviting one to every lover of this popular sport. For the lover of other sports we have the Milburnie Fishing Club about six miles from Raleigh. In the city are the Capital and Elk's Clubs. West of the city, a quarter of a mile from the boundary, is Pullen Park, containing seventy-four acres with one of the largest bathing pools in the country. Bloomsbury Park, near the Country Club, contains one hundred acres.

Raleigh is on the Capitol Highway, the north and south line for automobile and other vehicles from Washington to Atlanta. It is midway between Boston and New Orleans and New York and Jacksonville, Fla., and on the great highway between Quebec, Canada, and Miami, in sub-tropical lower Florida, is equi-distant between the icebergs and the palms. Then, taking it east and west, it is on the Central Highway, from Beaufort to the Tennessee line, which is to be one of the links in the great Transcontinental Highway, which will unite North Carolina and California in its 3,000 miles of route.

Raleigh is a home of churches, for within her borders are large and influential churches. These are divided among the several denominations as follows: 17 Baptist, 2 Catholic, 4 Christian, 6 Episcopal, 8 Methodist, 2 Presbyterian, 1 Congregational, 1 Lutheran, 1 Non-Sectarian, 1 Undenominational, 1 Y. M. C. A., costing \$85,000, equipped with spacious gymnasium, swimming pool, library, bowling alleys and many departments of interest to its members, is a possession of which Raleigh is justly proud. Six hundred and seventy-five young men belong to this association, which tends to the moral, social, and athletic development of the young people. There are three hospitals: Rex for white people, and Leonard and St. Agnes for negroes.

The gas supply is 300,000 cubic feet daily; water supply, 5,500,000 gallons daily, with a consumption of 1,750,000 gallons daily; reservoir capacity, 2,000,000 gallons; filtering capacity, 3,500,000 gallons; impounding reservoir, 200,000,000 gallons; clear water reservoir,

PREFACE.

2,000,000 gallons. The water plant is now owned by the city, and was recently approved at a cost of \$475,000.00.

At no capitol in the country are there more buildings of institutions, etc., connected with the State government than in Raleigh.

These include the Capitol, Administration Building, Governor's Mansion, State Museum and Hall of History, Agricultural Department, State Library and Supreme Court Library, State Hospital for the Insane and Epileptics, State Prison, Agricultural and Mechanical College, State Poultry Farm, Confederate Soldier's Home, State School for the White Blind, State School for the Negroes' Deaf-Mutes and Blind, State Fair Grounds, State Experiment Farm.

There are two theatres and five movies, two orphanages, thirteen wholesale houses, dealing chiefly in groceries, drugs and chemicals, furniture, stoves and sheet-metal ware, farm implements, etc.

Any information regarding Raleigh can be promptly secured by writing the Secretary of the Chamber of Commerce.

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST:—To improve the directory business by the interchange of ideas, and by the exchange of competent employees

SECOND:—To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD:—To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH:—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

\$ 1 0 0 R E W A R D

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph Theo. F. Smith, Sec.-Treas., St. Paul, Minn. or

WHAT A DIRECTORY IS.

The **ONLY** advertising medium that
everybody has to consult.

It is in **constant** touch with all money
spenders.

It is always where it can be referred to

It is where you find up-to-date mer-
chants advertising.

TAKE THE OLD DIRECTORY HOME

YOUR WIFE

will find the names and addresses of many friends,
She will tell you that the Directory is just the thing
for invitation lists.

YOUR DAUGHTER

will be glad to have ready information on how to
get to strange addresses, Church Data, Club and
Organization Statistics, Postal Regulations, Etc.

YOUR SON

will find it both interesting and instructive. When
he grows up he will know where to quickly find in-
formation business men need.

YOUR MOTHER

will read the carefully prepared introduction and
marvel at the way the city is changing.

YOU

may use it yourself to settle the identity of persons
mentioned in newspapers; discussions that come up
in the homes, and for many other purposes. Try it.

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Raleigh City Directory.

A Live Wire

A representation of your business in the Special Classified Department of this Directory, with reference to it under the various classifications, will carry light to those seeking you.

Don't use an old Directory. It may lead you astray. The changes in a city are so numerous that an out-of-date Directory for present use is comparatively of little value. Buy a new Directory as soon as it is issued.

Put an Advertisement in next Raleigh City Directory and you will receive the benefits for months—what other medium can offer this?

NOW THAT THE NEW DIRECTORY IS OUT

TAKE THE OLD DIRECTORY HOME

YOUR WIFE

will find the names and addresses of many friends,
She will tell you that the Directory is just the thing
for invitation lists.

YOUR DAUGHTER

will be glad to have ready information on how to
get to strange addresses, Church Data, Club and
Organization Statistics, Postal Regulations, Etc.

YOUR SON

will find it both interesting and instructive. When
he grows up he will know where to quickly find in-
formation business men need.

YOUR MOTHER

will read the carefully prepared introduction and
marvel at the way the city is changing.

YOU

may use it yourself to settle the identity of persons
mentioned in newspapers; discussions that come up
in the homes, and for many other purposes. Try it.

100 Bushels of Corn Per Acre Easy

The above yield can be made by using the best fertilizers--in addition to your best seed selection, proper planting, and thorough working of the crop.

Use Virginia=Carolina High-Grade Fertilizers

(the best fertilizers made), and they will help you to get this excellent yield; but a great deal depends upon you, as explained in our new FARMERS' YEAR BOOK. This you can get on request of your dealer, or by sending us your name and address.

Fine Crops of Tobacco

can be raised if the ground is properly prepared before setting out the plants, and you liberally

Use Virginia=Carolina High-Grade Fertilizers

Then you should nourish the crop at frequent intervals during the growing period with the same plant food. Work well, being careful to feed the crop with only Virginia-Carolina Fertilizers, made especially for tobacco. This will insure a big crop of fine, high-grade tobacco that will yield big money.

Profitable farming is fully explained in our new free FARMERS' YEAR BOOK, or almanac, and it is yours for the asking.

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST:—To improve the directory business by the interchange of ideas, and by the exchange of competent employees

SECOND:—To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD:—To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH:—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

\$100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph Theo. F. Smith, Sec.-Treas., St. Paul, Minn. or

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.
